

THE WORLD IS OUR CLASSROOM

Field and Experiential Learning is an academic program at College of DuPage offering credit courses that combine classroom work with empirical field experience. Classes are experience based/faculty facilitated. The instructor's role is largely that of a facilitator who helps learning take place. Participants vary in age from 18 to 80+. Unless noted, all classes are for beginners.

Some participants enroll to earn credit toward a degree or certificate; others are interested in learning about or visiting a particular destination. Still others are interested in learning outdoor or wilderness skills. You are welcome, whatever your interests.

We are always adding new courses. We encourage you to visit our website at www.cod.edu/Academic/Field/Field_Int.htm for additional offerings, fee information or a more detailed description of courses.
