## Statement on Criminal Background Checks

All ranked and qualified students will be conditionally accepted pending clearance from a criminal background check. If a student is accepted and has a positive criminal background check, the student will be conditionally accepted and given one semester to clear the background check. They will be granted final acceptance during the next semester if the background check is cleared. If the student is not able to clear the background check after 1 semester they will not be accepted into the nursing program but may reapply at a later date. Criminal Background checks are submitted on all of the accepted students. If a student has a positive background check such as: A Felony this would not allow a student to acquire a license to practice nursing in the state of IL. Having a Misdemeanor does not guarantee acquiring a license to practice nursing in the state of IL.

## Statement on Medical Care and Health Insurance

Students are responsible for their own medical care and health insurance while in the program. Students must possess health care insurance in order to train at the clinical affiliate. The student is responsible for any costs that may be incurred related to personal injuries he/she may acquire while enrolled in the program. The affiliating clinical facility and/or College of DuPage cannot be held liable for such injuries. Students enrolled in at least 6 credit hours of classes may purchase student health insurance through Integrity Insurance and Financial.
