HEALTH REQUIREMENTS OVERVIEW

As a student of the College of DuPage (COD) health career programs, the completion of all health requirements is mandatory. Depending upon the program to which you are applying, medical requirements may need to be completed prior to registration for the class/program. Some programs will set a date that is after registration but before actual participation in the class. Please see the specific program registration or admission packet for detailed information on when to begin completing health requirements, drug tests, CPR, criminal background checks and proof of insurance submission. Timing varies depending upon either entrance to or participation in the clinical component of a given program. Health requirements are mandated by the clinical sites and are subject to change based on current medical advice and practices. The health requirements may be completed by your physician, local hospital or clinic, or Edward Corporate Health Services. The background check and drug screen must be completed through CastleBranch.com; CNA students are excluded from the background check. CNA students background checks will be completed at the mandatory orientation.

College of DuPage has partnered with Edward Corporate Health (ECH) to ensure compliance of students’ medical requirements. ECH has provided College of DuPage students with special pricing. Please note that ECH does not accept personal health insurance. Any charges are the student’s responsibility and are due at the time of service. It is recommended that students verify with their insurance provider whether required services are covered by their personal health insurance. If so, you may choose to have those services performed by a personal health care provider utilizing your health insurance. It is ultimately the student’s decision where they complete their health requirements. ECH, or provider of your choice, may complete all of the services; however, ECH must complete the required chart review. Please note: College of DuPage will not receive any of your medical records; they are your and your health care provider’s responsibility and property. ECH will provide a clearance form directly to you and College of DuPage.

To access ECH’s services, call the various location(s) (see page 8), identify yourself as a College of DuPage student and discuss what services you need. You must bring all required documentation to ECH for a Chart Review.
HEALTH REQUIREMENTS INFORMATION

The following immunizations are mandated by the clinical site and are important for our commitment to public safety including personal safety from exposure to potential disease during clinical work.

**HEALTH REQUIREMENTS PRICING**

Below is a list of health services and the current fees charged by Edward Corporate Health. Students may also check their local health department, convenient care locations or retail clinic, as they may offer some or all of the services. Students may use their own health care provider for any or all of the services with the exception of the background check and drug screen, which **must** be completed through CastleBranch. Please note that the cost for the health requirements is the responsibility of the student, and requirements and pricing are subject to change. The Chart Review **must** be completed by Edward Corporate Health and the student is responsible for the fee. The Medical Document Manager tracking will be completed by CastleBranch and you, as a student, will always have access to your medical records.

****Pricing is determined by Edward Corporate Health and is subject to change without notice****
