

JOIN THE VISIONARY FORCE

Exactly What Is This 3D (Discover Develop Do) Buzz Thing?

Each year, all year long, College of DuPage will examine important social issues that can focus, challenge, and change the ways the entire College community sees, creates, and acts on that social issue. The social issue for the academic year 2008-2009 is *Nurture | Nature: an exploration of the relationship between humans and their environments*. The Visionary Force conducts the planning for the focus of the year. Members of the Visionary Force can be faculty, staff, administrators, students, or community members.

I've Got Ideas! How Can I Share Them?

You're passionate about this academic year's social issue? You've got ideas? You know others who want to share their ideas about this social issue? Then, you've got the 3D Buzz! Remember when ordinary people like you could tell other ordinary people your great ideas and your dream projects? You can still do that today by becoming a member of the 3D Visionary Force, where you can join others who also have the 3D buzz to take great ideas beyond talk to action. All the credentials you need are the passion, desire, and commitment to:

- Share ideas and information related to the 3D focus for the year
- Help select 3D events, performances, activities
- Offer ideas for the 3D Website and Newsletter
- Help create and build excitement among others in the COD community to participate in the 3D focus for the year
- Encourage other faculty members to mine their courses for existing assignments that can be used or tweaked for the 3D focus
- Be a physical presence and spokesperson for 3D in general and the focus for the year in particular
- Promote to as many as possible in your network of relationships the 3D focus to get others excited and involved
- Integrate into at least one of your courses at least one unit that relates to the 3D focus for the year
- Engender excitement within the COD community for upcoming 3D events
- Promote 3D events by word-of-mouth
- Attend 3D events
- Connect with and use your existing network of relationships to engender involvement in the 3D focus for the year
- Help select 3D Mini-Grant recipients
