Subject: Message from Dr. McAninch

To C.O.D. Faculty & Staff:

As you are probably aware, the Board of Trustees has asked me to serve as Interim President for the next few months while the search for the new President takes place. I accepted the Board's offer because I know the College and feel that knowledge will enable us to move forward with little or no downtime and because I have a love for this institution and want to see it continue to successfully serve the students and citizens of this District. I will need your support in this endeavor to keep this College the great place to work and serve the educational needs of the area that it now is and has been in the past.

Hal McAninch
Interim President
