

Our 50' x 50' production studio has a 15' lighting grid wired for approximately 75,000 watts. The studio can be engineered for up to 5 cameras, 8 wireless microphones, 16 hard-wired microphones and 4 channels of intercom. The space seats a live audience of up to 45 people. Independent heating and cooling systems keep our studio participants and crew comfortable.

From general guidance in producing your concept to costs for various production services, contact us to discuss your project.
