- System Administration
- Data Management
- Internet Development & E-commerce
- Software Development
- IT Entrepreneurship & Management

CONVENIENT LOCATION

IIT's Rice Campus is 2 miles west of COD's Main Campus

SYSTEMS SECURITY NETWORKING SOFTWARE DEVELOPMENT

IIT'S MISSION

- IIT's Mission is to educate people from all countries for complex professional roles in a changing technological world and to advance knowledge through research and scholarship.

Students at IIT gain valuable real-life experience in the classroom through challenging hands-on assignments that are supported with strong faculty-student interaction. This experience prepares students to become innovators, entrepreneurs and leaders for the future.

"A range of disciplines that will expand your vision, widen your perspective, and develop your abilities"

No matter what your major, IIT offers you an enormous benefit: interdisciplinary learning. In classes and through projects, you'll be exposed to a range of disciplines that will expand your vision, widen your perspective, and develop your abilities.

IIT has championed its efforts to assure that the university's programs educate students who aspire to leadership roles in an increasingly complex and interconnected world. Through the introduction of an innovative interprofessional curriculum, accompanied by its signature Interprofessional Projects Program (IPRO), students prepare for the practical challenges they will face in an ever-changing, increasingly global workplace.

"IIT's Students aspire to leadership roles in an increasingly complex and interconnected world"

IIT is proud of its 115-year history of achievement in academics and research. The IIT community of 6,200 students, 600 faculty members and 38,000 living alumni are making their mark on the world as leaders in science, mathematics and engineering, as well as technology and

management, computing, architecture, design, psychology, business, and law.
