3. **BACKGROUND INFORMATION**
   Board Policy 10-60, 2-D states: The Board of Trustees delegates authority to the Purchasing Department to purchase from governmental contracts or cooperatives/consortium agreements that fully meet the requirements of Illinois law, in lieu of competitive bidding.

   These governmental contracts, cooperatives/consortium agreements meet the competitive bidding requirements of Illinois law.

   Below is a list of items purchased using governmental consortium/cooperative agreements.

   E&I Cooperative Services, Agreement # CNR-01163. Contract includes all Illinois Community Colleges.

   Workplace Answers, LLC currently provides three compliance training courses for the College at the annual cost of $12,890. The Ethics Training Course will also be included in this price, contingent upon entering into a three year contract. In addition, approximately 30 other Higher Education Courses will also be available to us in the Workplace Answers, LLC online training library.

2. **REASON FOR CONSIDERATION**

   A single contract exceeding the statutory limit of $25,000 must be approved by the Board of Trustees.

   The evaluation of the Higher Learning Commission pointed out that the College currently has no ethics training program for our administrators, faculty and staff. Upon receipt of the report a comprehensive ethics training program specifically for institutions of higher education was identified. All administrators, faculty and staff will be required to complete this training.

   With an estimated annual cost of approximately $15,000, written quotes were obtained from three vendors per policy. Appropriate training was identified by researching options available through the State of Illinois Executive Ethics Commission, The Office of the Executive Inspector General for the Agencies of the Illinois Governor, Illinois University employees, and peer community colleges.

   Ethics training provided by three vendors most used by peer community colleges for compliance training were evaluated by Judy Coates, Manager of Learning and Organizational Development, and Jim Martner, Director of Internal Audit. It was determined that the *Code of Conduct for Higher Education* by Workplace Answers, LLC was the most applicable to College of DuPage and covered the topics required in Board Policies.

Workplace Answers, LLC currently provides other compliance training for the College. For the same annual cost we are paying, with a three year contract Workplace Answers, LLC will upgrade our current subscription of three online courses to the subscription of an online library of 30 higher education courses, including the ethics course.

This purchase complies with State Statute, Board Policy, and Administrative Procedures.

4. **RECOMMENDATION**

That the Board of Trustees awards a three year contract for an online compliance training course library including ethics training to Workplace Answers, LLC, 4030 W. Braker Ln., Ste. 250, Austin, TX 78759, for an expenditure of an annual fee of $12,890.00, with a total three year cost of $38,670.00.

1. **SUBJECT**
Comcast Spotlight LLC Advertising in the amount not to exceed $40,000 for McAninch Arts Center (MAC), Fiscal Year 2016.

2. **REASON FOR CONSIDERATION**
A single contract exceeding the statutory limit of $25,000 must be approved by the Board of Trustees.

3. **BACKGROUND INFORMATION**
Comcast Spotlight will provide the MAC with targeted cable television and online advertising services to promote multiple Touring, New Philharmonic and Family Series Events. With cable reaching over 90% of TV households, the services provided by Comcast Spotlight will allow the MAC to cost effectively reach and engage very specific target markets in our district with the goal to sell tickets and strengthen brand awareness of the MAC. Because of positive results in FY15 combined with a very unique targeting capability, the MAC has decided to increase the use of Comcast Spotlight in its FY16 advertising campaign for a total 25 shows. In FY16, the planned spend is not to exceed $40,000 as compared to the actual spend of $27,320.69 in FY15.

Quote comparisons and bidding does not exist for Comcast Spotlight because it is considered a sole source of advertising. Comcast Spotlight is the only TV provider that can run ads on both Comcast and AT&T, the two predominant TV provider companies in the district required to reach the MAC targeted audiences. This proposal expenditure is based on the best rates available and Comcast has agreed to also provide a match of free commercials for every dollar the MAC spends, which doubles the impact of our very conservative schedules.

This purchase complies with State Statute, Board Policy and Administrative Procedures. The purchase of services of individuals possessing a high degree of professional skill are exempt from bidding under Illinois Public Community College Act, 110 ILCS 805/3-27.1.
This expenditure is budgeted in the Touring and New Philharmonic MAC accounts.

BOARD APPROVAL

1. SUBJECT
The planned capital purchase of an electronic organ for the Music Program.

2. REASON FOR CONSIDERATION
Purchases of an item exceeding the statutory limit of $25,000, must be approved by
the Board of Trustees.

This purchase is necessary in support of student education and performance within
the Music Program. The purchase is to replace an antiquated and unreliable electric
organ, used in concert and accompaniment with student music ensembles and rental
performances.

The current electric organ, purchased as a discontinued model in the 1960s, relies
upon vacuum tube technology; replacement parts are scarce if not unavailable. The
unreliable performance has required altered music selections for choral and
ensemble performances and makes it difficult to offer students a full range of choral
accompaniment.

A legal notice was published and four (4) vendors requested documents. Three
vendors submitted bids. All three are in-district vendors. No women- or minority-
owned businesses responded.

This purchase complies with State Statute, Board Policy and Administrative
Procedures.

1. **SUBJECT**

   Purchase of Articulating Tractor

2. **REASON FOR CONSIDERATION**

   A single contract exceeding $25,000.00 must be approved by the Board of Trustees.

3. **BACKGROUND INFORMATION**

   A legal ad was published and an Invitation to Bid was released requesting bids for a new or used Articulating Tractor. Five (5) vendors requested the documents, and we received three (3) bid responses. No in-district or minority/women-owned businesses responded.

   All College buildings have exterior capsule signs to allow way finding for our students and the community. The new Homeland Security Training Center is now ready to have these signs installed.

   One trade bid package was published for two exterior capsule signs for the Homeland Security Training Center (HTC) Project that included the exterior capsule signs to be installed on the west and north elevations. The costs of all materials were included in the lump sum bid amount.

   The College estimated the total cost of this bid package to be $80,000.00. The recommended contractor bid is $52,291.00 or $27,709.00 below the estimate. A scope review meeting was conducted. Based on the College’s review, it is recommended that the bid be awarded to the lowest responsible bidder: All American Sign Co., Inc.

   A legal bid notice was published and 19 vendors were solicited. Fifteen vendors downloaded the bid documents. Five responses were received. One vendor is in-district and no minority vendors were identified. One response was disqualified because not all proper documentation was submitted.

   Miller Exterior Capsule Signage Bid No. 2016-B0013 (Bid Rejection).

2. **REASON FOR CONSIDERATION**

   Bid rejections must be approved by the Board of Trustees.

3. **BACKGROUND INFORMATION**

   This item represents a bid to furnish all labor, materials, equipment and services as required to fabricate and install replacement signage on the Homeland Security Education Center (HEC). The current name on the facility to be changed to SSG Miller Homeland Security Center.

   A legal notice was published and 41 vendors were solicited. 16 firms downloaded the documents. One firm provided a bid response, but it was deemed invalid because it did not acknowledge the addendum. There were no minority/women-owned or in-district responses. One (1) valid response was received. This bid exceeded the budget by over 10%.

   A follow-up survey was sent to those firms which downloaded documents:
   - One firm advised after bid that they believed there was a requirement for WBE/MBE and chose not to pursue that type of arrangement.
   - One firm advised that they thought they had submitted a response. It was later determined that they had responded to a different but similar bid package.

4. **RECOMMENDATION**

   That the Board of Trustees rejects the bid received for the Miller Exterior Capsule Signage due to budgetary concerns and limited participation.

It also targets students interested in careers in research and data-related fields either in the public, academic, or private sector.

c. Related occupations. The label “data scientist” is still relatively new and not yet indexed in a lot of labor market databases, such as the Bureau of Labor Statistics (BLS). However, the certificate specifically targets people in the following occupations as well as occupations adjacent to these (such as assistants):

- Data scientist
- Data analyst
- Business analyst
- Business intelligence
- Information analyst
- Statistician / statistical analyst
- Market research

The proposed certificate is based on imparting skills that are applicable to a variety of fields, such as:

- Social sciences / Academic research
- Business / market research
- Criminal Justice
- Natural sciences
- Health / Public health
- Government
- Non-profit sector

d. Supply-Demand Information. As mentioned, the BLS has not yet indexed the title of “data scientist”. However, the proposed certificate would be applicable to the occupations mentioned above or related (assistants, analysts), lower-level, occupations. There are applicable data for two such occupations:

e. Alternate Documentation.
There is no alternate documentation for this certificate.

f. Planning and Collaboration. Data science skills are applicable to many career and technical fields (see above). There is a need for a beginner-level curriculum both for employees involved in any kind of research and data analysis work, and for undergraduate students seeking transfer curriculum in research and analysis.

1) Educational & Workforce Partnerships. The certificate is designed primarily for online delivery, therefore targeting already-employed students as well as current transfer students. Part of the curriculum is IAI-compliant, while the rest of the curriculum will be integrated within transfer degrees. In addition, part of the curriculum will be used in other programs, such as Human Services, and potentially, management. Partnerships with baccalaureate institutions will be explored.

2) Employer Input. Not applicable.

g. Related Offerings: There is currently no other local school that offers this curriculum.

h. Regional Programs: The program is not seeking regional designation.

2. Need Summary. Existing certificates (undergraduate or graduate) are very specialized and focus on narrower aspects of the data analysis process. Certificates also exist in schools of Continuing Education but they often carry prerequisites or prior undergraduate degrees.

There are very few generalist (non-disciplinary) certificates. Moreover, most of these certificates focus on the technical and statistical aspects of data processing (which is why they are often housed in computer science department) and almost never on the production of data through the research process. The proposed certificate offers an introduction to the entire data process: production, processing, treatment, analysis, and presentation of data, at undergraduate / beginner level.

This certificate will allow professional in multiple fields to acquire the fundamental skills of research and data analysis. Their position may not be titled “data analyst” per se but does require the skills.
The certificate will also allow professionals to enhance their resumes as these skills are in high demand in multiple fields.

**CURRICULUM QUALITY**

1. Curriculum Information

   a. Program purpose:

      1) **Catalog description.** Data science is an emerging field due to the explosion of "big data". The importance of a good understanding of data is crucial in a multiplicity of fields, such as the social sciences, criminal justice, education, public health, the non-profit sector, and many others. By completing this certificate, students will acquire the fundamental skills of research and data analysis.

      2) **Curriculum.** See Part B.

   b. Educational alignment:

      1) **Academic/Curricular Alignment.** Currently there are no opportunities for dual credit within this curriculum.

      2) **Relationship to existing curricula at the college:** The Foundations of Data Science Certificate draws on two current Sociology courses and one current Psychology or Anthropology course while adding one new Sociology course that will be housed in the Sociology program. Students who complete the Foundations of Data Science certificate will be able to apply all of the credits toward both the certificate and the Associate in Arts (AA) or Associate in Science (AS).

      3) **Articulation.** None.

      4) **Academic & Technical Skill Requirements.**

         (a) **Academic Entry Skills:** Aside from appropriate college placement scores, this program has no specific entry skills requirements aside from admission to the College. If students encounter reading or writing difficulties, they will be given the full assistance of the College’s vast resources, including the Library and Learning Commons. As with other programs which also do not have any prerequisites, students who are identified as needing remedial assistance will be addressed directly by faculty within the program.

         (b) **General Education:** All the courses in the certificate are general education courses, in the social science area.

         (c) **Technical Skills:** The certificate does not involve any licensure or certification.

      5) **Career Development.** All courses are general education courses, in the social sciences. No resources are allocated for career development.

      6) **Course Syllabi.** See Part B. Active course file for new course (Sociology 1205) provided.

   c. **Work-Based Learning.** This certificate does not require work-based learning.

   d. **Accreditation for Programs.** There is no accreditation for this certificate.

   e. **Assessment of Student Learning:**

      1) **Student Learning Objectives.** Graduates of the Foundation of Data Science Certificate program are expected to meet the following objectives:

         - Describe the different steps in the data analysis process.
- Use the tools of data analysis.
- Compare and contrast different research methods.
- Apply statistical techniques appropriately.

2) Assessment of Student Learning Objectives.

f. Continuous Quality Improvement.

1) College of DuPage has an extensive continuous quality improvement mechanism that is part of the Academic Program Review process. Each program is required to conduct an annual Student Outcomes Assessment Project (SOAP) and report not only the findings of the project each year, but also report how the data obtained from the project was used to improve the quality of the program.

2) An integral part of the program review process includes an in-depth examination of student learning objectives, and how effectively our students attained those objectives. Usually, this includes an affirmation of the items that are determined to be attained successfully. This also includes review of areas where additional examination is needed, and an exploration of instruction, instructional resources, and how student learning can be improved. College of DuPage is a member of the AQIP (Academic Quality Improvement Process) of the Higher Learning Commission, and continuous improvement of the learning paradigm is an expected role within each department. Continuous improvement begins with the use of the classroom level assessment evidence obtained by each faculty member in the program. Improvement at this level can occur on a day-to-day, i.e., immediate basis. Continuous improvement at the program level is measured and determined within each round of program review activity. Not as immediate as day-to-day processes by instructors using classroom assessment techniques, but nevertheless, conducted in a scheduled and systematic manner, just as with the general education process.

3) The Foundations of Data Science certificate does not require educational, business, or community partners that will participate in the improvement process.

2. Unique or noteworthy features of the program. There are currently no similar programs at the College. This certificate is designed for full online delivery, which will be convenient for students already in the workforce looking
to upgrade their skills in data science and who might not have the time for classroom instruction. In the initial stages, this will also broaden the general pool of potential students.

3. Faculty Requirements.
   a) Faculty Qualifications. See Faculty Qualifications Chart in Part B.
   b) Faculty Needs. One existing full-time faculty member will be needed to implement this program. No additional faculty are required.

4. Academic Control.
   a) Internal Oversight. Academic control of the program will be maintained by the College of DuPage administration and in particular the Associate Dean of Social and Behavioral Sciences will be responsible for control over the program, faculty, student admissions, and program content and quality.
   b) Contractual/Cooperative Agreements.
      There are no contractual or cooperative agreements for this certificate.

COST ANALYSIS

1. Source of Funds.
   No additional funds will be needed beyond the current allocation for faculty member’s professional development.

2. Equipment.
   No additional equipment is needed.

3. Facilities.
   The certificate is designed to be run online. There are no additional expenses for facilities. The college has sufficient online support.

4. Finance.
   See Finance Chart in section 4b.

Re: Board of Trustee Approval on  
New Certificate – **Fund Development in Human Services Certificate**

I am in support of, and am requesting Board of Trustee Approval on the following new certificate within the Health and Sciences Division:

**Fund Development in Human Services Certificate**

The purpose of the Fund Development in Human Services Certificate is to provide students in the Human Services program, and related disciplines, as well as professionals from non-profit organizations, advocates and providers, knowledge and expertise in the areas of fund development. The courses in the Fund Development in Human Services Certificate focus on fundraising theory, history, strategy, implementation, and practice.

This certificate targets students in the Human Services program, and related disciplines, as well as professionals from non-profit organizations, advocates and providers. We believe that students in Human Services would have an interest in adding this certificate to their portfolio. This certificate will prepare the student to be a Fund Raising Assistant. In addition, the skills gained from this certificate are considered useful to professionals who are responsible for fund development in non-profit organizations.

Form 20 is attached; and all required forms (for division and college curriculum committees) have been completed by the faculty and have been forwarded on to Betty Willig, Coordinator of College Curriculum. This certificate will be processed through the Illinois Community College Board once C.O.D.’s Board has approved it.

Please place the Fund Development in Human Services Certificate on the Thursday, December 17, 2015 Board of Trustees’ agenda for approval.

Please contact me if you have any questions.

   g. Related Offerings:
      There is currently no other local school that offers this curriculum.
   
   h. Regional Programs:
      The program is not seeking regional designation.

2. Need Summary.
Based on conversations with community service providers and our advisory committee, this program appears to fill an important niche. The certificate could possible lead to employment opportunities as a fundraising assistant. In addition it is clear that the skills and knowledge taught will benefit workers across many occupations.
CURRICULUM QUALITY

1. Curriculum Information.
   a. Program purpose:
      1) Catalog description.
      The Fund Development in Human Services Certificate is designed to provide knowledge and expertise in the areas of fund development. Courses focus on fundraising theory, history, strategy, implementation, and practice. Students in the Human Services program, professionals from non-profit organizations, advocates, and providers, would benefit from completion of this program.
      2) Curriculum.
      See Chart B
   b. Educational alignment:
      1) Academic/Curricular Alignment
      Currently there are no opportunities for dual credit within this curriculum. Students who are new to the certificate or who are considering the certificate will have one-to-one advising opportunities. The program has three full-time faculty members and a dedicated advisor to address student questions and concerns. This allows for smooth transition into and through the certificate.
      2) Relationship to existing curricula at the college:
      The Fund Development in Human Services Certificate draws on three current Human Services courses while adding two new course that will be housed in Human Services. It will also include one new course housed in Sociology, fostering interdepartmental collaboration. The current courses are well-established and regularly offered in the program. All of the courses – both new and old – will be taught by current faculty in the Human Services department and utilize existing resources.
      3) Articulation.
      Human Services has recently completed an articulation agreement with National-Louis University (NLU), which will accept up to 90 hours of transfer credit, including all of the coursework required for an AAS in Human Services. Three courses contained in this proposed certificate will transfer toward a BA degree at NLU if students choose that path.
      4) Academic & Technical Skill Requirements.

(a) Academic Entry Skills:
This program has no specific entry skills requirements aside from admission to the College. If students encounter reading or writing difficulties, they will be given the full assistance of the College’s vast resources, including the Library and Learning Commons. As with other programs within Human Services, which also do not have any prerequisites, students who are identified as needing remedial assistance will be addressed directly by faculty within the program and encouraged to improve their skills before continuing on.

(b) General Education:
There are no general education courses or requirements in this certificate.

(c) Technical Skills:
There is currently no professional licensure or certification associated with the training provided by this certificate.
5) Career Development.
All Human Services students are exposed to professionals in the field who speak about trends occurring within human services. The College provides career assistance in the form of resume development and interviewing skills. The Human Services office continuously updates students about job opportunities via a bulletin board and email notifications.

6) Course Syllabi.
A syllabus for each of the two new proposed courses, Human 2230 and 2235 are attached as Appendix A.

c. Work-Based Learning.
This certificate does not require work-based learning.

d. Accreditation for Programs.
The Human Services program maintains accreditation through the Council for Standards in Human Service Education, with the current accreditation running through October 2018. The Fund Development in Human Services certificate will be held to the same high standards as all of the existing programs within the Human Services curriculum and monitored under the current accrediting body.

e. Assessment of Student Learning:

1) Student Learning Objectives.
Graduates of the COD Fund Development in Human Services Certificate program are expected to meet the following objectives:
   a) Identify funding sources for non-profit organizations
   b) Develop a basic program budget
   c) Create a fundraising plan
   d) Identify resources available to various populations
   e) Prepare the narrative components of a request for grant proposal

f. Continuous Quality Improvement.

1) College of DuPage has an extensive continuous quality improvement mechanism that is part of the Academic Program Review process. Each program is required to conduct an annual Student Outcomes Assessment Project (SOAP) and report not only the findings of the project each year, but also report how the data obtained from the project was used to improve the quality of the program.

2) An integral part of the program review process includes an in-depth examination of student learning objectives, and how effectively our students attained those objectives. Usually, this includes an affirmation of the items that are determined to be attained successfully. This also includes review of areas where additional examination is needed, and an exploration of instruction, instructional resources, and how student learning can be improved. College of DuPage is a member of the AQIP (Academic Quality Improvement Process) of the Higher Learning Commission, and continuous improvement of the learning paradigm is an expected role within each department. Continuous improvement begins with the use of the classroom level assessment evidence obtained by each faculty member in the program. Improvement at this level can occur on a day-to-day, i.e., immediate basis. Continuous improvement at the program level is measured and determined within each round of program review activity. Not as immediate as day-to-day processes by instructors using classroom assessment techniques, but nevertheless, conducted in a scheduled and systematic manner, just as with the general education process.
3) The Human Services Advisory Committee meets twice per year and consists of members of faculty and local service providers. The members from local providers accept our students at their facilities for internships and often hire them as employees. The committee’s input is invaluable in determining program changes and updates that need to be made.

2. Unique or noteworthy features of the program.
Whereas other certificates offered in Human Services are lengthy and require field learning, the Fund Development in Human Services certificate could be completed in 2 semesters and could be tailored to include service learning hours. In addition, the intention is to make all of the courses required for the certificate available online, thus enhancing the pool of potential students. The Fund Development in Human Services certificate draws on three current Human Services courses while adding two new courses that will be housed in Human Services. It will also include one new course housed in Sociology, fostering interdepartmental collaboration. The current courses are well-established and regularly offered in the program. All of the courses—both new and old—will be taught by current faculty and utilize existing resources.

3. Faculty Requirements.
   a) Faculty Qualifications.
   See Faculty Qualifications Chart in Part B.
   b) Faculty Needs.
   One existing full-time faculty member and two existing adjunct faculty members will be needed to implement this program. No additional faculty are required.

4. Academic Control.
   a) Internal Oversight.
   Academic control of the program will be maintained by the College of DuPage. Administration, and in particular the Associate Dean of Social and Behavioral Sciences, will be responsible for control over the program, faculty, student admissions, and program content and quality.
   b) Contractual/Cooperative Agreements.
   There are no contractual or cooperative agreements for this certificate.

COST ANALYSIS

1. Source of Funds.
There are minimal costs associated with the creation and implementation of this certificate.

2. Equipment.
No additional equipment is needed.

3. Facilities.
The College has adequate space to offer all of the required courses. There are no additional expenses for facilities.

Assignment Requirements:

**Attendance and Participation – 160 points**
Active participation is a critical element of this class. You need to read all materials before class and come prepared. Activities may be given in class or as homework to further our discussions and understanding of the material and they will be worth points toward the participation grade.

**Each class period = 10 points.** Points are lost if students are not present, not prepared, arrive significantly late or leave early, or do not participate.
Assignment #1: Identifying Funding Resources – 40 points
Identify 5 funding resources for your proposed funding project. Summarize the resource and analyze/explore it’s “fit” for your funding project.

Assignment #2: Identifying Goals and Objectives – 40 points
List and explain what you hope to achieve with your project. Goals refer to the general things that you want to accomplish — for example, “We will start an after-school program for children from our community,” or “We will try to help people earn more income through the creation of a cooperative business.” Objectives are outcomes, more specific things that can be easily measured — for example, “Reading ability for 65 children will be improved; we will show this improvement by comparing before and after scores on a short reading test,” or “People who participate in this cooperative will show an increase in their income after one year.”
For both goals and objectives, be as specific as possible. This is key.

Quizzes – 60 points
Students will be quizzed on various terms and concepts from class readings and class discussions

ABSENCES
It is the student’s responsibility to obtain any information or materials missed. Any missed exams or projects will result in a “0” for the exam or project. In the event there is an absence you will be allowed to turn in the assignment at the beginning of the next scheduled class. Students are allowed two unexcused absences. Each absence after that will deduct 10 points from the

**Appendix B: Supporting Occupational Data**

The number of organizations that qualify for grant funds has risen sharply over the last three decades. Nearly 90,000 trusts, foundations, government agencies, and other organizations provide more than $40 billion annually in awarded grants in the United States, and more than $240 billion is contributed worldwide by individuals, bequests, foundations and corporations (*The Foundation Center, 2008*).

The Fund Development in Human Services Certificate will prepare the student to be a **Fund Raising Assistant** – see job description below.
There is not a separate SOC category for Fund Raising Assistant in the Occupational Outlook Handbook. The best match appears to be the Fundraiser occupation.

According to the Occupational Outlook Handbook, the job outlook, 2012-22 for Fundraisers (SOC 13-1131) is 17% (faster than average).

According to the Occupational Outlook Handbook, the 2012 Median Pay for Fundraisers is $50,680/year. A Fundraising Assistant earns an average salary of $35,728 per year. For the first five to ten years in this position, salary increases somewhat, but any additional experience does not have a big effect on pay. A skill in Grant Writing is associated with high pay for this job. Most people move on to other jobs if they have more than 10 years' experience in this field.

Job Description for Fundraising Assistant

A fundraising assistant is responsible for administrative support to fundraising staff and the fundraising director. The assistant also participates in all fundraising activities, including donor relations, direct mailings, and special events.

Primary duties include processing donations and writing acknowledgement letters and other correspondence; maintaining office files for corporate, foundation, and individual donors; producing and mailing annual letters of appeal; and updating the database containing records of donations, including tax deduction documentation. The assistant will also research donors, including identifying potential new donors and updating information on current and past donors.

The assistant will help with charity events, including preparing registration materials for guests and insuring their correct completion. Attending these charity events is often required, and there are typically several such events each year. The assistant is also responsible for helping with quarterly meetings of the development committee, including preparing/distributing the notice of meeting, the agenda, and typing the minutes. Other duties are often assigned as needed.

Although the work is performed mostly in offices, there is some physical labor involved in transporting boxes of materials to fundraising events. The ability to lift 25 pounds is necessary. Familiarity with Microsoft Office, Excel, and PowerPoint are required and knowledge of GiftMaker Pro would be a plus.

While an Associate's or Bachelor's degree is often required for this position, experience could substitute for education. Typically, three years of experience in a development office or similar fundraising or charitable setting would be required for an applicant without a degree. An ability to prioritize assignments is important, as are excellent communication skills, both written and verbal. Applicants must be able to write correspondence from scratch with little to no input from staff or the director.

Perhaps the most important aspect of this position is interacting with donors and potential donors. Donors are the lifeblood of any charitable organization; the assistant must not only be diplomatic, accommodating, and outgoing, but must possess exceptional social skills and a fair amount of emotional intelligence.
Although most of the work is performed in an office, some will be performed at local hotels, ballrooms, and other meeting spaces where events are held.

The work schedule is usually Monday to Friday from 8:30 to 5:30, but some days could start as early as 7:00 am and last late into the evening when board meetings are held or charitable events are scheduled. Because charitable events are often held on weekends, some weekend work is necessary.

Typically, the fundraising assistant works closely with the development director and fundraising staff. On any given day, however, he/she could work with anyone from the wealthy CEO of a major international corporation to the maitre d' at a local hotel.

Fundraising Assistant Tasks

- Helps recruit and train volunteers for fundraising events.
- Assists in planning fundraising activities.
- Responds to inquiries and requests for fundraising information.
- Updates and maintains volunteer and donor record

Meeting called to order and approval of the agenda: All members approved the agenda at 6:34 p.m.

Minutes approved from the last meeting

**Introductions / Agency Updates**  
- All members introduced themselves and provided an overview of their agency’s services  
- Debbie Perry shared agency updates for YWCA including restructuring the sexual assault program into three separate departments: Counseling, Advocacy & Crisis Intervention, and Education, each with its own manager.  
- Debbie sees growth in their services, especially working with local hospitals and college campuses around the issue of sexual assault prevention. In particular, schools such as Governors State University, which recently built housing units for students, are seeing issues around sexual violence.

**Trends in Human Services Field**
- Debbie Perry said she has seen a trend in DuPage County where the State's Attorney requests that video recordings be made when police interview sexual assault victims. This happens only after the victim has completed two full sleep cycles to ensure accuracy. Survivors have the right to refuse to be videotaped, but this is creating new issues in court cases.

Curriculum
- Jason Florin introduced the plan to restructure the Human Services Domestic Violence curriculum to address the training needs of students and local agencies without being prohibitively lengthy.
- Debbie Perry supported the concept of students completing approximately one year of education followed by practicum/field placement hours at one of the agencies working with DV, such as YWCA.
- Currently the DV curriculum requires 48 credit hours, but this could be shortened almost in half and still remain rigorous and prepare students to be entry-level professionals.
- Andrea Polites also suggested that specific training for students interested in working with domestic violence offenders might be an option.
- Debbie Perry voiced her support of the creation of courses around Fund Development/Raising. The YWCA is already a service learning site and would be willing to work with students enrolled in these courses.

Partnership on Protocol
- Jason Florin introduced the possibility of working with the YWCA to establish protocol for prevention of and response to sexual assault among College of DuPage students. This is a requirement of the federal law known at Title IX, which requires college campuses to have protocol in place to prevent and respond to sexual assault on campus.

The Minutes:

Meeting called to order and approval of the agenda: All members approved the agenda at 6:30 p.m.

Minutes approved from the last meeting: All members approved the previous meeting minutes.
Introductions / Agency Updates
- All members introduced themselves and provided an overview of their agency’s services
- Nancy Connelly shared that Gateway is planning to expand residential treatment beds in 2015
- Bruce Sewick reported reduction in state funding for medication and ancillary services for people with mental illness
- Maryellen Schaeffer expressed that DuPage Senior Services employs 70+ people, several of whom are former COD graduates
- Amy Matthews indicated that she is leaving her position with Way Back Inn this spring; also stated that the agency lost 100% of its problem gambling funding due to state cuts

Impact of State Budget on Programming
- Consensus emerged that agencies have already begun to see reductions in services related to cuts made by the Illinois governor for social services
- Several members of the committee expressed concerns that cuts would deepen in coming months and years, but that these reduction could lead to greater expenses when people who are aided by social services experience relapses and recidivism

Future Curriculum Development
- Described one new (Mental Health First Aid) and one upcoming (Funding and grant development in Human Services) certificate
- Strong support for both the Mental Health First Aid certificate for fall 2015 and a proposed Fundraising & Grant Development for Non-Profit Agencies in 2016
- Bruce Sewick, Nancy Connelly, and Maryellen Schaeffer all expressed an interest in the fundraising program and said it would be a benefit to interns and employees in their agencies
- Addressed the existing course requirements in both the AAS Addictions and AAS Generalist programs. Changes were made to coursework requirements in 2012 and have improved student retention and ease of movement through the programs. However, small additional changes at this time can further enhance learning and transferability:
1. AAS Human Services (Generalist) --- No need to require 2223, which is a repeat of information given elsewhere, namely 1113, 2212, & 1175. Students are not receiving as much information on family dynamics, and there has been support for bringing the 2240 course back in as a requirement. If 2240 replaces 2223, then we can reduce electives by 1 credit and maintain the same number of total hours.

2. AAS Addictions Counseling --- The new 3+1 agreement with national Louis University specifies that students need to take Human 2280, which is currently a program option. Making this part of the core requirement in lieu of the three elective hours will prevent students from taking additional, unnecessary credits prior to transferring. The agreement with NLU also requires transfer students to take Human 2240, but not Human 1180. By making either course an option to fulfill the AASA degree requirement, students can choose the one that works for their particular situation.

**Upcoming Events**

Reported on four upcoming events at COD:
- Rock Away Violence for Eva Alliance on 4/17
- Child Abuse and Sexual Assault Awareness Fair on 4/20
- Recovery Month Event on 9/11
- Human Trafficking Event on 10/22

**Field Placement Process**
- Distributed a handout that explains the expectations for each student and agency during the field placement
- All present who accept interns said that their recent experiences with student interns from COD had been positive; no concerns noted

Re:      Board of Trustee Approval on  
          New Certificate – Paraprofessional in Education Certificate

I am in support of, and am requesting Board of Trustee Approval on the following new certificate within the Health and Sciences Division:

Paraprofessional in Education Certificate

Offering this certificate would give students a well-rounded introduction to the teaching profession. The certificate may also allow the discipline of Education the opportunity to offer some methods courses. The field of teaching was once saturated with licensed teachers who would accept work as paraprofessionals due to the fact that they were unable to find teaching positions, but that pool of teachers has been exhausted, and districts are currently in need of paraprofessionals.

The Paraprofessional in Education certificate targets those students who wish to become a teacher assistant, and would like to have experience in working with students prior to obtaining employment. Additionally, students who wish to transfer to four-year institutions to obtain their teaching license could use this certificate as a stepping-stone.

Form 20 is attached; and all required forms (for division and college curriculum committees) have been completed by the faculty and have been forwarded on to Betty Willig, Coordinator of College Curriculum. This certificate will be processed through the Illinois Community College Board once C.O.D.'s Board has approved it.

Please place the Paraprofessional in Education Certificate on the Thursday, December 17, 2015 Board of Trustees' agenda for approval.

Please contact me if you have any questions.

FEASIBILITY
1. Labor Market Need.

a. Program purpose:
Offering this certificate would give students a well-rounded introduction to the profession. The field was once saturated with licensed teachers who would take paraprofessional positions because they were unable to find teaching positions, but that pool of teachers has been exhausted, and districts are in need of paraprofessionals.

b. Target population.
This certificate targets those students who wish to become a teacher assistant. Additionally, students who wish to transfer to four-year institutions to obtain their teaching license could use this certificate as a stepping-stone.

c. Related occupations.

d. Supply-Demand Information.
See Enrollment Chart in section 1c.

e. Alternate Documentation.
See attached Education Advisory Board minutes.

f. Planning and Collaboration.

1) Educational & Workforce Partnerships.
See attached Education Advisory Board minutes.

2) Employer Input.
See attached Education Advisory Board Minutes.

g. Related Offerings:
A Paraprofessional Certificate is offered at many community colleges in the state of Illinois. The Associate in Arts of Teaching is also offered at many community colleges, which leads into a bachelor’s degree and to teacher licensure.

h. Regional Programs:
This program is not seeking regional designation.

2. Need Summary.

CURRICULUM QUALITY
1. Curriculum Information.

a. Program purpose:
The purpose of this program is to prepare students to be employed as paraprofessionals in K-12 schools.

1) Catalog description.
The Paraprofessional certificate is designed to prepare individuals to take on the role of a paraprofessional, also known as a teacher’s assistant, in a K-12 classroom. Students will take a variety of classes to introduce them to aspects of teaching and learning that will help them to be successful as a paraprofessional. Additional requirements must be met for Illinois licensure.

2) Curriculum.
See Curriculum Chart in section 2a.
b. Educational alignment:

1) Academic/Curricular Alignment.
The Education discipline currently has dual credit agreements with a number of local high schools. Those schools teach Education 1100 and Education 1101. Articulation between College of DuPage dual credit instructors has improved significantly, as they use the same standards-based, common summative assessments that are used at the College. Using the same summative assessments allows for the alignment of courses, even those taught outside of the College.

2) Relationship to existing curricula at the college:
This program will allow students who wish to become a teacher assistant that opportunity. It will also allow students to use the program as a stepping stone to completing a bachelor's degree at a four year institution in the field of Education.

3) Articulation.
The Education discipline currently has a 2+2 with Lewis University in which students complete a portion of the courses at the College and then transfer to Lewis. The courses required for the Paraprofessional Certificate are also courses that could be used for the Lewis 2+2 program. The Education department has also invested in articulating with other four year institutions including, Elmhurst College and DePaul University.

4) Academic & Technical Skill Requirements.

(a) Academic Entry Skills:
This program has no specific entry skill requirements aside from admission to the College. If students encounter reading or writing difficulties, they will be given the full assistance of the College’s vast resources, including the Library and Learning Commons. Students who are identified as needing remedial assistance will be addressed directly by faculty within the program and encouraged to improve their skills before progressing through the program.

(b) General Education:
The general education requirements support the technical requirements because they are preparing students for the Work Keys exam. Through the general education courses, students are also building their professional portfolio, which will support the development of their technical skills.

(c) Technical Skills:
Obtaining a Paraprofessional License from the State of Illinois is required for students who wish to become employed as a teacher assistant. Students will need to complete the application for their license through the DuPage County Regional Office of Education. If students have less than 60 hours of college coursework, they will also have to sit for the Work Keys exam prior to obtaining their license.

5) Career Development.
Beginning with the first meeting with the program advisor students will develop a comprehensive plan to complete their education. With each class, students will be building their professional portfolio, which will serve as a tool for future employment. The practicum will also serve as a chance for students to develop relationships with potential employers. The full-time faculty members and the program advisor will be available for interview coaching when students are applying for jobs. The College also provides career assistance in the form of resume development and interviewing skills to support the efforts of the faculty and program advisor.

6) Course Syllabi.
See Appendix A.
c. Work-Based Learning.
There are no Contractual/Cooperative agreements in place at this time.

d. Accreditation for Programs.
There is no state certification for the Paraprofessional License, but students will apply for the Paraprofessional License through the State of Illinois at the completion of the certificate.

e. Assessment of Student Learning:

1) Student Learning Objectives.
   • Design educational material, instructional aides, and activities to support learning under the direction of classroom teacher
   • Under the direction of the teacher, review lessons, reinforce instructional concepts, and provide drill and practice opportunities with individuals or small groups of students
   • Supervise or assist students using technology tools
   • Establish a positive rapport with students, staff, and families
   • Consult or meet with teachers or other professionals as scheduled or directed.
   • Participate in meetings by contributing information, ideas, and assistance related to student performance
   • For additional details see Appendix B

2) Assessment of Student Learning Objectives.
   Students will develop a portfolio and participate in a capstone practicum. Students will be assessed on the course objectives both formatively and summatively. The formative assessments will provide information to drive instruction within the classroom. Summative assessments will be common among all instructors of the course and will be project-based. The final summative assessment of the certificate will be a portfolio developed during the practicum. This portfolio will address all of the Illinois Professional Teaching Standards (IPTS) from the courses and practicum.

f. Continuous Quality Improvement.

1) College of DuPage has an extensive continuous quality improvement mechanism that is part of the Academic Program Review process. Each program is required to conduct an annual Student Outcomes Assessment Project (SOAP) and report not only the findings of the project each year, but also report how the data obtained from the project was used to improve the quality of the program.

2) The Education faculty members are passionate about assessment in their courses and use formative assessment techniques on a daily basis to inform instruction. Standards-based, common summative assessments are utilized in all Education courses, which allows instructors to analyze student success across the entire department. Based on the data collected from those assessments, changes to the curriculum can be made.

3) The Education faculty members have created an Education Advisory Board which consists of local school district representatives as well as representatives from four year institutions. This advisory board allows for discussion of how this certificate can better meet their needs by preparing students to work in their schools.

2. Unique or noteworthy features of the program.
The Paraprofessional Certificate is offered at a number of community colleges in the surrounding area, but those programs do not have the depth of coursework that we are able to offer to our students. We have created courses based on the Illinois Professional Teaching Standards (IPTS) and have ensured that students completing the program will be well versed in the standards. This certificate also serves as a stepping-stone for students who wish to become a licensed teacher but lack the funds or interest to do so at the present moment.
3. Faculty Requirements.
   
a) Faculty Qualifications.
   See Faculty Qualifications Chart in section 3a.
   
b) Faculty Needs.
   See Faculty Needs Chart in section 3b.
   
4. Academic Control.
   
a) Internal Oversight.
   Academic control of the program will be maintained by the College of DuPage. Administration, and in particular
   the Associate Dean of Social and Behavioral Sciences, will be responsible for control over the program, faculty,
   student admissions, and program content and quality.
   
b) Contractual/Cooperative Agreements.
   There are no Contractual/Cooperative agreements in place at this time.
   
COST ANALYSIS
Verify the college has the fiscal resources in place or budgeted to support the program in a cost-effective manner.
Document the financial feasibility of the proposed program.

1. Source of Funds.
   There are no additional funds associated with this certificate.

2. Equipment.
   No additional equipment is needed.

3. Facilities.
   The college has adequate space to offer the new courses face-to-face, as well as support for the courses to run
   online. There are no additional expenses for facilities.

4. Finance.
   See Finance Chart in section 4b.

Yes, I think it would be beneficial. A TA candidate who can speak of educational experiences puts them ahead of others. It is why I try to hire certified teachers.

Hi Scott,

The students would actually need 60 hours, or take the exam. The coursework at COD would be to introduce them to the field of education, but would not get them licensure. Do you think this coursework would be beneficial? Would it at all be an advantage to students to have this coursework?

Thanks!

Good to hear from you!

I think that the more experience that a person has, the better. With that said, in EA131 we desperately need bilingual candidates in all areas. Being bilingual gives people an edge here! Hope this helps!

Subject: Paraprofessional Certificate at COD

Hi Sarah!

I hope that all is well with you! Congratulations on the new position!!

We are working on developing a Paraprofessional Certificate and I’m hoping you can provide me with some input.

When looking to hire a paraprofessional, would it be beneficial for that person to have 27 hours of Education coursework and field experience hours? Would this in any way give the potential employee an edge in the hiring process?

I appreciate any input you can provide!

1. **SUBJECT**
   Budget transfer of Contingency to Professional Services.

2. **REASON FOR CONSIDERATION**
   Request of budget transfer from contingency account to legal services and other contractual accounts to cover professional and legal fees related to investigations, cooperation with law enforcement, ordinary legal services and interim management.

3. **BACKGROUND INFORMATION**
   The FY2016 Budget included $3.4 million of ordinary legal and professional fees and $4.0 million of contingency to cover one-time costs associated with the issues at the College. A portion of the $3.4 million of ordinary legal and professional fee budget has been used to fund one-time costs.

   At the time the FY2016 budget was developed there was significant uncertainty regarding the one-time costs. As a result of the uncertainty the FY2016 Budget also included a $4.0 million contingency to fund unknown one-time costs related to investigations, cooperation with law enforcement, ordinary legal services and interim management. Management utilized the contingency account to ensure adequate funding was included in the FY2016 Budget and to allow for additional Board oversight.

   Based on FY2016 incurred fees through November and estimate of incurred fees for December 2015 and January 2016 management is requesting a transfer of $500 thousand from the contingency account to fund any potential outstanding legal and professional obligations. Management intends to develop a longer-term forecast of legal and professional fees for presentation at a first quarter 2016 Board of Trustee meeting.
4. RECOMMENDATION

That the Board approves the $500 thousand transfer of funds from the contingency account to fund current and future outstanding ordinary legal fees and one-time costs associated with investigations, interim management and cooperation with law.

1. **SUBJECT**

Request to pay Contractual Fees for Educational Partner MK Education for Fiscal Year 2016.

2. **REASON FOR CONSIDERATION**

A contract exceeding the statutory limit of $25,000.00 must be approved by the Board of Trustees (Board Policy 10-60).

3. **BACKGROUND INFORMATION**

College of DuPage and MK Education (comprised of MRxI Corporation and Kushan LLC) have been partnering over the past ten years to provide quality healthcare career preparation courses. Offerings include the Pharmacy Technician, Dental Assistant, Veterinary Assistant and Hemodialysis Technician professional training programs.

Each term Continuing Education, in partnership with MK Education, enrolls multiple cohorts of the above programs, which continue to grow. In 2011, the partnership was formally renewed through a master agreement between the College and MK Education, accompanied by individual riders for each of the individual training programs.

During Fiscal Year 2016, combined fees to be paid to MK Education for the Pharmacy Technician, Veterinary Assistant, Dental Assistant and Hemodialysis Technician are estimated at a not-to-exceed amount of $250,000.00.

The collaboration between College of DuPage and MK Education has produced an enrollment growth of approximately 177% from Fiscal Year 2011 to Fiscal Year 2016. The partnership allows College of DuPage to meet short-term training needs of both traditional and non-traditional students who need additional credentials to strengthen their resumes and skill sets, to gain immediate employment, to advance in the workplace and to actively explore new career pathways. Strong program growth and the addition of multiple sections have increased program expenses beyond the threshold that requires
Board of Trustee approval. Positive net revenue is generated for College of DuPage above and beyond the estimated partner payout of $250,000.00.

Vendor Payment

The Board of Trustees shall exercise its authority with respect to the payment of the orders and bills consistent with Section 3-27 of the Illinois Public Community College Act, 110 ILCS 805/3-27. Consistent with this authority, the Board may establish revolving funds by resolution authorizing the Treasurer of the College (appropriately bonded) to make payments to vendors prior to approval of the Board, subject to the following conditions and limitations:

1. Checks for items not previously approved by the Board shall require individual approval by the Board of Trustees for amounts of $15,000 and over. Payments for items not previously approved by the Board between the values of $15,000 and $25,000 (or $50,000 for construction related and other items which have the $50,000 limits per Policy 10-60) may be paid without pre-approval by the Board, but shall be presented to the Board for ratification in next regular financial reporting cycle to board after payment.

2. Payments made for items not previously approved by the Board of Trustees, which are greater than $25,000 (or $50,000 for construction and other items which have $50,000 limits per Policy 10-60) will require approval by the Board prior to payment, except as noted below:

3. Certain items will be deemed previously approved through the annual budget approval process, including aggregate benefit, payroll funding and withholding payments, as well as payments for utilities, corporate credit cards, student field studies, athletic travel, bond interest and principal, and postage. These payments will still be shown for ratification.

4. Policy 10-95 allows for contracting of certain auxiliary professional services (see Policy 10-95 for specific details) without Board approval provided that they are within budget limits. These payments will not require pre-approval, but will be presented for ratification.

5. Payment may be made only for items delineated in a category of the College’s budget, or otherwise approved by the Board.

6. No payment shall be made under the terms of this Policy unless there is documentation that the services and goods have been received and that the invoice is consistent with the transaction.

7. No payment shall be made in an amount in excess of the dollar amount established by the Board in its resolution.

8. Expenditures exceeding $25,000, or $50,000 for construction related and other items which have the $50,000 limits per Policy 10-60, (the “approval threshold”), including planned aggregate spend in excess of approval threshold; require approval by the Board of Trustees prior to purchase. Planned aggregate spend is considered to be the expected purchase of related items from the same vendor by a single department within a fiscal year. Planned aggregate spend should be brought to the board at the time when management believes the amount will exceed the approval threshold. In the event that planned aggregate expenditures are initially not expected to exceed the approval threshold and
are later expected to exceed the approval threshold, these expenditures must be approved by the Board prior to the purchase(s) that exceeds the approval threshold.

4.9. On at least a monthly basis, the College shall provide to the Board a listing of all payments made by the College (regardless of amount or classification of payment). Because of issues related to personally identifiable information, payroll and student reimbursement, or other info with personally identifiable information, will be provided in aggregate. Such a listing shall be made in an electronic format that is searchable, and shall also be made available to the public on the College’s website (in the same searchable format).

COLLEGE OF DUPAGE
SPECIAL BOARD MEETING

BOARD APPROVAL

1. SUBJECT
   Avaya PBX (phone system) Software Upgrade - Phase 1

2. REASON FOR CONSIDERATION
   A single contract exceeding the statutory limit of $25,000 must be approved by the Board of Trustees.

3. BACKGROUND INFORMATION
   The college telephone system consists of various components which collectively provide telephone services to the college. This includes the PBX, voice mail, voice response/recognition, call centers, call accounting, and chat. The Avaya PBX switch is approximately 20 years old and is due for replacement due to its age and advances in voice technology.

   Over a period of time, the system will be upgraded in four phases. Phase 1 will upgrade the current PBX operating system. Phase 2 will upgrade the voice mail system. Phase 3 will build a new PBX in parallel with the old system to provide a migration path. Lastly, Phase 4 will convert the licenses and migrate all the end users while changing their telephone handsets. These phases are sequential and each is dependent on the previous phase. This approval request is only for Phase 1; subsequent phases will be brought to the Board for review and approval, as required.

   Phase 1 upgrades the software on the PBX switch from 6.0 (installed in 2011) to the latest supported version, release 7.6. The 6.0 release is on “extended support” which means it is not eligible for any new security or maintenance patches. In addition, support is only provided by “best effort.” The system is running an unpublished special patch to resolve server stability problems. Upgrading to a supported release is critical to assure stability of the phone system and to provide required functionality for subsequent phases.
We are currently in the last year of a 3-year maintenance and support agreement with Arrow Systems Integration that was approved by the Board in June 2013, following an RFP process. Although we would typically not involve another maintenance provider in order to avoid conflicts and possible support issues, we did contact two other vendors for comparative pricing against the Arrow proposal. We held discussions with each vendor to allow them to analyze our environment and provide quotes. Arrow remains the lowest bidder.

4. **RECOMMENDATION**

That the Board of Trustees approves the contract with Arrow Systems Integration Inc., 850 E. Diehl Road, Suite 150, Naperville, IL 60563 for the upgrade of the Avaya/Nortel CS1000 phone system to Release 7.6 in the amount of $87,363.95.

2. **REASON FOR CONSIDERATION**

   Architectural services require the approval of the Board of Trustees.

3. **BACKGROUND INFORMATION**

   In preparation for the ICCB Recognition Evaluation occurring in 2016, the College needs to have an updated Facilities Master Plan. Our current Facilities Master Plan was last updated in 2010 in preparation for the 2011 ICCB Recognition Evaluation. This work will include evaluating our current FMP and adding projects completed since 2010 as well as evaluation of data maintained by the College associated with enrollment, scheduling, strategy, goals, trends, and recommendations resulting from the data evaluations. The updated Facilities Master Plan will be in a form acceptable to the ICCB and will serve as a foundation for future comprehensive planning to occur following the selection of the next College President.

   In July 2015, the Facilities Planning and Development Department in collaboration with the Purchasing Department, in accordance with Illinois Qualifications Based Selection (QBS) guidelines, issued a Request for Qualifications (RFQ) for Professional Services to Update the Facilities Master Plan. This request sought local metropolitan area firms with extensive master planning experience and a reputation for performing high quality work and client satisfaction. A legal notice was published and sixteen (16) responses were received. A Selection Committee of five (5) College of DuPage personnel with project planning and management experience, operations expertise and purchasing leadership evaluated all sixteen (16) qualifications submittals and selected five (5) firms to be interviewed by the Selection Committee.

   The results of the qualifications submittal reviews and interviews are noted in the following table:

1. SUBJECT

Additional Architectural Services for providing a Facilities Needs Analysis as part of the Updating of the College of DuPage Facilities Master Plan (FMP).

2. REASON FOR CONSIDERATION

Architectural services require the approval of the Board of Trustees.

3. BACKGROUND INFORMATION

In preparation for the ICCB Recognition Evaluation occurring in 2016, the College needs to have an updated Facilities Master Plan. Our current Facilities Master Plan was last updated in 2010 in preparation for the 2011 ICCB Recognition Evaluation. This additional work will include combining the results of or the FMP update process with an analysis of existing facility utilization in relation to data maintained by the College associated with occupancy, enrollment, regional demographics, strategic inputs, trends, projected growth and recommendations resulting from the data evaluations. The Facilities Needs Analysis, together with the updated Facilities Master Plan will serve as a foundation for future comprehensive planning to occur following the selection of the next College President.

During the Qualifications Based Selection (QBS) process utilized in the selection of a firm most qualified to update the FMP, the presentations of each of the five finalist firms contained qualifications for conducting a Facilities Needs Analysis. A recap of the Selection Committee results is provided in the following table for reference.

Recommended award in bold
Perkins & Will Architects proposed a not to exceed fee for these additional services of $46,872.00 plus projected reimbursable expenses of $4,400.00, if the Facilities Needs Analysis is conducted concurrently with the Facilities Master Plan update. If the Facilities Needs Analysis is conducted at a later date than the Facilities Master Plan update, their not to exceed fee would be $52,080.00. As a result, we recommend that the Board of Trustees authorize additional services for a Facilities Needs Analysis to be conducted by Perkins & Will Architects concurrently with their work to Update the Facilities Master Plan.

This purchase complies with State Statues, Board Policy and Administrative Procedures.

4. **RECOMMENDATION**

That the Board of Trustees authorizes the Administration to authorize Perkins & Will Architects to perform additional architectural services for providing a Facilities Needs Analysis concurrently with the Updating of the College of DuPage Facilities Master Plan (FMP), for a not to exceed expenditure of $51,272.00 which includes reimbursable expenses.
