COMPUTER INFORMATION SYSTEMS 1310
HTML and CSS
3 credit hours

This is an information sheet only, not the course syllabus.

COURSE DESCRIPTION
Creation of effective web pages using Hyper Text Markup Language (HTML) and Cascading Style Sheets (CSS). Includes web page and web site design concepts and preparation of graphics for the web, with the primary focus on implementation of the design. Prerequisite: Computer Information Systems 1120 and Computer Information Systems 1130 or Computer Information Systems 1150 or consent of instructor. (3 lecture hours)

Instructor Note: Includes HTML5 and CSS3.

REQUIRED AND RECOMMENDED COURSE MATERIALS
Please follow the instructions below to locate information on the textbook and other materials for this course.

1. From COD home page, click on myACCESS.
2. Click on Search for Credit Classes.
3. From the Term drop-down box select the term.
4. Choose your course from the Subjects drop-down menu.
5. In the Course # field, enter your course number.
6. In the Section field, enter the course section number if known.
7. From the Course Types drop-down menu select Internet/Online.
8. Scroll to the bottom of the page and click on SUBMIT.
9. Click on the Section Name and Title link.
10. Click on Click here for prices of required textbook(s) and supplies and course material information will be displayed.

Alternatively, you can visit the COD Bookstore website to find this information.

SOFTWARE REQUIREMENTS
• Text Editor If you don’t have a favorite text editor, I would suggest the excellent freeware program Notepad++ which is what I use.
• Code Validator Though not mandatory, I strongly recommend you use a code validator like this free one for HTML/CSS to check your code for errors before you submit assignments. You could also use CSE Validator which is what I use to grade your assignments. While I use the Professional version, they do offer a free Lite version.
• Web Browser Your work will be graded in the latest version of Internet Explorer or Firefox so make sure your pages render properly in both. Testing with or Chrome is also recommended.
• To submit your assignments, you will need to zip your files if you are running Windows XP, Vista, or Windows 7, you can use the Windows compression utility.
COURSE ACTIVITIES/EVALUATION
Activities include quizzes/tests, reports, lesson assignments, and a final project. A point value is given for each and is subject to change per the instructor. Activities are designed to reinforce concepts covered, illustrate your knowledge of the material, and demonstrate your ability to apply concepts learned in class.

GRADING

<table>
<thead>
<tr>
<th>Final Grade</th>
<th>Points Earned</th>
