HUMAN SERVICES 1142  
Psychiatric Rehabilitation Skills  
4 credit hours

This is an information sheet only, not the course syllabus.

COURSE DESCRIPTION  
Continuation of Psychiatric Rehabilitation Certificate training. Course focuses on interviewing and listening skills, skills training, preventing and managing behaviors, assessment skills, treatment planning and crises intervention. *(3 lecture hours, 2 lab hours)*

Instructor Note: Courses in the series focus on a rehabilitative approach to serving individuals with severe mental illness. This approach is based on the premise that consumers are the goals for the rehabilitation team.

REQUIRED AND RECOMMENDED COURSE MATERIALS  
Please follow the instructions below to locate information on the textbook and other materials for this course.

1. From COD home page, click on myACCESS.  
2. Click on Search for Credit Classes.  
3. From the Term drop-down box select the term.  
4. Choose your course from the Subjects drop-down menu.  
5. In the Course # field, enter your course number.  
6. In the Section field, enter the course section number if known.  
7. From the Course Types drop-down menu select Internet/Online.  
8. Scroll to the bottom of the page and click on SUBMIT.  
9. Click on the Section Name and Title link.  
10. Click on Click here for prices of required textbook(s) and supplies and course material information will be displayed.

Alternatively, you can visit the COD Bookstore website to find this information.

COURSE OUTLINE  
Upon successful completion of the course the student should be able to do the following:  
1. Describe a skill training group  
2. Develop behavioral principle for skill performance  
3. Demonstrate listening and interviewing skill  
4. Identify steps to assess and de-escalate aggressive behavior  
5. Apply assessment information to develop a treatment plan  
6. Demonstrate facilitation of a social skills training group  
7. Demonstrate de-escalation techniques.
EVALUATION/GRADING
Tests: There are 5 units of study, and the 5 tests (one for each unit) which total 128 questions. Each test will vary in the number of questions and the length of time for each test. So watch those time management skills. Please note that the quizzes occur after all the lectures and power points in a particular unit have been completed.

The grading will be as follows: 70% to 100% of test total of 128 points. 0 to 69% of all quiz questions (regardless of points earned in other assignments) = F

The criteria for passing the course for certification in Psychiatric Rehabilitation are 70% of all test questions. This has been set by the University of Chicago who developed this program. Consequently, there are no extra points possible for a student who does not demonstrate that competency.

Discussion Board Comments: Average of 3/week = 5 points. The discussion Board comments should carry discussion points forward and/or contain resource URL’s for the class to investigate for additional information.

Lecture Activities: Specific units have activities that vary in point value. The point value is attached to each activity. Total activity points are 160.
