Magnetic Resonance Imaging (MRI) uses strong magnetic fields and radio-frequency waves to obtain cross-sectional anatomical images of the human body. The MRI program at the College of DuPage is a three semester advanced certificate program designed for graduates of a two-year radiography program. The Magnetic Resonance Imaging (MRI) Technology certificate requires 27 credits in the courses listed below.

Field of Study Code: MRIT.CER

Program Requirements..................................................27
Mrit 2101 Physical Principles and Instrumentation........3
Mrit 2102 Sectional Anatomy.........................................3
Mrit 2103 Principles and Procedures I .........................3
Mrit 2104 Clinical Practice I..........................................3
Mrit 2105 MR Pathology ..............................................3
Mrit 2106 Imaging Applications ....................................3
Mrit 2107 Principles and Procedures II.........................3
Mrit 2108 Clinical Practice II.........................................3
Mrit 2109 Clinical Practice III.......................................3
