CC: Justin Magyar <justin.magyar@wilsonamplifiers.com>

BCC:

Hi Joe,

Thank you for your patience. I have processed the PO in our system. Please see attached for your invoice. Also attached is our surveyor form, this form needs to be completed prior to the survey date. This information will help our technician collect all the information needed during the survey. We will also need a copy of the floor plan.

Justin Magyar our project manager, will reach out to propose a date and time for the site survey as soon as we receive the completed surveyor form and a copy of the floor plan.

Please let me know if you have any questions. We look forward to working with you.

Thank you for your time.

**Subject:** Re: [External] Wilson Amplifiers Site Survey and Installation Process

Good morning Joe,

Happy New Year!

Apologies for the late response. Please see attached for our W-9. I will send the COI as soon as I receive it from the right department. I also attached a copy of our credit terms application form in case you want to pay using a PO on NET-30.

Please let me know if you have any questions.

Thank you,

**Aderonke Sule(Ronny)**

Ronny,

We are ready to proceed with a site survey but first we need to get your company setup as a vendor in our system. Can you send me a W9, any order paperwork (quote, terms and conditions) and a certificate of liability insurance naming the College of DuPage as the certificate holder?

Thanks,

Joe

Hi Joe,

It was a pleasure speaking with you. Based on our conversation, I am glad you understand what a site survey entails. I am confident that our team can provide a reliable solution to the problem. We have experience with a variety of completed installations – large and small, complex and simple – and they all have successful outcomes.

Our site survey allows us to gather important information about the carrier networks, existing signals, logistics, building design and layout, cable pathways, equipment locations, etc. This is a vital step in our process. Attached, please find a summary of our install process. The site survey quote for your buildings is \$2500.

The survey itself takes a few hours to complete. Based on our learnings during the site survey, our design team will generate a system design with equipment and antenna placement, and expected – post installation – coverage. The design also creates the bill of materials used for generating a turnkey proposal for the project.

As stated, an estimated turnkey installation cost is between \$0.85 to \$1.35 per square foot.

Please let me know if you have any questions. I look forward to working with you.

Thank you for your time.
