Vehicle Problems	Requests for Service	Services Performed	Qty	Price	Ext
Notes:					
Labor Service - The were multiple leaks. We checked out the leaks. Steamed off the engine, hydraulic cylinder, hydraulic tank, front hydraulic couplers, and the rear fuel tank. Found oil around the oil pan. The drain plug was causing the leak. Removed and replaced the drain plug. There was a small fuel leak coming from the clamps at the filler neck. Tightened up the clamps. There were three hydraulic quick disconnects fittings at the front of the vehicle that were leaking. We removed and replaced the couplers. Dump lift cylinder was leaking. Took off the cylinder and sent it out to be rebuilt. Reinstalled the rebuilt cylinder and ran the dump. There was no leak for us. Time on job 13 hours					1,690.00
