November Holiday Closures

All non-emergency City offices will be closed on Tuesday, Nov. 11 (Veterans Day), Thursday, Nov. 27 (Thanksgiving) and Friday, Nov. 28 (the day after Thanksgiving).

There will be no garbage, recycling or yard waste collection on Thanksgiving. During the week of Thanksgiving, collection services will take place one day later than usual for residents with Thursday and Friday pickup.

Final Phase of North Aurora Road Improvement

The final phase of the North Aurora Road Improvement Project began in late September and will continue through late 2027. Work will improve the stretch of North Aurora Road between Pennsbury Lane (in Aurora) and Frontenac Road. Two-way traffic is expected to be maintained through early spring 2026, although occasional lane closures are possible. Drivers should watch for workers, changing traffic patterns and consider alternate routes. A detour is expected to start in spring 2026 for railroad bridge removal and reconstruction. For more information and project updates, visit naperville.il.us/north-aurora-improvements.

Electric Meter Replacements

Naperville electric meter technicians are replacing electric meters that have reached the end of their life and require updating. This work will be ongoing for the remainder of the year and will continue throughout 2026. You will be notified before work takes place if technicians need to replace an electric meter at your home. Meter technicians work from 8 a.m. to 4 p.m. Monday through Saturday. They may need access to your yard, but all work will be performed outside and is not expected to cause any outages. If an outage does occur, it will be momentary. If you have any questions about meter replacements in your area, please contact the Customer Care Center at 630-420-6060.

Nov. 3 – Dec. 12: Free Yard Waste Collection

From Monday, Nov. 3, through Friday, Dec. 12, leaves and other yard waste materials in 32-gallon paper yard waste bags or clearly labeled cans and carts do not require a yard waste sticker. Please put out the bags and carts of yard waste by 6 a.m. on your usual trash collection day. Bundled yard waste still requires a yard waste sticker.

The City's Bulk Curbside Leaf Collection Program runs until Wednesday, Nov. 26, pending weather and other unforeseen circumstances. Residents can also use the Free Bagged Leaf and Yard Waste Collection Program to dispose of late-falling leaves after bulk leaf collection ends.

Yard waste collection ends for the year on Friday, Dec. 12, and will resume on March 16, 2026. For more details about the program, visit naperville.il.us/yardwaste.

New eBill Portal Update

The City's new and improved eBill portal is on track to launch in January 2026. Here are a few key things to know about the transition:

- **Paper bills will remain available.** If you currently receive paper statements and wish to continue, no action is needed.
- **Customers must choose either paper billing or eBill.** Customers cannot receive both.
- **Current eBill users will need to re-register once the new system is launched.** Those who do not create a new account will automatically revert to paper billing.
- **Save your past statements.** Current eBill users are encouraged to log in to the current portal before January to download any past billing statements they wish to keep.

More details, including how and when to register for the new portal, will be shared on the City's website at naperville.il.us/utilityservices as they become available. Important reminders will also appear in the message box on your monthly utility bill.

Overnight Parking Reminder

Naperville's Municipal Code (11-2A-8) prohibits the parking of any vehicle on city streets between 2 and 5 a.m. The Naperville Police Department enforces this ordinance proactively as resources allow and in response to complaints. The only exceptions are participation in the City's Overnight Parking Program or temporary permission granted by the Police Department.

Motorists may request temporary overnight parking permission but are limited to three requests per vehicle per month. To request temporary permission to park a vehicle on a City street overnight, please call the Police Department at 630-420-6666 or visit naperville.il.us/parkingenforcement to submit a request online.

You do not need to request temporary permission if your vehicle clearly displays a hangtag issued by a homeowner's association participating in the City's Overnight Parking Program and is parked in an area designated in the Municipal Code (11-1-Sch.XXX) as exempt from the overnight parking ordinance.

NAPERVILLE
BICYCLE AND PEDESTRIAN PLAN

**Map Your Vision
for the Bike and
Pedestrian Plan**

Your vision can transform how we move in Naperville! Naperville is updating its Bicycle and Pedestrian Plan to make walking and biking safer and more convenient for all. Help shape a more accessible community by sharing your ideas for new routes and improvements using our interactive map, open through Dec. 31. Join the conversation by scanning the QR code or visit naperville.il.us/bike-pedestrian-plan.

Safer Naper: Shop Smart

Whether you choose to shop online or in person this holiday season, the Naperville Police Department wants to remind everyone to shop safely with November's Safer Naper campaign.

Tips for safe online shopping include visiting familiar websites, using credit cards instead of debit cards to make purchases and making sure transactions are completed on secure nonpublic Wi-Fi. When shopping in stores, be aware of your surroundings, guard your purse or wallet and be smart with cash and credit cards.

Avoid package theft by retrieving packages as soon as possible after delivery. Ask a trusted neighbor to assist or have the package delivered to another location (e.g., a workplace or family member's home).

Learn more at [naperville.il.us/asafernaper](http://naperville.il.us/asafnernaper).

Compost your pumpkins. Don't forget, the City extended its free Food Scrap Composting Program through Dec. 12, allowing residents to dispose of fall pumpkins and gourds sustainably! Residents can drop off their pumpkins at the CNG Station (1720 W. Jefferson Ave.) or the City-owned parking lot (91st Street & Wolf's Crossing Road) in the on-site bins. Remove all stickers and decorations first. Acrylic-painted pumpkins are accepted, but pumpkins painted with latex and oil-based paint are prohibited. Learn more about the program at naperville.il.us/food-scrap-compost.

Sanitary Sewer Backflow Device Reimbursement

Naperville's Water Utility works to prevent sanitary sewer issues by cleaning and inspecting sanitary sewers, lining and rehabilitating sewers, conducting sanitary sewer main smoke testing and more. Despite these efforts, sanitary sewer backups can still occur, especially during heavy rainfall. Installing a backflow prevention device may provide additional protection.

Through the Sanitary Sewer Backflow Device Reimbursement Program, eligible property owners can install a sanitary sewer backflow prevention device of their choice, and the City will reimburse 75% of the cost.

The program is open to all City of Naperville Water Utility customers who have experienced a sanitary sewer backup caused by a surcharged system due to intense rainfall. A surcharged sanitary sewer system occurs when the sewer line can't release water fast enough, causing the water to back up.

To apply for this program, you must contact the Water Service Center at 630-420-6137 to confirm that the backup was caused by a sanitary sewer surcharge.

Once confirmed, you will receive an application packet to fill out and submit to the Water Service Center at 1200 W. Ogden Ave. The City will review the application and approve or deny it within one business day.

If the application is approved, you should obtain three written quotes from contractors and submit them to the Water Service Center. Naperville's Water Utility will preauthorize one quote, and you can proceed with scheduling the work. When the work is complete, show proof of payment to the City. The City will reimburse you within two to four weeks.

For more information, visit naperville.il.us/backflowprevent.

GOVERNMENT MEETINGS: Meeting locations and directions for listening and participating are noted on each upcoming meeting's agenda. Please refer to the Government Meetings calendar at naperville.il.us or scan the QR code below to access the calendar directly, as well

as for information about any changes or meeting cancellations. Watch City Council, Planning and Zoning Commission and Transportation Advisory Board meetings on WCNC (Astound – Ch. 6, AT&T U-verse – Ch. 99, or Comcast – Ch. 10) or stream at naperville.legistar.com/Calendar.

Preparing for Winter Weather

Winter weather is just around the corner. Brush up on what to expect and how you can help before the snow flurries start flying!

What to Expect

Naperville has a priority plowing system for treating its 1,500 miles of roadway during winter weather. Main traffic routes are addressed first, followed by residential side streets, cul-de-sacs, alleys and dead ends. Crews salt roadways when unsafe traveling conditions are expected and begin plowing whenever measurable snow has accumulated on paved surfaces and snow is still falling. The approach and frequency of notifications about snow removal operations and service impacts will vary based on the event.

Learn more about the City's winter operations at naperville.il.us/winterupdates and via the City's Facebook (facebook.com/NapervilleIL) and X (x.com/NapervilleIL) accounts. You can also receive updates through the City's mass notification system, Naper Notify, by subscribing to the Winter Operations category. Create an account or update your preferences at napernotify.com.

How to Help

- **Clear storm drains.** Remove debris from storm drains to prevent flooding.
- **Keep public sidewalks safe.** Per City Municipal Code, property owners are responsible for clearing snow and ice from adjacent public sidewalks when snow exceeds 2 inches in height or if ice accumulates. Snow and ice should be cleared within 48 hours of the weather event. Additionally, ice and snow must not be shoveled into a public street or alley, as it causes slippery conditions.
- **Care for your community.** Consider how you can help your community during winter weather. Check on a neighbor, keep your mailbox free of ice and snow for mail delivery or offer to shovel a sidewalk.

Animal Control Tip. In 2025, three bats in DuPage County, four in Will County and four in Cook County tested positive for rabies. Pet owners are urged to keep their dogs and cats current on rabies vaccinations. Bats can be discovered inside a residence, even during winter weather. Please visit bit.ly/bat-info-tips for information about bats. If you see a bat in your home, contact Animal Control at 630-420-6178.
