**Did You Know?**

- ☐ Drilling a hole in the bow (top) of your house key will make it much easier to locate — from the others on your ring — in the dark of night.

- ☐ Instead of measuring to find the approx. center of a piece of uniform wood you want to cut in half, try this:

- ☐ Balance the wood on two fingers and bring your hands together until your fingers touch and the piece balances.

- ☐ Before using your table saw to make a cut, try rubbing an old candle along the edge of the blade. The lubrication will make things go surprisingly easier.
