STEM-0001-202

**THE PHYSICS OF BASEBALL**

How does a baseball bat work? Does the batter's grip matter? What is "spin efficiency" and why do pitchers care? Learn the answer to these questions and more as we take a peek inside the world of baseball through the lens of physics. Professor Emeritus of Physics Alan M. Nathan from the University of Illinois at Urbana-Champaign will present this engaging talk while sprinkling in amusing high-speed videos and anecdotes about our national pastime. This talk has something for everybody, whether your interest is primarily physics, baseball, or the intersection between them.

*This talk is free but requires pre-registration. To register, please call Continuing Education at (630) 942-2208.*
