Work Summary—

Request:

Estimate Ref WO#2037616 Jade range thermocouple and safety Tag#102440, Hestan range thermostat Tag#111731

11.15.22

Approval

.1117.23

111731. Installed the new thermostat on the unit. Powered the unit up, but it would not come on. I double checked the wiring and checked to make sure

I had power to the thermostat. I also had 3 flashes on the led. There was power to the thermostat. I then called Hestan to see what that meant. They

had the tech support call me back. I explained to George in tech support what was going on. He is calling back on this issue because he was unsure

what 3 flashes means. George called back. He got from engineering a light guide on the unit. The flash on this means that the thermostat that we

received is not good. We need to reorder the thermostat and make sure that the thermostat is programmed for this model .

103889. This unit needs a pilot for the open top. 103888. This unit needs two pilots for the open tops.

103887. This unit needs two pilots for the open top. 102443. This unit needs two pilots for the open top.

102442. This unit needs a pilot for the open top. 102441. This unit needs a pilot for the open top.

102623. This unit needs a pilot for the open top. 102622. This unit needs three pilots for the open top.

102620 This unit needs a pilot for the open top. 119323. The unit is leaking oil. Found that it was leaking oil behind the front over to the oil return. The tee

fitting is leaking. We need the fitting.

Additional quote will be sent for repairs noted onsite.
