SUMMER 2018 SCHEDULE OF CLASSES

College of DuPage
ADA
For College of DuPage classes, every effort will be made to provide reasonable accommodations to students with disabilities. This is done in coordination with our Center for Access and Accommodations, which can be reached at (630) 942-2154 (voice) or (630) 858-9692 (TDD). Personal assistance with using the restroom, mobility around campus or eating is not provided. Students requesting accommodations should be in contact with Access and Accommodations 30 days prior to the start of programs. An intake session will be performed on an individual basis to determine a student’s needs. On rare occasions, it may be determined that a student’s needs cannot be met in our environment.

CANCELLATIONS
We encourage you to enroll as early as possible to ensure you can get into the courses you choose. If your program cancels, we encourage you to select another program or activity, or we can provide you with a refund. Notification and confirmation of cancellation must be processed by 5 p.m. on the day before the first class session.

REFUNDS
A 100 percent refund is given up to one (1) business day before the start of class. Please note that non-attendance does not count as a withdrawal. If you are requesting a refund after the deadline, call (630) 942-2208 for necessary form.

TEACH WITH CONTINUING EDUCATION
To learn more about teaching a course with College of DuPage Continuing Education, please visit cod.edu/conted or email CEprograms@cod.edu.

COD ALERTS
To find out information about College closures due to weather or emergencies, you can sign up for COD Alerts. This notification system is for all students and staff of COD. For details on how to register for alerts go to cod.edu/it/labs/pages/faq.html. You may also find out information from local TV and radio stations.

Continuing Education programs and course schedules are subject to change.

Summer Classes are Here!

With spring just around the corner, most of us are already planning ahead for the promise summer brings. This term, COD Continuing Education offers boundless options for enrichment and growth. There are a few exciting announcements I’d like to share with you:

Improved Online Registration Process
We encourage you to register online! Thanks to recent updates and upgrades by COD’s Information Technology department, the registration process is simplified and more user-friendly than ever. Youth and High School topics are available now and more subjects will be accessible throughout the summer.

Innovation DuPage (ID)
This cooperative venture is set to open in December 2018 and brings together higher education, entrepreneurs, industry, business and local government. It is a dynamic co-working space, where public and private sectors meet to accelerate growth, expand ideas and mentor talent. It is truly an innovation in the local economic and educational landscape and we are thrilled to be a partner. Learn more at innovationdupage.com

Through our programs, learners of all ages find opportunities for enrichment, academic advancement and professional development. Children as young as kindergarten attend Youth Academy camps and classes, high school students find academic enrichment and improvement, and adults of all ages develop a passion or learn a new skill.

For career training and advancement, our Business Solutions team and Center for Entrepreneurship offer both the foundational skills and innovative, leading-edge training needed to launch or advance a career or business.

Our Adult Education program offers free, life-changing quality instructional programming and support services to help adults learn English and civics, improve reading, writing and math skills, and prepare to pass high school equivalency exams.

In Continuing Education, we know that learning never stops and innovation is just beginning. I wish you all the best as you enter this inspiring new season and hope to see you on campus this summer!

Joseph C. Cassidy
Dean, Continuing Education/Extended Learning

DAY CAMPS

College of DuPage offers a variety of summer camps and classes in the Glen Ellyn and Naperville areas. Students entering kindergarten through grade 12 have the opportunity to attend academic classes to review concepts or get ahead, as well as enrichment classes for general interest and fun.

EXPLORER CAMP — Kindergarten to Grade 6

College of DuPage, 425 Fawell Blvd., Student Resource Center (SRC), Glen Ellyn

Join our Explorer Camp for an unforgettable summer of fun! Themes change weekly and include educational components taught by endorsed teachers, art projects, physical activities and thematic field trips on most Fridays. Camps run Monday to Friday from 7 a.m. to 6 p.m. Students should bring a sack lunch, or purchase lunch from the cafeteria. Details are available at cod.edu/summerlunch.

The cost is $249 for five-day attendance or $70 for daily attendance.
The week of July 2 is $199 for four-day attendance (no camp Wednesday, July 4).

Field trips are offered most Fridays in Youth Explorer Camp! Visit cod.edu/youth for details.

COUNSELOR TRAINING PROGRAM — Grades 7 to 10

College of DuPage, 425 Fawell Blvd., Student Resource Center (SRC), Glen Ellyn

If you have outgrown day camp, but are too young to get a job, the Counselor Training (CT) program may be just for you! Counselors in training work closely with Summer Explorer day campers, and will have the opportunity to organize and lead age-appropriate activities while under the supervision of a camp aide. The program runs Monday to Thursday (two-week intervals) between 9 a.m. and 5 p.m. Participants may bring a sack lunch or purchase a lunch in the cafeteria. The cafeteria has limited hours during the summer and will be closed during the month of August.

No classes are held on Wednesday, July 4.

**Teen X-Treme Descriptions**

**3D Animation**
Learn to bring 3D characters to life as you animate their movements! Start with the basics by creating a bounce animation and move on to animating a “walk cycle”—making your character flow throughout the movements of a realistic-looking walk.

**3D Modeling and Printing**
Gain an introduction to the fundamentals of 3D modeling and animation. Learn the basics of Maya, an industry-grade 3D software environment, and begin the process of making your own video game. Learn how to use a 3D printer and print the models you create.

**Art Studio**
Explore your imagination through a variety of art media. Designed to inspire creativity, this course allows students to explore a variety of ideas and media through the arts. No previous art training is needed—we’ll help you discover your inner artist!

**Babysitting Basics**
Ready to take on the challenges and responsibilities of babysitting? Learn the basics of caring for young children including how to handle bedtime, communicating with parents, cooking and nutrition information, and safety training. This class introduces the essentials for caring for babies as well as fun games and tips and tricks for watching toddlers and older children.

**Dance Flying**
This exciting two-day camp familiarizes students with the basics of operating a small Unmanned Aerial Vehicle (UAV). Through classroom and hands-on flying exercises, students cover topics such as FAA rules, air traffic control (ATC) airspace, weather, tactical operations, flight control, accuracy and different uses of the UAV. Students experience what it’s like to “sit in the cockpit” with first-person view (FPV) goggles as they put their skills to work in several UAV challenges.

**Lego® Robotic Technology**
Program computers and use mathematics to model the movements of robotic devices. In small teams, using LEGO® blocks, motors and sensors, build robots that can walk, draw, move objects or find their own way and avoid obstacles. Use a control console or computer to teach your robot to move, react and make sounds in order to solve challenges.

**Master Chefs**
Learn new kitchen skills in our state of the art cooking facility! Students gain hands-on experience with a variety of techniques and recipes that can be recreated at home. Make—and eat—new foods every day!

**Video Game Design I**
Use game development tools like Unreal Engine 4 to learn basic game design elements from game flow and character creation to backgrounds and sound all wrapped into blueprint block programming exercises.

**Video Game Design II**
Carrying over what you started in Video Game Design I, students continue to create their video game using Unreal Engine 4. Students add features into their games, such as health systems, enemy AI and pickups. Get further in depth with game design and work towards completing a finished game. Prerequisite: Video Game Design I
Our enrichment program features classes that improve academic and language skills, develop an appreciation for art and drama, and provide opportunities to explore technology. All classes meet Monday to Friday, except for the week of July 2. No classes meet on Wednesday, July 4.

Parents are responsible for escorting students to and from all classes, unless the student is enrolled in both a morning and afternoon class and registered for supervision ($30 per week).

**PLEASE NOTE:** No student under the age of 16 can be left unescorted on the campus.

*Class descriptions appear on pages 10 and 11.*

### ACADEMIC ENRICHMENT — Naperville Yellow Box, 1635 Emerson Lane, Naperville

Parents and students receive specific Yellow Box classroom assignments on the first day of class.

Our enrichment program features classes that improve academic and language skills, develop an appreciation for art and drama, and provide opportunities to explore technology. All classes meet Monday to Friday, except for the week of July 2. No classes meet on Wednesday, July 4.

Parents are responsible for escorting students to and from all classes, unless the student is enrolled in both a morning and afternoon class and registered for supervision ($30 per week).

Academic Enrichment Class Descriptions

3D Printing
Welcome to the future! Explore the exciting technology of 3D printing and 3D design. Learn to create your own designs to print as 3D objects. Imagine being able to create your own jewelry, characters and toys.

3D Sculpture
Get your hands on a fun array of materials. Try papier-mâché, clay, poster board, cardboard and other 3D dimensional media.

Algebra Basics
Learn algebra basics in this comprehensive course that improves your understanding of algebraic symbols and terms, equations, signed numbers, polynomials, inequalities and factoring.

Amusement Park Physics
Experiment with forces and Newton’s three laws of motion by building and testing model rollercoasters and an array of other amusement park rides. Hands-on activities introduce friction, velocity, forces and types of energy.

Archery
Learn how to hold and successfully shoot a bow and arrow. Safety and attention to spatial relationships are stressed. All equipment is provided, but you may bring your own bow if you prefer. Please dress appropriately for weather conditions.

Art for All
Explore, create, repeat! Discover a new artistic concept every day! Learn how to move like an artist; create original artworks using oil pastels, Zentangle drawing and watercolors; and draw outdoors. No art experience is necessary.

Authors’ Workshop
Engaging activities include a review of popular young adult books and poems that will inspire young writers to express their own creative ideas in stories and poems. Students practice grammar, sentence structure and paragraph skills.

CheMYSTERY
Experiment with hands-on chemical reactions to explore the fascinating world of elements.

Competitive Math
Stretch your math abilities by using logic, analytical reasoning and mental math. Learn to quickly solve a variety of algebraic and geometric math problems through math competition.

Crafty Kids
Pipe cleaners, duct tape, craft sticks and your imagination are all put together to create fun art projects!

Creating Cool Websites
Use your design, layout and creativity skills like a web design professional. Gain in-depth, real world experience in developing a comprehensive website using design software.

Creative Art
Express yourself and your creativity through art by using a variety of materials and media to discover your own artistic style.

Creative Engineering
How is a tower built? What makes a bridge strong? Turn on your creativity and think like an engineer. Engage in a variety of hands-on activities that challenge you to solve practical problems using experimentation, analysis and personal designs.

Creative Writing
Discover the joy of writing, the intrigue of language and the confidence of authorship. Students learn to write stories and personal narratives among other creative forms.

Crime Lab
Put your detective skills to work while learning how forensic scientists use DNA, fiber samples and other evidence to identify crime suspects.

Digital Photography
Gain an introduction to digital photography, starting with camera operations and PC hookups and leading to photo-manipulation using imaging software. Create original works of art from photos and explore a variety of applications in desktop publishing formats on the internet. Bring your own digital camera or smartphone and connection cord to this hands on class.

Discover Spanish
Enjoy an educational, fun and exciting introduction to Spanish. The language is energetically taught through hands-on activities, as well as engaging songs, games, art and stories.

Fables and Fairy Tales
Explore popular fairy tales and learn how fables have been used to teach lessons and morals.

Famous Conspiracies
Learn about popular myths regarding the Lincoln and Kennedy assassinations, the moon landing, Pearl Harbor and other intriguing historical happenings.

Fractured Fairy Tales
Working with traditional fairy tales, you will use your imagination to create different endings. In composing these tales, you will focus on the six traits of writing.

FUNdamentals of Drawing
Students gain the artistic foundation needed for drawing. Various techniques with creative perspectives of design, layout, lighting and space.

Geometric Connections
Work hands-on in the classroom with various geometric shapes. Construct objects and compare volumes and sizes with one another.

Harry Potter
Come join us as we explore the science, math and history that make Hogwarts magical and mysterious, creative and crafty!

Improvisational Speaking
Use improvisation exercises to gain public speaking confidence. Learn how to think on your feet, establish rapport with your audience and improve your presentation skills.

Introduction to Theater
Learn theater knowledge and basic skills in this two-week theater class. Students will experience play performing firsthand as they study examples, choose a piece of work, participate in rehearsals and prepare a final show ready for an audience.

Junior Med Lab
Scrub up for dissections, microscope work and lab tests as you are introduced to medical science and explore careers in medicine! Learn basic first aid and how to take vital signs.

Keyboarding
Learn to type at the computer for greater ease in writing school papers. Interactive software assesses your ability level and tracks your progress. Lessons are structured to enhance keyboarding efficiency. Please bring earphones to class.

Kick Start Math/Reading
Illinois certified teachers review and reinforce concepts and materials from the previous year while building a strong foundation for the next year. Grade-appropriate lessons are based on the Illinois Learning Standards.

Kids in the Kitchen
Learn kitchen safety and basic cooking skills while creating fun new recipes every day! Students will make scratch cinnamon roll pancakes, guacamole, hand-rolled pasta and more! Each class ends with the opportunity to eat what you’ve cooked.

LEGO® Battlebots
Prepare for the Battlebots Olympics! Team up with fellow classmates to create and program robots using LEGO® robotics. Learn basic engineering and troubleshooting skills while designing robots to battle against each other and compete in races.

LEGO® Robotic Technology
In this more advanced robotics class learn to program robots to complete a specific task. Students are challenged to improve the elegance of their robotic design.

Math Puzzles
Fun card tricks, games, riddles, puzzles and brainteasers get students excited about math. Students develop arithmetic skills, an understanding of spatial relationships, logical reasoning and creative problem-solving skills.

Mind Teasers
If you enjoy breaking codes and solving problems, this is the class for you. Build problem-solving, analyzing and logic skills.

Mysteries in History
Who built Stonehenge and why? Where are the Seven Wonders of the World? How did the Egyptians build the pyramids without using pulleys? These and other mysterious events in history make learning an exciting process and introduce you to intriguing events from the past.

Podcasting
Have you ever wondered what Podcasts are all about? Learn about what a Podcast is and how to research, plan, practice and record your own!
Public Speaking
Become a poised and confident speaker as you practice writing and presenting several types of speeches. Speech team basics and impromptu speaking are also covered.

Reading and Notetaking
Become a more active and engaged reader by developing or reviewing your reading and note-taking skills. As you read a variety of sources, learn to organize information in different formats: highlighting, margin notes, outlining, notecards, etc. Taking effective notes improves your ability to recall information and enhances your ability to study for exams.

Scanning the Skies
Become a classroom astronomer for one week and explore the skies. Learn facts and details about our earth and moon as well as the other planets in our solar system. Investigate stars and constellations, comets, meteors and our own star, the sun.

Scratch Programming
Build your basic computer coding skills. Scratch uses computer programming language to manage multiple forms of media including text, images, animation and audio recordings to create interactive stories, games and animations.

Sewing
No sewing experience is required in this class! Learn how to safely and confidently operate a sewing machine and creatively use straight stitches to complete a small project. Have fun, be creative and learn something new.

Space Flight
Use your imagination to explore the world of flight. Design and build things that fly; explore the world of space travel and astronauts.

Speaking Confidently
Learn to express yourself confidently in public. Supportive group exercises are aimed at helping put more punch into your arguments, style and delivery.

Study Skills
Put organization into your learning by improving your study habits. Develop skills in listening, following directions and test taking. Topics include taking notes, time management, test preparation and motivation.

Supervision
Supervision is available for students enrolling in both a morning and an afternoon class. A program aide transports students between classes and lunch period at both on campus in Glen Ellyn and the Naperville Yellow Box locations. Please bring a sack lunch.

Sweet Tooth Baking
Cupcakes, cookies and pies are just some of the delicious baked goods you will learn how to make in this exciting baking course! Students learn kitchen safety and basic cooking skills while working with different recipes.

Trial by Jury
Be judge, defendant, prosecutor, witness and juror as you reenact famous criminal cases. Explore concepts of the American legal system and develop skills in logical argumentation at the same time.

UKULELE FOR KIDS
Ages 8-12
The ukulele is ideal for small fingers to learn and enjoy, and be used for all kinds of music, from classical to pop. Students learn about the ukulele and how to play it, starting with simple string chords and progressing to classic songs. You don't need to have previous musical instrument training. The course fee includes a ukulele and a pitch pipe.

Saturday, June 16, 1 to 4 p.m.
MUSIC-0001-003, $135
Student Resource Center (SRC), Room 1118

PRE-TEEN AND TEEN MAKEUP
Ages 11-15
An introduction to the world of makeup and skin care. Learn how to use age appropriate products and develop a skin care routine that can be carried into adulthood. Topics include a full makeup lesson, basic health and hygiene tips including the importance of sunscreen, how to clean makeup brushes and how to get achieve a fun, natural look.

Saturday, July 28, 1 to 4 p.m.
LEISR-0043-065, $59
Student Resource Center (SRC), Room 1118
TALENT SEARCH

The Talent Search program at College of DuPage provides challenging academic experiences that enhance the achievement and performance of gifted students. Courses are designed to complement coursework anticipated at higher levels, cover an extended range of topics, and use innovative approaches to learning. Talent Search classes are not eligible for school credit, and grades will not be given. Instructors will assess students’ comprehension and class participation. Homework may be assigned.

Eligibility
Students who have tested in the 95th percentile or higher on an appropriate achievement test (ACT, SAT, Explore, etc.) are eligible to apply. Students who believe they are qualified but who do not have an appropriate test score may petition for enrollment by calling the Talent Search office at (630) 942-2208.

Registration
All students must submit a copy of their standardized test scores before registration. Please call (630)942-2208, or email ce@cod.edu for more information.

Please note: No student under the age of 16 can be left unescorted on the campus. Parents are responsible for escorting students to and from all classes, unless the student is enrolled in supervision.
_*TALENT SEARCH_*

**FOUR-WEEK COMPREHENSIVE CLASSES**

*Please note: Talent Search classes are not eligible for high school credit.*

*Four-Week Talent Search class descriptions appear on page 18.*

---

**College of DuPage**

425 Fawell Blvd., Glen Ellyn

Monday, June 11 to Friday, July 6

(no class Wednesday, July 4)

All classes are on campus in Glen Ellyn in the Student Resource Center (SRC) and the Berg Instructional Center (BIC). Check your registration confirmation letter for specific room assignments.

TALENT SEARCH
Four-Week Comprehensive Class Descriptions

**Algebra I**
Designed to emphasize the study of linear and non-linear functions, this course introduces mathematical concepts involving rational numbers, analyzing and solving linear equations and inequalities, data analysis, probability, statistics, and polynomials. Students will use hands-on materials to solve problems. Bring your graphing calculator, if you have one. Textbook required: Common Core Algebra I (ISBN: 978-0133281149).

**Algebra II with Trigonometry**
Expand your algebraic and geometric understanding. Develop advanced algebra skills including an understanding of systems of equations, advanced polynomials, imaginary and complex numbers, quadratics, and trigonometric functions. This course also introduces matrices and their properties. Prerequisite: Algebra I and Geometry. Textbook required: Common Core Algebra II (ISBN: 978-0133281163).

**English Works**
Read and analyze selections from classic and contemporary literary works. Demonstrate understanding of the literature through varied writing assignments and classroom activities. Focus on literary criticism, research and written analysis of selected pieces of world literature. A textbook may be required. Please check codbooks.com for details.

**Geometry**
Explore the topics of plane and coordinate Geometry. This course focuses on proofs, triangle congruence, similarity, parallelism, circles and coordinates. Textbook required: Common Core Geometry (ISBN: 978-0133281156).

**Pre-Algebra**
Develop fluency with real numbers while you extend your elementary skills and begin to learn Algebra concepts. Students will learn to recognize and generate equivalent expressions and solve variable equations and inequalities as well as investigate and explore mathematical ideas to develop multiple strategies for analyzing complex situations, concluding with the study of linear functions. Textbook required: Pre-Algebra (ISBN: 978-0078957734).

**Writing Workshop**
This course offers opportunities for students to explore different writing genres: narrative, descriptive, creative, persuasive and expository modes of discourse. Students study different writers and their writing styles. Students have opportunities to improve writing proficiency through a complete study of the components of solid writing: fluency, style, diction, mechanics, grammar, imaginative expressions and details.

---

SAMPLER DAY
a day of free classes for the community

**Fall Sampler Day**
Saturday, Aug. 18, 2018
10 a.m. to 2 p.m.
College of DuPage Continuing Education
Student Resource Center (SRC), Room 1110
Refreshments are provided.

Enjoy sample classes in the following topic areas:
- Arts and Music
- Computers
- Finance
- Fitness
- Health and Wellness
- Humanities
- Foreign Languages
- Writing

For the complete schedule of Sampler Day classes, go to cod.edu/sampler
TALENT SEARCH
One-Week Enrichment Class Descriptions

Algebraic Expressions
For students who have not yet taken Algebra I, this class is an introduction to linear and quadratic equations, polynomials, rational functions and graphing. Class highlights include factoring algebraic expressions and using algebra to solve word problems.

Alice Programming
Alice is an innovative 3D programming environment. Alice allows you to see immediately how programs run by manipulating objects in their virtual world using drag and drop techniques.

Amusement Park Physics
Experiment with forces and Newton's three laws of motion by building and testing model roller coasters and an array of other amusement park rides. Hands-on activities introduce friction, velocity, forces and types of energy.

Brain Busters
Gain knowledge of problem-solving skills through analogies, logic problems and other puzzles and games.

Chess Wizards
Improve your critical thinking and sportsmanship skills while learning this fun, logic-focused game. Study famous games and unique strategies, then use what you've learned to compete in a tournament. No prior chess experience necessary.

Computer Animation
Combine computer drawing, flash animation and programming techniques to create entertaining effects that perk up web pages, buddy icons, screen savers and more.

Critical Thinking
Critical thinking strategies are designed to develop the skills to elicit a higher level thinking response. Receive opportunities to practice critical thinking using a variety of strategies, such as visualization, mind mapping and encapsulation.

Elementary Engineering
Learn the basics of engineering and simple machines. Discover the concepts of pulleys, levers, gears, compound machines, motorized vehicles and robotic creations using LEGO®.

Engineering Fundamentals
Tackle real-life engineering challenges that explore concepts in physics, mechanical and structural engineering and architecture. Learn about motorized machines, castles and catapults through hands-on activities using building systems.

Exceptional Essays
Practice the essentials of essay writing. Polish the skills necessary to write concise and properly formatted descriptive, expository, persuasive and analytic essays.

Expository Writing
This form of writing is used primarily for research papers and essay exams. Explore the various types of expository writing and learn how to organize writing around a thesis or idea.

Geometric Connections
Work hands-on in the classroom with various geometric shapes. Construct objects and compare volumes and sizes with one another.

Grammar and Sentence Structure
This specialized writing class concentrates on the sentence, the building block of writing. Learn to identify parts of speech, study the correct use of verbs, determine subject/predicate, examine phrases and clauses, and construct sentences using proper grammar and punctuation. By means of group editing, explore the fundamentals of good sentence structure, bringing clarity to your writing.

Introduction to Programming
Gain an introduction to the creative process of computer programming. Learn how computer programs work and design simple procedural programs that follow a set of simple instructions to accomplish a more complex task. No previous programming is required.

Introduction to Java Programming
Learn the basics of Java programming language syntax and object-oriented programming. Gain practical experience by designing, writing, compiling and executing simple Java programs. This workshop provides a foundation of Java concepts.

Jump Start Trigonometry
Enjoy word problems and algebra and get introduced to the world of geometry, trigonometry and analysis.

Junior Speech Team
Become a poised and confident speaker as you practice writing and presenting persuasive and expository speeches. Speech team basics and impromptu speaking are also covered.

Literary Analysis
Learn how to critically and logically analyze several types of literary works through reading, writing and class discussion. Improve essay writing, reading comprehension and critical thinking skills.

Math Challenges
Explore strategies used by scientists and mathematicians when they confront new or complex problems. Learn to use logic and the formal tools of math reasoning to solve a variety of challenging problems.

Mental Math
Unlock the calculating ability of your brain. Learn shortcuts to performing many types of math problems without the use of a calculator or paper and pencil.

Persuasion and Debate
Become an effective communicator in school and public situations as you learn to separate fact from opinion and develop logical arguments within a limited timeframe and present them to an audience. After researching newspapers and other sources, improve your critical thinking and public speaking skills by debating controversial and newsworthy topics in a lively team format with expert guidance.

Pre-Algebra Preview
Build your arithmetic skills as they apply to algebra. Explore pre-algebra properties of rational numbers, algebraic equations, geometric figures, ratio, proportion, percent, exponents/radicals, probability and statistics.

Reading Critically
Expand vocabulary and sharpen your insight as you analyze and discuss theme, character, plot and literary style through the study of a popular fiction novel. Increase reading comprehension and speed through short, in-class, timed readings.

Research and Study Skills
Learn organizational research and study skills to improve your time management, memory retention, note taking and test taking skills. Review procedures for selecting a topic, developing a thesis statement, and creating an outline. Learn all the necessary steps that lead to writing a great term paper.

Science Fiction Writing
Let your imagination go wild. Science fiction writing is the “literature of ideas.” Develop plot, character, setting, theme and writing skills in the genre of science fiction.

Stars, Planets and Galaxies
Explore classical and dwarf planets, galaxies, stars and dark matter. Learn how black holes work, what causes a supernova, and discover other celestial objects in space.

Stock Market
Run with the “bulls” or be a “bear” in this fast-paced interactive course that introduces you to today’s stock market. Cover basic topics such as the Dow Jones, mutual funds, price earnings ratios and much more. Join in a unique opportunity to participate in a mock stock market game where you invest an imaginary $100K into stocks and then track your performance over the week.

Study Strategies
Strengthening your mastery of a topic may not require more time studying—it might require studying more efficiently. This course offers an assortment of useful strategies that demonstrate how to better manage study time, improve concentration and remember more. Topics include note-taking techniques, test-taking skills, memory tricks and how to present effective oral and written reports.
ONE DAY = ONE WEEK

One day in the summer program equals one week of a regular school year.

For courses held at
COLLEGE OF DUPAGE:
First semester
June 7 to 28
Second semester
July 9 to 30
Classes are scheduled Monday to Friday, for four hours per day.

Please note: There are no classes the week of July 2 to 6. All offices at College of DuPage are closed on Wednesday, July 4.

HIGH SCHOOL CREDIT COURSES

The College of DuPage High School Credit summer program is open to students entering or currently enrolled in high school. The summer program is an extension of the regular academic program designed to provide students with opportunities to gain academic credit or to explore interests by auditing a class. These courses offer an excellent occasion for incoming freshmen to become more familiar with high school expectations. Please contact your guidance counselor for credit eligibility.

Please note: District 204 students entering grade 9 in Fall 2018 will not be eligible to receive high school math credit through this programming.

Prompt and consistent attendance is mandatory to ensure the same contact hours, teaching and learning opportunities as during the school year. One day in the summer program equals one week of a regular school year. Please see page five for details about attendance and other important information and policies.

No student under the age of 16 can be left unescorted on the campus.
Courses held at College of DuPage, 425 Fawell Blvd., Glen Ellyn

Glen Ellyn — College of DuPage Campus Semester 1
Monday to Friday, June 7 to 28

All classes are held on campus in Glen Ellyn in the Berg Instructional Center (BIC).
Check your registration confirmation letter for specific room assignments.

Mathematics

*District 204 students entering grade 9 in Fall 2018 are ineligible for math credit

## Language Arts

### English IX, Sem. I and II

Two semesters of English 9 are equivalent to one year of high school freshman English and cover fundamental skills in composition, grammar and usage. Emphasis is given to reading, writing, thesis-development and continuity, literary types, vocabulary and study skills.

### English X, Sem. I and II

Two semesters of English 10 are equivalent to one year of high school sophomore English and emphasize the study of literature, writing, grammar, vocabulary, study skills and complex tasks and expands on the skills introduced at the freshman level.

### English I—Literature, Language and Composition

This course targets literacy analysis through study of myth, short story, novel, poetry and drama. Descriptive, expository, argumentative and narrative writing, as well as basic research techniques and speaking skills are emphasized. In addition, students refine grammar and usage skills through the writing process and effective composition strategies. A book list will be provided.

### Speech

This equivalent of one semester of high school Speech is designed to help students develop an understanding of basic concepts in the process of oral communications, including communication theory, speech preparation and delivery.

### World Language

#### Spanish I, Sem. I and II

This course is the equivalent of one year of high school Spanish I. It serves as an introduction to the sound system, pronunciation, basic vocabulary, verb structure and other grammatical concepts of the language.

#### Spanish II, Sem. I and II

This course is the equivalent of one year of high school Spanish II. It builds and expands on the concepts covered in Spanish I while introducing more advanced structures and vocabulary. Listening comprehension, speaking, reading and writing skills are practiced through small group and teacher-directed activities.

### Physics, Sem. I and II

This course is equivalent to one year of high school Physics. This course is designed to give the student an overview of various areas of the physical universe. Laboratory experiences permit inquiry into the nature of physical science and to inquire into the nature of physical law, a process that is transferable to any discipline. Some problem solving is included. District 204 students have a geometry prerequisite.

### American Government

This equivalent of one semester of high school American Government provides students with a critical perspective on government and politics in American life. Attention is given to the political system, how it works and the rights and responsibilities of citizens. The U.S. and Illinois Constitution tests are
ENRICHMENT OPPORTUNITIES

New for 2018!

AIR FORCE ASSOCIATION (AFA)
CYBER CAMP

The AFA Cyber Camps program was created to continue to inspire students to pursue STEM related activities outside of the school year. This one week camp instructs students on important skills in cyber safety and cybersecurity, culminating in a day of mini-competition on the last session.

Monday to Friday, July 16 to 20
8 a.m. to noon
YEHSC 0003 200, $399
On campus in Glen Ellyn

cod.edu/cehighschool

DRONE CAMP

This one day camp familiarizes students with the basics of operating a drone. Through classroom and hands on flying exercises, participants will cover topics such as: FAA rules, air traffic control (ATC) airspace, weather, tactical operations, flight control, accuracy and business uses of the drone. In the final hour of class, students will put their skills to work in a drone challenge.

Several June dates available. Call (630) 942 3427 or email cameronl@cod.edu

SUMMER HIGH SCHOOL MANDATORY ORIENTATION SESSIONS

Register and learn more at:
cod.edu/cehighschool
### Course Descriptions

**Crime Scene Investigation (CSI)**
Take a walk in the bootie-covered shoes of the real-world professionals who make a career out of solving crimes. Investigate the impact of modern technology, cutting-edge techniques of forensic science and explore the role of the forensic scientist in real-life cases. Participate in crime scene simulation and work with a team to solve a challenging case. Meet leading forensic scientists and discuss the career paths of this fascinating field.

**Photo Camp**
Gain hands-on training in elements of the professional photography career! In studio and location shoots, you’ll practice composition, lighting, DSLR camera operation and basic Photoshop processing and printing. Produce your own mini-portfolio of creative images and feature them in a pop-up photography show at the end of the week. Please bring a digital single-lens reflex (DSLR) camera.

**IT Administration**
Understand the what it takes to be an IT Administrator. Explore the growing industry of computer technology and get hands-on experience with PC hardware, network setup, virtualization, servers and security.

**Raspberry Pi**
Get hands on experience with Raspberry Pi, an inexpensive computing platform. Setup hardware components, camera module and accessories. Install an operating system and work at the command line with simple Linux commands. Practice introductory programming skills using the Python programming language. Build cool and creative animated images using the integrated camera hardware and software on this fully functional digital computing system.

**Cyber Security**
Understand the implications of the choices we make in our everyday lives when using technology. Engage in discussions regarding online safety, privacy, risks, vulnerabilities, cryptography and networking.

**Culinary Boot Camp**
Whether you are interested in becoming a food critic, professional chef or restaurateur - start your food journey at COD! Geared toward high school students and taught by industry professionals, our summer camps give passionate young culinarians a preview of careers in the culinary and pastry arts. The four-day camp, held in COD’s state of the art Culinary and Hospitality Center, offers hands-on experience in knife skills, culinary and baking techniques.

**Fashion 101**
Fashion is everywhere, and so are the career opportunities for individuals who combine knowledge of the fashion business with their own talents, ambitions and abilities. You’ll learn from Fashion devotees with years of practical industry experience, gain hands-on practice and start your own fashion portfolio. Students will focus on the creative side of fashion design, retail management, styling and visual merchandising.

**Film 101**
Get inside the world of motion picture and television programming! Go behind the scenes of COD’s top tier programs in Film Video, Animation, TV Production and Digital Broadcast Journalism. Explore film editing, sound recording, screenplay and script writing, and video shoots and production. Use what you learn to produce a portfolio of your own creative work.

**Video Game Level Design**
Work as a video game level designer! Design 3D game levels using state-of-the-art equipment in this hands-on workshop. Learn the skills needed to develop your own playable 3D levels in Unreal Engine 4, the world’s leading AAA 3D game engine. Focus on indoor level creation and learn to create clean geometry, as well as texturing and lighting. Get a look at developing game logic for in-game objectives and artificial intelligence (AI). Leave the class with your own playable levels you can take home and the knowledge to create levels at home using Unreal Engine 4 for Indie, AAA or hobby purposes. Prerequisite: General knowledge of using Windows PCs.

---

**CAREER EXPLORATION SERIES**
Open to students entering grades 9 – 12

**WHO WILL YOU BE?**
Discover career possibilities with our Career Exploration Series at College of DuPage this summer!

Delve into career-focused enrichment courses and gain an in-depth, behind-the-scenes look at inspiring fields sure to spark your interest.

Whether you are passionate about STEAM, fashion, film or culinary arts, this summer’s Career Exploration Series gets you right inside, allowing you to become immersed in an exciting field and get hands-on experience using the College’s state-of-the-art facilities!

[28 Continuing Education High School Program Summer 2018 | cod.edu/cehighschool]
SPEECH CAMP

Gain a foundation in three genres of competitive speaking: public speaking, oral interpretation and limited preparation events. Learn event fundamentals, develop your written and oral communication skills and actively engage in team building. Work in small groups, as well as one on one with renowned high school and college coaches. Share your work with peers for support and feedback, and participate in a performance showcase at the end of the camp that can also be utilized in the upcoming competitive season.

Monday to Thursday, July 9 to 19
1 to 5:30 p.m.
YEHSC 0003 114, $299
Health Sciences Center (HSC), Room 1234

TEST PREPARATION

ACT Comprehensive Test Preparation
Review math, science reasoning, reading and English usage in preparation for the ACT exam. Practice under simulated testing conditions using simulated ACT questions. Course includes an introduction to the ACT writing section. The textbook is included.

Saturday and Sunday, July 7 and 8
8 a.m. to 2:30 p.m.
YEHSC-0004-131, $249
BIC 1A01

SAT Weekend Intensive
Scheduled close to the weekend of the SAT Examination, this crash course provides students with strategies to prepare for the test. Test taking skills are emphasized with a brief overview of the math, reading and English usage. Please bring a sack lunch. Textbook is included.

Saturday and Sunday, May 26 and 27
8 a.m. to 2:30 p.m.
YEHSC-0004-310, $249
SRC 1123

Saturday and Sunday, July 28 and 29
8 a.m. to 2:30 p.m.
YEHSC-0004-311, $249
BIC 1A06

PSAT/NMSQT Test Preparation
If you have your sights set on a college scholarship or early admission, take this class to prepare for the PSAT. Cover comprehensive math and verbal material and practice the skills needed to excel on standardized achievements tests. The textbook is included.

Monday to Thursday, July 30 to Aug. 2
9 a.m. to noon
YEHSC-0004-112, $209
Naperville Center

ACT/SAT Customized Test Preparation Tutoring
Prepare for the ACT/SAT exam in a way that best suits your needs. Concentrate on specific subject areas of your choosing, practice under simulated testing conditions and benefit from one-on-one instruction. Price includes tutoring time and all materials. The textbook is included and can be picked up in the Continuing Education Office, Student Resources Center (SRC), Room 1110.

Please note: a 48-hour cancellation to your tutor or the Continuing Education department is required when cancelling one-on-one sessions.

Four hours—$325
Six hours—$399

Call (630) 942-2208 to register.
College Success—Writing Workshop
The written paper is an integral part of college life! The process for creating a paper and the expectations of your writing are different than what you experienced in high school. Discover how to interpret a professor’s assignment and where to start your paper. Practice the art of argument and proving your point. Learn how to make engaging introductions, effective transitions and strong conclusions. Discover strategies for outlining, creating drafts, proofreading, formatting and revising.

Common App Essay Workshop
Get help with your college applications by creating a working draft of your Common App essay in this writing workshop. Address this year’s prompts, develop a draft, and begin the editing process in a comfortable, supportive setting. Work one-on-one with the instructor and with your peers to create this important personal essay. Leave the class with a working draft that’s ready for a final review by a parent, teacher or counselor. Time permitting, you may also workshop their supplement essays. Students are encouraged to bring a rough draft or outline of ideas to class.

**REVIEW COURSES**

*Please bring paper and a writing instrument to any course.*

**Speed Reading**
Improve your reading skills. Learn to read faster and increase comprehension. Acquire skills for skimming and scanning, previewing and overviewing, recognizing cue words and organizational patterns.

Monday and Tuesday, July 30 and 31
1 to 4 p.m.
YEHSC-0004-405, $89
Westmont Center

Wednesday and Thursday, Aug 2 and 3
9 a.m. to noon
YEHSC-0004-101, $89
Naperville Center

**Algebra I Preview**
This preview class is designed for students who will enroll in Algebra I in the upcoming year. Instruction focuses on new topics for this level of math and is beneficial for students needing to build skills and confidence around mathematics.

Monday to Thursday, July 16 to 19
9 a.m. to noon
YEHSC-0004-564, $149
Neuqua Valley

Monday to Thursday, July 23 to 26
9 a.m. to noon
YEHSC-0004-102, $149
Neuqua Valley

**Algebra II Preview**
This preview class is designed for students who will enroll in Algebra II in the upcoming term. Algebra I topics are reviewed and students are given an introduction of new topics for the next level of math.

Tuesday to Thursday, July 24 to 26
9 a.m. to noon
YEHSC-0004-103, $149
Neuqua Valley

**Geometry Preview**
This introduction to high school geometry includes plane geometry, congruence, polygons and special quadrilaterals to strengthen skills and attitudes toward mathematical reasoning.

Monday to Thursday, July 9 to 12
9 a.m. to noon
YEHSC-0004-409, $149
Neuqua Valley

Monday to Thursday, July 30 to Aug. 2
1 to 4 p.m.
YEHSC-0004-111, $149
BIC 1A05

**TUTORING FOR ALL AGES**

Professional tutoring is available in a variety of topics in English, Reading, Writing, Foreign Language, Math, and Science. Tutors meet with students in a public location, such as a library, or at our main campus in Glen Ellyn. All tutors hold a minimum of a bachelor’s degree and have been selected for their tutoring skills, knowledge and sensitivity to individual needs. Tutoring takes place in two-hour time blocks in a public location. Call (630) 942-2208 for registration details.

**Two Hours—$119**
**Four Hours—$225**
**Six Hours—$299**

**Tutoring—ACT or SAT Customized Test Prep**
Prepare for the ACT or SAT exam in a way that best suits your needs. Concentrate on specific subject areas of your choosing, practice under simulated testing conditions and benefit from one-on-one instruction. Tutoring takes place in two-hour time blocks in a public location. Call (630) 942-2208 for registration details.

**Four hours—$325**
**Six hours—$399**

**Please note:** a 48-hour cancellation to your tutor or the Continuing Education department is required when cancelling one-on-one sessions.
BECOME A VOLUNTEER TUTOR

Share Your Skills, Make a Difference

People Educating People Tutors and Mentors

People Educating People (PEP) is a tutoring and mentoring program providing support and guidance to adult students in 18 communities throughout DuPage County. PEP accepts volunteers throughout the year and offers new trainings at the start of each semester.

Help someone achieve the skills and confidence to succeed in English Language Acquisition and High School Equivalency programs. PEP tutors are able to work in one on one, small group or classroom settings in the following areas:
» English Language Acquisition (ELA) English skills for non native speakers
» Reading Literacy
» Math

New! PEP Mentoring Opportunities
Help an adult student transition into sustainable, quality employment while obtaining a High School Equivalency degree. PEP is currently seeking mentors with industry experience in the following areas:
» Manufacturing
» Information Technology (IT) hardware and networking

Service Learning Opportunities Available
PEP partners with Career Services to offer volunteer positions with an academic component for COD students. Contact us for more details!

For Americans with Disabilities Act accommodations, call (630) 942 2141 (voice) or (630) 858 9692 (TDD).
ADULT ENRICHMENT

ART AND MUSIC

Acrylic Painting
Learn the various techniques of using acrylic paint. Explore applying glazes, impasto and layering. Create your own masterpiece! A supply list will be mailed before the first class. Instructor: Pam Keller

Thursday, June 21 to Aug. 2
4 to 6 p.m.
ART-0002-001, $149
Student Resource Center (SRC), Room 1119

Advanced Gelli Printmaking: Digital Photo Transfers
Explore monoprinting without a press! Employing various Gelli printing methods, learn how to transfer laser printed digital photographs onto backgrounds richly decorated with luminous colors and unique patterns. A supply list will be mailed before class. Instructor: Jennifer Scavone

Friday, June 8 and 15
6:30 to 9:30 p.m.
ART-0004-006, $85
Student Resource Center (SRC), Room 1119

Advanced Gelli Printmaking: Homemade Texture Rolls
Explore monoprinting without a press! Learn a variety of different techniques for creating homemade texture rolls from found objects and foam sheets. A fun and creative way to create unique patterns on your Gelli plate. A supply list will be mailed before class. Instructor: Jennifer Scavone

Friday, June 29
6:30 to 9:30 p.m.
ART-0004-004, $45
Student Resource Center (SRC), Room 1119

Advanced Gelli Printmaking with a Palette Knife
Put away your brayers. Learn how to use a palette knife to create Gelli monoprints filled with rich textures and unusual surfaces. Explore this painterly technique Cezanne would have enjoyed! A supply list will be mailed before class. Instructor: Jennifer Scavone

Friday, Aug. 3
6:30 to 9:30 p.m.
ART-0004-007, $45
Student Resource Center (SRC), Room 1119

Colored Pencil Basics
Learn basic color pencil techniques, including working with different types of papers, transferring images, layering, burnishing, lifting color and noting colors. A supply list will be mailed before the first class.

Monday, June 18 to July 9
6:30 to 8:30 p.m.
ART-0001-003, $89
Berg Instructional Center (BIC), Room 1425

What better way to learn about an artist than to emulate his or her work? Much like musicians play covers of favorite songs, students can use this centuries-old teaching method to recreate a particular artist’s work. Create a copy, or “cover,” in the artistic style of the famous artist and read the artist’s own writings to learn more about the history of the artist and style. The paintings are selected by the instructor and a supply list will be mailed before the first class. Instructor: Jennifer Scavone

Mary Cassatt and Impressionism
Saturday, June 16
1 to 4 p.m.
ART-0002-009, $45
Student Resource Center (SRC), Room 1119

Camille Pissarro and Impressionism
Saturday, June 23
1 to 4 p.m.
ART-0002-008, $45
Student Resource Center (SRC), Room 1119

Advanced Gelli Printmaking with Sponge and Color Shapers on Sheer Fabric
Explore monoprinting without a press! Learn a variety of different techniques for creating your own one-of-a-kind stencils and color shapers from sponge cards and other materials. Also learn how to prepare and print on sheer fabric to create exquisitely beautiful works of art. A supply list will be mailed before class. Instructor: Jennifer Scavone

Friday, Aug. 17 and 24
6:30 to 9:30 p.m.
ART-0004-005, $85
Student Resource Center (SRC), Room 1119

Analyzing an Art Institute of Chicago Masterpiece
Study and analyze masterpieces to uncover the hidden, underlying compositional structures by using tracing paper to create a series of analytical tracings, which isolate specific art elements and design principles used by artists to visually communicate their ideas to the viewer! A supply list will be mailed before class. Instructor: Jennifer Scavone

Caillebotte’s Paris Street; Rainy Day
Friday, July 20 and 27
4 to 6 p.m.
ART-0002-014, $55
Student Resource Center (SRC), Room 1119

Monet’s Haystacks
Friday, June 15 and 22
4 to 6 p.m.
ART-0002-013, $55
Student Resource Center (SRC), Room 1119

Drawing—Beginning and Intermediate
Let your artistic abilities surface, and learn how to draw and sketch. Explore basic drawing skills such as placement, form, light and shadow, and composition. A supply list will be mailed prior to class. Instructor: Pam Keller

Wednesday, June 6 to July 18
6 to 8 p.m. (no class July 4)
ART-0001-001, $179
Berg Instructional Center (BIC), Room 1429

Wednesday, July 25 to Aug. 22
6 to 8 p.m.
ART-0001-002, $149
Berg Instructional Center (BIC), Room 1425
Music Academy

The music program at College of DuPage is recognized as one of the finest instructional programs in the Chicago metropolitan area.

MUSIC ACADEMY PRIVATE LESSONS

Music Quest
Whether your skills have grown a bit rusty or you want to learn a new instrument, Music Quest classes offer weekly, one on one, 30 minute lessons in COD’s beautiful McAninch Arts Center (MAC). Lessons are available on piano, organ, guitar, voice and all traditional band and orchestra instruments. Each of our applied music faculty has an advanced degree in performance and/or pedagogy, and has the experience to work successfully with students of all ages and abilities. Music Quest lessons are offered in a variety of musical styles, ranging from classical to jazz and blues to contemporary.

Music Masters
This level is for intermediate or advanced students who want to take their performance skills to a higher level. Arrange weekly private lessons at a length that works for you, and study with passionate musicians who are active throughout Chicagoland as recitalists, soloists, recording artists, composers and performers. Professional bios can be viewed online either at AtTheMac.org/private-lessons or cod.edu/musicacademy.

GROUP CLASSES

Beginning Group Guitar for Teens and Adults  Ages 14 and over
Gain guitar playing skills while learning how to work with a group of other musicians. Learn several open position chords, strumming patterns and time signatures with featured songs for each session. Bring an acoustic or electric guitar with a small amplifier.

Saturday, June 2 to 23
9:30 to 11 a.m.
MUSIC 0001 006, $199
Berg Instructional Center (BIC), Room 1A02

Beginning Harmonica
Come have fun learning tricks and techniques to playing the harmonica! Learn simple songs, proper breathing and basic blow/draw patterns. Students should bring a 10 hole diatonic harmonica in the key of C. No prior music or harmonica experience required.

Saturday, July 21 to Aug. 4
10 a.m. to noon
MUSIC 0001 007, $99
Berg Instructional Center (BIC), Room 1A03

Girls with Guitars  Ages 11 and over
Have fun learning to play the guitar! Learn several open position chords, strum styles and time signatures. Bring an acoustic or electric guitar with a small amplifier.

Saturday, June 2 to 23
11:30 a.m. to 1 p.m.
MUSIC 0001 005, $199
Berg Instructional Center (BIC), Room 1A01

Learn to Play the Ukulele
Enjoy the ease of learning and playing the ukulele. This versatile instrument can be used for all kinds of music, from classical to pop. Students learn about the ukulele and how to play it, starting with basic chords and common songs, and moving up to basic pop tunes. You don’t need to have previous musical instrument training. The course fee includes a ukulele and a pitch pipe.

Saturday, June 16
9 a.m. to noon
MUSIC 0001 004, $135
Student Resource Center (SRC), Room 1128

Ukulele for Kids  Ages 8-12
If your child has expressed an interest in playing an instrument, consider uke classes. The ukulele is ideal for small fingers to learn and enjoy. This versatile instrument can be used for all kinds of music, from classical to pop. Students learn about the ukulele and how to play it, starting with simple string chords and progressing to classic songs. You don’t need to have previous musical instrument training. The course fee includes a ukulele and a pitch pipe.

Saturday, June 16
1 to 4 p.m.
MUSIC 0001 003, $135
Student Resource Center (SRC), Room 1118

MUSIC FRIDAYS!

Music Fridays @ Noon is a series of free programs featuring the College of DuPage Music department with performances and presentations by COD faculty, students and guests. All events are free and begin at noon in the MAC, Room 140 during fall and spring semesters. For more information, contact Lee Kesselman at kesselma@cod.edu. Visit atthemac.org/music Fridays for a current schedule.
Drawing Workshop—Dramatic
Create drawings that are filled with drama and excitement by applying the step-by-step shading techniques you will learn in class! With these techniques, breathe life and emotion into your art! A supply list will be mailed before class. Instructor: Jennifer Scavone

Friday, June 22
6:30 to 9:30 p.m.
ART-0001-004, $45
Student Resource Center (SRC), Room 1119

Drawing Workshop—Ink Wash
Create fresh and luminous drawings by applying the step-by-step ink wash techniques you will learn in class! Study the great masters of ink wash drawing and experiment with various methods to create a full range of values in your drawings! A supply list will be mailed before class. Instructor: Jennifer Scavone

Friday, Aug. 10
6:30 to 9:30 p.m.
ART-0001-005, $45
Student Resource Center (SRC), Room 1119

Etsy Basics
Get an overview of the Etsy site from both a seller’s and buyer’s perspective. Learn the basics about how to set up an account, establish an Etsy shop and stock your Etsy store. Instructor: Tiffany Simmons

Monday, June 4
6:30 to 9:30 p.m.
ART-0004-003, $29
Student Resource Center (SRC), Room 1123

PHOTOGRAPHY

Beginning Photography
Bring your camera and explore basic topics such as camera function, lighting, composition, lenses, filters and specialized photography. Assignments include shooting digitally or with film. Instructor: Erica Benson

Wednesday, June 6 to July 11
6:30 to 9 p.m. (no class July 4)
PHOTO 0001 003, $185
Berg Instructional Center (BIC), Room 1A06

Beyond Beginning Photography
Sharpen your camera skills as you increase your ability to see photographically and compose better images. In class and out of class shooting projects increase understanding of your camera. Bring a digital or film single lens reflex camera. Instructor: Erica Benson

Wednesday, July 18 to Aug. 15
6:30 to 9 p.m.
PHOTO 0001 005, $185
Berg Instructional Center (BIC), Room 1A06

Capturing Family Memories
Develop your photography skills while recording family memories! This class covers the taking of family pictures, including parties, portraits and candid shots. Common settings for digital cameras are also covered.

Monday, July 9 to 30
6:30 to 8:30 p.m.
PHOTO 0001 007, $125
Berg Instructional Center (BIC), Room 1A02

Digital Camera Operation
Learn to use the functions and features of your digital camera. Topics include downloading photos, image resolution and compression, locking focus and built-in scene or shooting modes. Bring batteries and your camera manual. Instructor: Kate Quinn

Thursday, June 7 to July 5
6:30 to 9 p.m.
PHOTO 0001 001, $185
Berg Instructional Center (BIC), Room 1A05

Digital Camera Operation Beyond Basics
Use your digital camera with increased confidence and skill. Instructor: Kate Quinn

Thursday, July 12 to Aug. 9
6:30 to 9 p.m.
PHOTO 0001 004, $185
Berg Instructional Center (BIC), Room 1A05

Natural Beauty Summer Photography
Join the summer photo fun! Instructor Erica Benson explores camera and composition techniques to help you skillfully photograph flowers, trees, landscapes, insects and weather. Understand the performance of proper exposures to gain skills with the use of hands-on demonstrations and classroom lectures. Practice what you’ve learned in off site locations including local forest preserves.

Saturday, July 7 to Aug. 4
9:30 a.m. to noon
PHOTO 0001 002, $185
Berg Instructional Center (BIC), Room 1A05

Photography Workshop—Secrets of Lighting
Learn the disciplines of lighting and discover how to use studio lighting equipment in a hands-on environment. Lighting equipment is provided for student use. Please bring your own camera. Instructor: Erica Benson

Saturday, July 14 and 21
1 to 3 p.m.
PHOTO 0001 010, $59
Student Resource Center (SRC), Room 1119

Photography Workshop Shoot to Sell!
Get hands-on practice and learn how to take better photos for eBay, Etsy and online Instructables. Lighting and studio equipment are provided for student use. Please bring your own camera. Instructor: Erica Benson

Saturday, Aug. 4 and 11
1 to 3 p.m.
PHOTO 0001 011, $59
Student Resource Center (SRC), Room 1119

Travel Photography
Document your life’s adventures! Develop the skills to capture the architecture, events and people you encounter on your travels and explorations.

Monday, June 4 and 25
6:30 to 8:30 p.m.
PHOTO 0001 006, $125
Berg Instructional Center (BIC), Room 1A01
History of Baroque Art
Explore the drama and exuberance of Baroque art as we study this glorious 17th-century style that began in Rome with such groundbreaking masters as Caravaggio and Bernini. The Baroque style spread though most of Europe and Latin America. Study the magnificent works of leading artists from these regions. A supply list will be mailed before class. Instructor: Jennifer Scavone

Friday, June 8 to July 6
10 a.m. to noon
ART-0004-002, $139, Lifelong Learner $99
Berg Instructional Center (BIC), Room 1425

Pen and Ink Drawings
Create high-contrast, detailed drawings by applying step-by-step pen and ink drawing techniques you will learn in class! Study the great masters of pen and ink drawing, and experiment with various methods to create fascinating textural details and high-contrast values in your drawings. A supply list will be mailed before class. Instructor: Jennifer Scavone

Friday, July 6 to 27
6:30 to 8:30 p.m.
ART-0001-006, $125
Student Resource Center (SRC), Room 1119

Watercolor
Watercolor is an art form that is fun and easy to do. Begin by painting simple still-life shapes and progress to more complex shapes. Experiment with wet-on-wet and wet paper/dry brush techniques. This class may be taken more than once. A supply list will be mailed before the first class.

Tuesday, June 5 to July 17

ART-0002-007, $155; Lifelong Learner, $99
Riverwalk Community Center, Naperville

Tuesday, June 5 to July 17
10 a.m. to noon (no class July 3)
ART-0002-010, $155; Lifelong Learner, $99
Naperville Center, Room 03

Wednesday, June 6 to July 11
6:30 to 8:30 p.m. (no class July 4)
ART-0002-002, $135; Lifelong Learner, $89
Student Resource Center (SRC), Room 1120

Wednesday, June 7 to July 11
9 a.m. to noon
ART-0002-003, $135; Lifelong Learner, $89
Student Resource Center (SRC), Room 1119

Tuesday, July 24 to Aug. 21
12:30 to 2:30 p.m.
ART-0002-012, $135; Lifelong Learner, $89
Riverwalk Community Center, Naperville

Tuesday, July 24 to Aug. 21
10 a.m. to noon
ART-0002-011, $135; Lifelong Learner, $89
Naperville Center, Room 03

COMPUTERS

Adobe Acrobat
Learn about bookmarks, document security and digital signatures. Edit, arrange and extract pages, and convert document types into PDF formats. Previous experience with Microsoft Windows and Word is recommended. A textbook may be required. Please check codbooks.com for details.

Wednesday, June 13 and 20
6 to 9 p.m.
COMPT-0002-001, $109
Student Resource Center (SRC), Room 1120

Adobe InDesign
Explore Adobe InDesign, a professional-level design layout program for creating business, personal or educational publications for both printed and electronic media. Learn how to showcase literature and art using professional grade design tools with sophisticated graphics and typography. Students should have advanced word processing skills. A textbook may be required. Please check codbooks.com for details.

Thursday, July 12 to Aug. 16
6 to 9 p.m.
COMPT-0002-002, $205
Student Resource Center (SRC), Room 1120

Adobe Photoshop Overview
Gain an introduction to the features of Adobe Photoshop Elements, a powerful yet easy-to-use image-editing software.

Monday, June 18 and 25
6 to 9 p.m.
COMPT-0002-003, $109
Student Resource Center (SRC), Room 1124

Adobe Photoshop Elements
Learn to enhance those old family photos and organize them in batches. Discover the perfect combination of power and simplicity of Photoshop Elements, a powerful, yet easy-to-use image-editing software. Process single or multiple images for print, email and the Web. Students should have basic Excel experience. A textbook may be required. Please check codbooks.com for details.

Monday, July 9 to Aug. 13
6 to 9 p.m.
COMPT-0002-004, $295
Student Resource Center (SRC), Room 1124

Designing Effective Websites
Learn the basics of designing and developing an effective website. Discover the advantages of using templates and explore other affordable easy-to-use resources to create a professional website.

Wednesday, July 11 and 18
6 to 9 p.m.
COMPT-0002-005, $109
Student Resource Center (SRC), Room 1133

Excel 2016 Basics
Learn the basics of creating an electronic spreadsheet using Excel 2016. Students should have previous computer experience. A textbook may be required. Please check codbooks.com for details.

Tuesday, June 5 to 19
6 to 9 p.m.
COMPT-0003-005, $179
Student Resource Center (SRC), Room 1133

Wednesday, June 13 to 27
6 to 9 p.m.
COMPT-0003-012, $179
Naperville Center, Room 02

Thursday, June 28 to July 12
6 to 9 p.m.
COMPT-0003-016, $179
Student Resource Center (SRC), Room 1133

Saturday, July 7 to 21
9 a.m. to noon
COMPT-0003-008, $179
Student Resource Center (SRC), Room 1134

Excel 2016 Intermediate
Work with large spreadsheets, three-dimensional formulas, advanced formatting, lists, charting and auditing features. Learn to create spreadsheets faster and share important information with others. Students should have basic Excel experience. A textbook may be required. Please check codbooks.com for details.

Tuesday, June 26 to July 10
6 to 9 p.m.
COMPT-0003-006, $179
Student Resource Center (SRC), Room 1133

Wednesday, July 11 to 25
6 to 9 p.m.
COMPT-0003-013, $179
Naperville Center, Room 02

Saturday, July 28 to Aug. 11
9 a.m. to noon
COMPT-0003-009, $179
Student Resource Center (SRC), Room 1134

Excel 2016 Advanced
Work on advanced spreadsheet concepts in Microsoft Excel 2016, including range names, advanced functions, lists, importing and exporting data, analytical options and macros. Students should have Intermediate level Excel 2016 or equivalent experience. A textbook may be required. Please check codbooks.com for details.

Tuesday, July 17 to 31
6 to 9 p.m.
COMPT-0003-007, $179
Student Resource Center (SRC), Room 1133

Wednesday, Aug. 1 to 15
6 to 9 p.m.
COMPT-0003-014, $179
Naperville Center, Room 02
Excel Charts
Learn the basics of creating chart designs, pie charts and column charts, as well as editing chart data. Basic level Microsoft Excel 2016 or equivalent experience is required.

Thursday, July 26
6 to 9 p.m.
COMPT-0003-035, $59
Student Resource Center (SRC), Room 1133

Excel Multiple Worksheets
Create group worksheets, link workbooks and print a workshop group. Learn how to use 3D references, as well as reference cells and ranges. Basic level Excel 2016 or equivalent experience is required.

Wednesday, Aug. 1
6 to 9 p.m.
COMPT-0003-034, $59
Student Resource Center (SRC), Room 1120

Excel Pivot Tables
Pivot table proficiency can give you an edge in the job market. Learn how pivot tables are used to quickly summarize and analyze large amounts of data organized in rows or columns. Intermediate level Excel 2016 or equivalent experience is required.

Tuesday, June 26
6 to 9 p.m.
COMPT-0003-011, $59
Student Resource Center (SRC), Room 1134

Monday, July 30
6 to 9 p.m.
COMPT-0003-018, $59
Student Resource Center (SRC), Room 1120

Google Apps
Discover the tools available by Google that allow you to access your information from any computer with an Internet connection. The apps introduced include Google+, Google Play, Google Calendar, Gmail and Google Maps.

Wednesday, June 27
6 to 9 p.m.
COMPT-0006-019, $59
Student Resource Center (SRC), Room 1120

Google Drive
Store, share and synchronize files with Google Drive. Discover tools within Google Drive, such as Google Docs, Google Sheets, Google Slides, Google Forms and Google Drawing. Come discover how you can put Google to work for you!

Monday, Aug. 6 and 13
6 to 9 p.m.
COMPT-0006-018, $109
Student Resource Center (SRC), Room 1120

File Management
Organize your electronic files by focusing on the file management features of your Windows operating system. Learn how to create, edit, save, print, copy, move, rename, delete and restore files and folders. Basic familiarity with Windows is recommended.

Wednesday, July 25
6 to 9 p.m.
COMPT-0006-005, $59
Student Resource Center (SRC), Room 1120

Google Analytics
If you are not reviewing your website statistics, then you are missing several key opportunities to profit from your website traffic. This course, for non-technical users, takes you through all the key techniques and explains how to use website analytics using Google Analytics, a free online tool.

Monday, July 9 and 16
6 to 9 p.m.
COMPT-0006-022, $109
Student Resource Center (SRC), Room 1120

Google Drive
Learn new features in Windows 10 that will enhance and maintain performance on your laptop or desktop automatically. Discover how your PC works internally, how to protect it and when you need to upgrade

Tuesday, June 12 and 19
6 to 9 p.m.
COMPT-0006-028, $109
Student Resource Center (SRC), Room 1134

OneNote
Use OneNote’s features to improve management skills, create task lists, and schedule and incorporate audio and video components.

Monday, June 25
6 to 9 p.m.
COMPT-0003-040, $59
Student Resource Center (SRC), Room 1120

Office 2016 for New Users
Designed for those with little or no experience in operating a computer, this course introduces the student to the Internet, email, Windows, Word, PowerPoint and Excel. A textbook may be required. Please check codbooks.com for details.

Monday, July 9 to Aug. 6
6 to 9 p.m.
COMPT-0003-052, $229
Student Resource Center (SRC), Room 1133

Office 2016
Explore the features of this fully-integrated software package. This class is designed for those who already have some computer experience and want to learn Office 2016 for personal or work use. A textbook may be required. Please check codbooks.com for details.

Thursday, June 7 to July 26
6:30 to 9 p.m.
COMPT-0003-022, $249
Student Resource Center (SRC), Room 1134

PC Troubleshooting
Discover how to protect your valuable electronics and irreplaceable data from disaster, power failures, data corruption and other hardware or software problems. Learn the inner workings of a PC and the difference between a simple self-repair and when a professional is needed.

Monday, July 23
6 to 9 p.m.
COMPT-0006-027, $59
Student Resource Center (SRC), Room 1120
Larry Overstreet
Larry Overstreet spent his career working with computers, but he also loves to teach, something that began during his time in the military.

“Upon graduation from college, I immediately went into the military for pilot training,” he said. “After completing the pilot training course, I was assigned to further training as a flight instructor, hence my introduction to teaching. I teach because I love to teach.”

Now retired, Overstreet continues to teach in the Continuing Education department at College of DuPage, helping computer students master such topics as QuickBooks.”

PowerPoint 2016
Learn how to make attention-getting presentations with Microsoft PowerPoint 2016. Produce, share and save professional-quality slides. A textbook may be required. Please check codbooks.com for details.

Saturday, July 14
8 a.m. to 4:30 p.m.
COMPT-0006-038, $179
Student Resource Center (SRC), Room 1120

QuickBooks I
Learn the basics of QuickBooks, including working with customer and vendor transactions, developing a banking system, setting up budgets and creating a new company entering account opening balances. A textbook may be required. Please check codbooks.com for details.

Wednesday, July 18 to Aug. 8
6:30 to 9:30 p.m.
COMPT-0006-003, $199
Student Resource Center (SRC), Room 1134

Search Engine Optimization (SEO)
Learn techniques to increase your website’s visibility on search engines like Google and Bing and attract the right kind of traffic to your website.

Wednesday, July 11
6 to 9 p.m.
COMPT-0006-025, $59
Student Resource Center (SRC), Room 1120

Small Business Social Media
Enhance your understanding of the Internet as a critical marketing tool and learn how to accomplish your business goals. Create an Internet presence that gets your business noticed and discover tools to evaluate and manage your social media platforms.

Saturday, June 23

Learn to navigate Apple OSX, the elegantly designed operating system for the Macintosh family of desktop and laptop computers. Learn about the different desktop tools, including the dock, dashboard and Spotlight. Explore built-in applications, including Safari, Mail, Address Book, iCal and Spotlight and built-in features that enhance usability and comfort.

Thursday, July 12 to Aug. 2
6 to 9 p.m.
COMPT-0006-030, $199
Student Resource Center (SRC), Room 1126
**FINANCE AND INVESTMENT**

**The 12 Universal Laws of Successful Investing**

Discover the 12 Universal Laws, which are your clues to investment success and help you protect what you have. Learn how to make your returns more predictable, investing less stressful, and yourself more successful. Instructor: John Gajkowski

**Buying Your First Home**

Buying your first home can be stressful and confusing. Walk through all the important steps to home ownership, including the loan process, knowing the housing market, home selection, appraisals, home inspection and the closing.

**Credit Rating for Beginners**

Late payments, job loss, foreclosure and bankruptcy can have a negative impact on your credit score. Banks and credit card companies use credit scores to determine whether to qualify applicants for loans or home purchases, as well as the rate of interest charged. Learn ways to improve your credit score and build your financial future.

**Credit Ratings—Beyond the Basics**

Take your credit monitoring skills to the next level. Learn advanced techniques for building and maintaining your credit score.

**Income and Estate Taxes: The More You Know, The Less You’ll Pay**

This is not a tax preparation course but a course designed to help you understand how the different assets you own are taxed, and how those taxes can be minimized or eliminated. All “dollars” are not created equal when it comes to how they will be taxed. Examine ways to reduce the devastating effect taxes have on your long-term wealth and financial success. Remember it’s not what you make, but what you get to keep that counts! Instructor: John Gajkowski

**Chinese Internal Arts—Tai Chi for Continuing Students**

Move beyond the basics and learn about the other energetic approaches to Chinese internal arts. Explore the three martial arts forms of practice: Baguazhang, Hsingl Chuan and advanced Tai Chi. The format of this class is flexible, which allows you to spend the remainder of the course learning more about each form, or focus on one in particular. The small class size provides an opportunity for instructor Phil Hinton to work on a more individual level with each student. Prerequisite for this class is Beginning Tai Chi and a desire to take your practice to the next level.

**Plan for a Lifetime of Income**

Address investment concerns after age 50 and explore other important issues to consider as you craft a successful retirement strategy. Instructor: John Gajkowski

---

**Memo Writing**

We all have a story of a life lived with family and friends. Learn how to tell yours with Chicago writer/actor Paul Barile. Using a variety of tools and prompts, create a piece of literary non-fiction that reflects who you are and what makes your experience so unique. Through the course of the day you will identify the most important moments of your life and turn them into stories for readers. There is no topic too marginal or too grand. There is only you and your story and you might be amazed at how many people would be interested in hearing it.

**Unfinished Masterpieces**

Everyone who writes has an unfinished masterpiece gathering dust on a shelf—maybe neglected on a thumb drive at the back of the desk drawer. It is time to breathe fresh life into that piece—or to come to terms with its closure—especially if it is having a negative impact on other elements of your writing. The purpose of the class is to identify the strengths and weaknesses of the piece and much of the class will be discussion based. Instructor: Paul Barile

**Word Webs and Writing Prompts**

Designed for anyone interested in writing at any level, this course features a variety of prompts chosen to unlock stories and poems and other writing projects you might have in your mind that are trying to get out. The word web—a standard tool for digging into your own story—is just one of the many prompts you will utilize as you explore where your story lives. Writer Paul Barile presents prompts and coaching as you move forward and write the story you have always wanted to write.

**Writing Workshop**

Join like-minded writers working in a variety of genres, including short story, novel, poetry, flash fiction, screenplay and creative non-fiction. Get friendly support, critique and encouragement, regular assignments and deadlines that help get the work done. Instructor: Mardelle Fortier

---

**Top 10 IRA Mistakes**

Discover the top 10 mistakes related to Individual Retirement Accounts and learn how to avoid them. Discussion includes information about conversion and beneficiary designation, as well as strategies to maximize value and minimize taxes. Instructor: John Gajkowski

**Beginning Tai Chi**

Come join us in learning Tai Chi! Focus on the basics of Tai Chi and learn the Yang short form. Start with an easy Chi Gong set and warm ups, and then learn one or two movements of the short form each week. This class is ideal for students who want to try Tai Chi for the first time, older adults, or anyone interested in improving relaxation and adopting a meditative mindset. Instructor Phil Hinton guides you through the practice of this ancient art form, which can improve balance and flexibility, increase strength and improve overall immune system function.

**Chinese Internal Arts—Tai Chi for Continuing Students**

Move beyond the basics and learn about the more energetic approaches to Chinese internal arts. Explore the three martial arts forms of practice: Baguazhang, Hsingl Chuan and advanced Tai Chi. The format of this class is flexible, which allows you to spend the remainder of the course learning more about each form, or focus on one in particular. The small class size provides an opportunity for instructor Phil Hinton to work on a more individual level with each student. Prerequisite for this class is Beginning Tai Chi and a desire to take your practice to the next level.

LEISR-0067-015, $75
Berg Instructional Center (BIC), Room 1A05

PUBLIC SAFETY AND SECURITY

Citizens’ Public Safety Academy
Citizens’ Public Safety Academy is an exciting way to learn about police work, fire safety and get a glimpse of how different public safety agencies work together. Students will learn and gain experience through off-site tours, presentations and interactive activities. The academy is free of charge. It is open to all citizens who live or work in or around the DuPage County area. Applicants must be 18 years of age or older. Participants undergo a background check prior to the start of the academy. We are enrolling 30 participants; registration is required for this unique opportunity to get a glimpse behind the “curtain” of public safety professionals. Registration is on a first-come, first-served basis.

Thursday, June 7 to Aug. 2
6 to 9 p.m.
HSTI-0002-110, Free
Homeland Security Training Center (HTC), Room TBA

Community Crime Prevention Workshop
The Homeland Security Training Institute is committed to keeping our community members safe. Join us for our free workshops on crime prevention. This initiative is funded through a Resource for Excellence grant from the COD Foundation. Join us to hear from local police departments on the latest crimes affecting our communities and what you can do to protect yourself.

Thursday, June 21
1 to 3 p.m.
HSTI-0002-111, Free
Robert J. Miller Homeland Security Education Center (HEC), Room 1022

Crime Scene Investigation Experience
Investigate the impact of modern technology, cutting-edge techniques of forensic science and explore the role of the forensic scientist in real-life cases. Participate in crime scene simulation and work with a team to solve a challenging case. Work alongside an expert in our state-of-the-art Homeland Security Education Center facilities and discuss the career paths of this fascinating field.

Thursday, July 12
6 to 9 p.m.
LEISR-0032-300, $59
Robert J. Miller Homeland Security Education Center (HEC), Room 1008
ADULT EDUCATION AT COLLEGE OF DUPage

Adult Education
(630) 942-3697
Student Resource Center (SRC)
Room 1110
425 Fawell Blvd., Glen Ellyn

For Americans with Disabilities Act accommodations, call (630) 942-2141 (voice) or (630) 858-9692 (TDD).

College of DuPage is an equal opportunity educator and employer. Approximately 40 percent of tuition is federally funded under WIA Title II.
REACH OUT
Young Adults with Developmental Disabilities

For more information, contact Continuing Education at (630) 942-2208 or visit cod.edu/reachout.

Continuing Education’s Reach Out program is offered for adults 21 to 40 with mild to moderate developmental disabilities. These courses complement other offerings within College of DuPage and can be taken multiple times, as new information is introduced. Students from any district are welcome to attend. All students must be able to independently and safely find their way to classes. No transportation will be provided. Class size is limited to 12 students. To register, call (630) 942-2208.

Life Skills
This course provides a basic understanding of ways to manage childcare and development. Discuss the developmental expectations of young babies and children, as well as their physical, intellectual, and emotional needs. In addition, we will address topics of abuse and explore options for selecting appropriate childcare.

Tuesday and Thursday, July 10 to Aug. 9
11 a.m. to 12:30 p.m.
LEISR-0070-010, $225
Berg Instructional Center (BIC), Room 1A06

COACH
Career Opportunity ACHievement Program
for young adults with cognitive disabilities

COACH is a two year (four term) cohort program designed for adults 22 and older. The program focuses on:
• Academics: reading, writing, math and computer literacy
• Social and independence skills
• Career exploration

COACH has been developed to provide post transition students with additional educational training aimed at preparing them for meaningful employment. The tuition for COACH is $2,499 per semester and an application process applies. For more information or to inquire about availability for this fall, call (630) 942-2208 or email vocskills@cod.edu.

cod.edu/COACH

College of DuPage
VOCATIONAL SKILLS PROGRAM

College of DuPage offers a Vocational Skills program for students challenged with mild to moderate cognitive impairment. These are developmental level, non credit courses designed to develop life and vocational skills that can lead to competitive, entry level employment and enhance everyday living skills. Most courses meet two days a week, two hours a day for eight weeks on campus in Glen Ellyn. For more information on the Vocational Skills program, call (630) 942-2208 or visit cod.edu/vocational.

Computer Skills
This course provides an introduction to computer technology and word processing. Instruction covers the basic parts of a computer, using the internet, email and Microsoft applications.

Tuesday and Thursday, May 29 to July 19
1 to 3 p.m.
VOCSK 0021 001, $299
On campus in Glen Ellyn

BRIDGE

Beginner’s Bridge
Learn the basics in playing of the hand, scoring and common bidding conventions. Engage in hands-on practice, setting up and playing as many hands as time allows. Instructor: Robert Kucaba

Wednesday, June 6 to Aug. 1
7 to 9 p.m. (no class July 4)
HUMNT-0001-042, $169; Lifelong Learner $129
Student Resource Center (SRC), Room 1123

Bridge—Beyond the Basics
This class presumes a basic to intermediate understanding of bridge: a simple Standard American system. Explore useful conventions as well as provide suggestions for declarer and defensive play. Instructor: Robert Kucaba

Wednesday, June 6 to Aug. 1
1:30 to 3:30 p.m. (no class July 4)
HUMNT-0001-043, $169; Lifelong Learner $129
Berg Instructional Center (BIC), Room 1A03

COMPUTERS

Beginning Computer Skills for Plus 50
Tailored for the Plus 50 student, this beginner’s computing course helps to enhance confidence through patient, hands-on instruction and review. Instructor: Mark Pusinelli

Tuesday, May 29 to July 3
1 to 3 p.m.
COMPT-0001-002, $159; Lifelong Learner, $119
On campus in Glen Ellyn

Continued Computer Skills for Plus 50, Part II
Tailored for the Plus 50 student, this is the second part to Beginning Computer Skills +50 and will build on skills learned in the beginner’s class. Those who have not taken the beginner’s course should have familiarity with a computer and mastery of basic skills. Instructor: Mark Pusinelli

Tuesday, July 10 to Aug. 14
1 to 3 p.m. (no class Aug. 7)
COMPT-0001-003, $139; Lifelong Learner, $99
On campus in Glen Ellyn

Intermediate Computer Skills for Plus 50, Part III
Gain an introduction to word processing principles and techniques. Learn how to compile and edit documents. In addition, continue to browse the Web and conduct advanced searches with various search engines. Instructor: Mark Pusinelli

Wednesday, May 30 to July 11
1 to 3 p.m. (no class July 4)
COMPT-0001-004, $159; Lifelong Learner, $119
On campus in Glen Ellyn

Using Gmail for Plus 50
Work with instructor Mark Pusinelli to set up a Gmail account, learn the basics and explore the features.

Wednesday, Aug. 15 and 22
1 to 3 p.m.
COMPT-0001-006, $69; Lifelong Learner, $49
On campus in Glen Ellyn

Using iPad and iPhone for Plus 50
Get the most from your new device! Work with instructor Mark Pusinelli to learn the basics and get comfortable exploring the world of your iPad or iPhone.

Wednesday, July 18 and 25
1 to 3 p.m.
COMPT-0001-005, $69; Lifelong Learner, $49
On campus in Glen Ellyn

FILM

The Art of Screen Cuisine
Join in for screenings of some of the most delectable combinations of film and food. Engage in lively discussions about theme, imagery and characters, as well as larger topics of food in art—and food in life. Instructor: Anna Draniewicz

Tuesday, July 10 to 24
1 to 4 p.m.
HUMNT-0001-038, $119; Lifelong Learner $79
Berg Instructional Center (BIC), Room 1A02

Film—Silent Couples
Watch three different silent movies—“Sunrise,” “The Crowd” and “The Docks of New York”—that address relationships and compare their approaches. Instructor: Brian Kleemann

Tuesday, July 10 to 24
6 to 9 p.m.
HUMNT-0001-035, $119; Lifelong Learner $79
Berg Instructional Center (BIC), Room 1A05

Polish Cinema
Explore the history of Polish Cinema from its beginnings. Start with the most famous Yiddish film made in the pre-war Poland, move on to the communist propaganda films of the ‘50s, the counterpropaganda films of the ‘60s, discuss the cinema of the ‘70s, the Solidarity period of the ‘80s and continue through the Free Poland Cinema of this century. Finish with the 2015 Oscar-winning film, “Ida.” Instructor: Anna Draniewicz

Thursday, June 7 to 28
1 to 4 p.m.
HUMNT-0001-037, $149; Lifelong Learner $109
Berg Instructional Center (BIC), Room 1A03

Rod Serling’s “The Twilight Zone”: Political Theater and Morality Plays
Many “Twilight Zone” episodes were often thinly veiled morality plays about the human condition or political theater about current events. Serling used science fantasy to avoid the censorship that was emasculating TV dramas. Using videos from the 1959-64 series, we’ll discuss how the elements of these episodes reflected the mood, message, impact and intensely personal
nature of Serling’s storytelling in the “The Twilight Zone.” Instructor: Michael Lynn

Thursday, July 12 to Aug. 2
1 to 3 p.m.
HUMNT-0001-058, $119; Lifelong Learner $79
Berg Instructional Center (BIC), Room 1475

“The Twilight Zone”; Tropes and Tales
Rod Serling’s “The Twilight Zone” was a turning point in TV content and a high point in the use of TV to challenge social and political mores. Using videos of the 1959-64 series, research and interviews with many associated with the series, we will discuss the cautionary tales within and their impact on society.
Instructor: Michael Lynn

Thursday, June 14 to July 5
1 to 3 p.m.
HUMNT-0001-063, $119; Lifelong Learner $79
Student Resource Center (SRC), Room 2465
Villa St. Benedict, Lisle

GLOBAL EXPLORATION

The Architecture of Sicily
Discover 10,000 years of Western civilization as we take a photographic tour of the uniquely eclectic architecture of Sicily, ranging from Prehistoric, Doric Greek and Ancient Rome to Arab-Norman Byzantine, Sicilian Baroque and Art Nouveau. Influenced by its various conquerors through history, Sicily is a veritable Mediterranean melting pot of stylistic diversity! Instructor: Jennifer Scavone

Friday, July 20 to Aug. 10
10 a.m. to noon
HUMNT-0001-020, $119; Lifelong Learner $79
Berg Instructional Center (BIC), Room 1608

HISTORY AND CULTURE

1893 Chicago World’s Fair
Join us as we explore all the elements of the fair. From the extraordinary buildings to the exciting rides to the participants and the new items introduced, review the details of the past before connecting them to present day Chicago and American culture.

Friday, July 20 to Aug. 3
10 a.m. to noon
HUMNT-0001-024, $89; Lifelong Learner $59
Berg Instructional Center (BIC), Room 1A01

Ancestry and Family History
Learn how to conduct an oral history interview and then create your own family history project with historical documents, a photo book, digital slide shows, and a DVD for each family member. Give the gift of memories to your family! Instructor: Anne Shimojima

Thursday, Aug. 2
1 to 3 p.m.
HUMNT-0001-030, $29; Lifelong Learner $19
Berg Instructional Center (BIC), Room 1A01

The Battle of Gettysburg
An in-depth discussion of the most important battle ever fought in North America—the turning point of the American Civil War. Why did Lee invade the north and what did he hope to achieve? Why did he order Pickett’s charge? What influenced the outcome?

How did the battle change the course of the War?
Get answers to these and other questions about Gettysburg. Instructor: John Schreiber

Tuesday, June 12 and 19
3 to 5 p.m.
HUMNT-0001-006, $59; Lifelong Learner $39
Berg Instructional Center (BIC), Room 1A01

The Battle of Hastings
Today we think of Hastings as a quiet seaside town, but in 1066 two armies met there to determine the future of England. The battle would impact the course of world history to the present day by integrating England into continental affairs. What led up to this showdown? Why was it so climatic and how did it change history? Discover one of history’s most important battles. Instructor: John Schreiber

Monday, July 9 and 16
3 to 5 p.m.
HUMNT-0001-007, $59; Lifelong Learner $39
Berg Instructional Center (BIC), Room 1A01

England’s Worst Kings
Most of England’s kings were abject failures. Historians Marcus Sanghera and John Schreiber pick out their favorite “Worst,” including Edward II and Richard II, Henry VI, Charles I and Charles II, James II, Ethelred the Unready, Edward the Confessor, Stephen and John.

Monday, June 16 to Aug. 20
1 to 3 p.m.
HUMNT-0001-013, $159; Lifelong Learner $119
Berg Instructional Center (BIC), Room 1A02

Druids, Elves, and Warriors: The History of Dark Age Ireland
Discover the story of the early Irish: their myths, legends and kingdoms. Who were the Elves? Who were the Druids and did they really build Stonehenge? Did the Irish really fight King Arthur? What about St. Patrick? And why is Scotland named after Irishmen? Spend time learning the answers to these questions and the mysteries of earliest Ireland. Instructor: John Schreiber

Monday, July 30 to Aug. 6
3 to 5 p.m.
HUMNT-0001-009, $59; Lifelong Learner $39
Berg Instructional Center (BIC), Room 1A01

Eleanor and Elizabeth
Explore the history of England’s two great queens—Eleanor of Aquitaine and Elizabeth Tudor—one who married not one but two kings, the other who never married at all. Instructors: Marcus Sanghera and John Schreiber

Tuesday, June 5 to July 10
1 to 3 p.m.
HUMNT-0001-012, $159; Lifelong Learner $119
Berg Instructional Center (BIC), Room 1A01

1893 Chicago World’s Fair—Lifelong Learning
A Game of Queens: Six Women Who Changed the Course of English History
Were the queens of the Wars of the Roses really the megliders, schemers and witches of Shakespeare’s history plays? Pull back the curtain of history to reveal six fascinatingly real women, and the deadly Game of Queens that set the stage for the improbable rise of the Tudor dynasty. Instructor: Joan Krawitz
Thursday, July 19 to Aug. 23
10 a.m. to noon
HUMNT-0001-040, $159; Lifelong Learner $119
Berg Instructional Center (BIC), Room 1453

The Gunfight at the OK Corral
Wyatt Earp, Doc Holliday, the Clantons, townies versus cowboys, business versus ranching—it’s all there in the story of the OK Corral. More than a gunfight, this feud lasted months and almost required federal troops to stop. Explore the issues that led to more than one Western feud and range war. Experience the gunfight described moment by moment. Find out what happened to the survivors after the feud. Take a great ride through the Old Wild West. Instructor: John Schreiber
Monday, June 11 and 18
3 to 5 p.m.
HUMNT-0001-005, $59; Lifelong Learner $39
Berg Instructional Center (BIC), Room 1A01

Guns, Germs and Steel
Based on Jared Diamond’s seminal, Pulitzer Prize-winning book, this course explores theories of societal evolution and attempts to answer the question of why some societies thrived and came to dominate others. Did societal success actually depend on things as arbitrary as the orientation of a continent, native species of plants and animals, and exposure to diseases? Instructor: Eric Phillipson
Monday, July 16 to Aug. 20
1 to 3 p.m.
HUMNT-0001-066, $159; Lifelong Learner $119
On campus in Glen Ellyn

Henry II and Henry VIII
Two of England’s most notorious and well-remembered kings were never quite what they seemed. Historians Marcus Sanghera and John Schreiber unravel the facts and the fiction behind these two giant figures of the English monarchy.
Monday, June 4 to July 9
10 a.m. to noon
HUMNT-0001-011, $159; Lifelong Learner $119
Berg Instructional Center (BIC), Room 1A02

Hidden Memory: An American Story
Listen to the story of one family’s journey from Japan to the United States and through the incarceration camps of World War II. Storyteller Anne Shimojima illustrates her talk with photos from her family and the National Archives, showing a family whose only crime was looking like the enemy.
Thursday, June 7
1 to 2:30 p.m.
HUMNT-0001-031, $29; Lifelong Learner $19
Student Resource Center (SRC), Room 1118

History of Superheroes
You have been watching them in blockbuster films and popular television shows for years. Now, learn the true history of your favorite superheroes, and discover their connections to legendary myths. Instructor Michael McCann leads you on a journey that explores the creation of these heroes, and why they still connect to our culture today.
Saturday, June 2
10 a.m. to noon
HUMNT-0001-028, $29; Lifelong Learner $19
On campus in Glen Ellyn

An Introduction to Islam
This course seeks to introduce the core theological, ritual, legal, textual, cultural and historical components of Islam, as well as Islam’s impact on the West and the Judeo-Christian culture. Begin with an examination of the pre-Islamic Middle East, the advent of Prophet Muhammad, his life in Mecca and Medina and the Arab conquests. Throughout the course, a comparative study explores the relationship between the Judeo-Christian religious values and Islam. The conflict between Islam and the West is discussed from historical, political and cultural perspectives. Instructor: Hesham Shehab
Tuesday, June 5 to July 10
1 to 3 p.m.
HUMNT-0001-066, $159; Lifelong Learner $119
Berg Instructional Center (BIC), Room 1A05

LGBTQ: Past and Present
The 21st century has seen significant victories for lesbian, gay, bisexual and transgender people in the United States. People now serve openly in the military, same-sex marriage is the law of the land and LGBTQ visibility in the media and popular culture is stronger than ever. However, issues remain. For example, in 28 states, it is legal to fire someone because they are LGBTQ. Explore sexual orientation and gender identity through history, the arts, law, science, medicine, politics, and justice; sample discussion topics include Stonewall, discrimination and misogyny, AIDS, gay parenting, the transgender community, and the importance of inclusion and understanding. Join us as we discover LGBTQ past and present, for our children, our parents, our co-workers, our neighbors and ourselves. Instructor: Frank Serafino
Wednesday, June 6 to 27
10 a.m. to noon
HUMNT-0001-045, $119; Lifelong Learner $79
Berg Instructional Center (BIC), 1A02

Napoleon
He has been called ‘the greatest personality of all time.’ He dominated European and global affairs for more than a decade. His political and cultural legacy has ensured his status as one of the most controversial leaders in human history. Examine Napoleon’s life as a military commander and political leader. Instructor: Marcus Sanghera
Thursday, June 14 to Aug. 2
1 to 3 p.m.
HUMNT-0001-018, $179; Lifelong Learner $139
Berg Instructional Center (BIC), Room 1H07

The Possibility of Ideas
In this graduate seminar-style class, historian Marcus Sanghera poses intriguing weekly questions on a full range of subjects from philosophy, ethics, politics and power, current issues, medicine and technology, literature, history, music and the arts. Class participation required.
Thursday, June 14 to Aug. 2
10 a.m. to noon
HUMNT-0001-017, $179; Lifelong Learner $139
Berg Instructional Center (BIC), Room 1A01

The Process of Aging
Join Michael McCann on a wellness journey of what happens to us, physically and cognitively, as we age. From ageism and why it is so devastating to wellness techniques for living a life of independence.
Saturday, July 7
10 a.m. to noon
HUMNT-0001-029, $29; Lifelong Learner $19
Berg Instructional Center (BIC), 1A02

Rebels and Robin Hood; the Outlaws of Dark Age England
Outlaws intrigue, and among the most famous are Robin Hood and his Merry Men. How did they become so famous and who were the rebels and outlaws that fed the legends? Get to the core of the story and find out about the Dark Age Englishmen that created the story of Robin Hood. Instructor: John Schreiber
Tuesday, July 31 Aug. 7
3-5 p.m.
HUMNT-0001-010, $59; Lifelong Learner $39
Berg Instructional Center (BIC), Room 1A01

The Rise and Fall of British Imperialism
Historians Marcus Sanghera and John Schreiber tackle the social, political, economic, and military factors of the rise of one of history’s most successful international corporations—the British Empire—that at its prime controlled a quarter of the globe. Just what contributed to its decline and eventual fall?
Tuesday, July 17 to Aug. 21
1 to 3 p.m.
HUMNT-0001-014, $159; Lifelong Learner $119
Berg Instructional Center (BIC), Room 1A01

Sakura Tales: Stories from the Land of the Rising Sun
Japanese stories sparkle with magic, wisdom and humor. Learn about Japanese folklore and culture as you listen to storyteller Anne Shimojima tell stories of the oral tradition that have been passed down through the years to delight listeners today.
Thursday, June 14
1 to 2:30 p.m.
HUMNT-0001-032, $29; Lifelong Learner $19
Berg Instructional Center (BIC), Room 1A01

Scotland’s Kings
Scotland’s history is every bit as rich as England’s, and so too were its kings. How did Scotland become Scotland? What is the difference between the Dal Riata Scots and the Scotti? Was Macbeth really as bad as Shakespeare made him out to be? From the kings of Strathclyde to Kenneth macAlpin who united the kingdoms of the Picts and the Scots, to the Royal Houses of Dunkeld, Bruce, Balliol, and Stewart, historian

Marcus Sanghera reveals the history of Scotland to be a 1000-year tale of deeds of derring-do.

Tuesday, June 12 to July 31
10 a.m. to noon
HUMNT-0001-019, $179; Lifelong Learner $139
Berg Instructional Center (BIC), Room 1A02

Topics of 19th Century Europe
Historian Marcus Sanghera offers historical perspectives and ideas on the key social, political, economic and military movements of 19th century Europe. Explore the integral personalities, thinkers and troublemakers who helped shape a century that would leave so much, both good and bad, to the century that followed in its wake.

Wednesday, June 13 to Aug. 8
1 to 3 p.m. (no class July 4)
HUMNT-0001-016, $179; Lifelong Learner $139
Berg Instructional Center (BIC), Room 1A02

War of 1812
Ask someone about the War of 1812 and they might mention the “The Star-Spangled Banner,” the burning of the White House, Andrew Jackson and the Battle of New Orleans. Explore aspects of the war that are not always recalled, such as the causes, key people, supporting and opposing groups, and leadership of President James Madison. This was a conflict that finally allowed the United States to take its place among the world powers, leading some historians to refer to it as the Second War of Independence. Study the least remembered of all American wars, the War of 1812. Instructor: John Schreiber

Tuesday, June 5 to July 10
10 a.m. to noon
HUMNT-0001-002, $149; Lifelong Learner $109
Berg Instructional Center (BIC), Room 1A01

What is History?
Historian Marcus Sanghera dissects the discipline of ‘History’ by asking some pertinent questions on how history is recorded and by whom. How do we know what is real history and what is fabricated history? Are professional historians really the best guides of the history of nations and peoples? Who are the historians we should listen to? How do we evaluate history’s heroes, and what motivations go into making them? Also discuss the impact of the television and film industry on our perception and understanding of history.

Wednesday, June 13 to Aug. 8
10 a.m. to noon (no class July 4)
HUMNT-0001-015, $179; Lifelong Learner $139
Berg Instructional Center (BIC), Room 1A01

When Normans Attack!
When the Normans burst onto the scene, they were a force to be reckoned with throughout Western Europe and the Middle East. For almost two centuries, they inspired fear and awe wherever they went. Yet they also influenced Europe with their architecture, laws and culture. Who were these people? Were they the last of the Vikings—or an entirely new people? Instructor: John Schreiber

Monday, June 4 to July 9
1 to 3 p.m.
HUMNT-0001-001, $149; Lifelong Learner $109
Berg Instructional Center (BIC), Room 1A01

LITERATURE AND MUSIC
The Beatles: A Magical History Tour
Join us as we discover the Beatles’ story, their personalities and, most importantly, how their music continues to influence our culture and our expectations of popular music. With the use of audio and visual content, learn the arc of the Beatles’ career from their development in Liverpool, through Beatlemania into their psychedelic phase, and finally their dissolution. Deepen your appreciation for the Beatles’ incredible productivity, their musical and lyrical maturity and their cultural impact. Instructor: Gary Wenstrup

Monday, June 4 to July 2
1 to 3 p.m.
HUMNT-0001-055, $149; Lifelong Learner $109
Berg Instructional Center (BIC), Room 1A03

Gilbert and Sullivan
Join us as we explore the Victorian era theatrical partnership oflibrettist W.S. Gilbert (1836-1911) and the composer Arthur Sullivan (1842-1900). They collaborated on 14 comic operas between 1871 and 1896, including H.M.S. Pinafore, The Pirates of Penzance, and The Mikado. The operas satirize British customs and politics but have a universal appeal that makes them relevant and frequently performed all over the world to this very day. Learn about Gilbert and Sullivan, the backgrounds of their key operas, enjoy the music, and have an appreciation for the social commentary that makes them important commentators in our time. Lots of music, witty dialogue and loads of fun! Instructor: Gerald Horan

Monday, July 9 to 23
9 to 11 a.m.
HUMNT-0001-064, $89; Lifelong Learner $59
On campus in Glen Ellyn

John, Paul, George and Ringo: The Solo Years 1970-1980
After The Beatles broke up one question echoed all over the world... “Will the Beatles ever reunite?” They never did, of course, but in the 10 years after they disbanded John, Paul, George and Ringo still delighted, and sometimes frustrated, their fans. Using audio and visual content, explore the highs and lows of their musical output, the feuds, friendships, lifestyles and lawsuits. Together we’ll find out whether the sum of the Beatles was greater than its individual parts. Instructor: Gary Wenstrup

Monday, July 16 to Aug. 6
1 to 3 p.m.
HUMNT-0001-056, $119; Lifelong Learner $79
Berg Instructional Center (BIC), Room 1A01

Paul Simon: Still Brilliant After All These Years
At age 16 Paul Simon had his first chart success. Today, at age 76, he is still releasing music of consequence. In between there was that little musical duo called Simon and Garfunkel. Using audio/visual content, trace the arc of Simon’s career from “The Sound of Silence” to “Bridge Over Troubled Water” to “Graceland” and beyond. Instructor: Gary Wenstrup

Tuesday, July 31 to Aug. 21
10 a.m. to noon
HUMNT-0001-057, $119; Lifelong Learner $79
Berg Instructional Center (BIC), Room 1A03

Sherlock Holmes
Join fellow Holmes and Watson enthusiasts for a return to late Victorian London to discuss the life and times of the immortal duo. In addition to discussions of the settings and locations of many of the stories and portrayers of Holmes and Dr. Watson through the years, discuss one of the long stories and a number of the short stories selected by the class. Instructor: Jim Fox

Wednesday, July 11 to Aug. 1
10 a.m. to noon
HUMNT-0001-034, $119; Lifelong Learner $79
Berg Instructional Center (BIC), Room 1A06

World’s Greatest Love Stories
Join us as we explore love stories across time and cultures. Discuss love themes in literature in American classics, non-western classics, and contemporary love stories. What makes these stories so compelling to generations of readers? The class will also have the opportunity to share their own favorites. Instructor: Mardelle Fortier

POLITICS AND POLICY

China’s Foreign Policy
China’s economic, military and political strength has dramatically increased in the last 30 years. China is taking her place as a great power on the international scene and transforming foreign policy in the process. Any true understanding of China’s foreign policy must begin with an understanding and appreciation of her history, culture and geography. The United States and China are two societies with highly differing histories and cultures. Their relationship is inherently complex and requires great skill on both sides. Instructor: Pat deRosset

Tuesday, July 24
1 to 3 p.m.
HUMNT-0001-027, $29; Lifelong Learner $19
Berg Instructional Center (BIC), Room 1A05

Privacy in America
Nowhere does the word “privacy” appear in the U.S. Constitution or in its amendments. Yet, the Supreme Court recognizes a right to privacy. From government to big business to junk mail, is our privacy under assault? Are technological advances and the world we live in destroying traditional notions of privacy? Can civil liberties and security co-exist? Examine these questions and other privacy concerns through the eyes of the Supreme Court. Instructor: Pat deRosset

Tuesday, June 12 to July 3
1 to 3 p.m.
HUMNT-0001-026, $119; Lifelong Learner $79
Berg Instructional Center (BIC), Room 1A03

The Rise of Political Islam
This course seeks to introduce the core theological, ritual, legal, textual, cultural and historical components of Islam and their relation to the rise of religious and political influence. Instructor: Hesham Shehab

Tuesday, July 17 to Aug. 21
1 to 3 p.m.
HUMNT-0001-065, $159; Lifelong Learner $119
Berg Instructional Center (BIC), Room 1A03

Topics in Foreign Policy Roundtable
The objective of this class is to provide a lively, supportive forum for participants to review and discuss global issues and how they affect the United States and other nations and alliances. Discuss information from various media sources such as newspapers, magazines and websites. If you’re looking for in-depth discussions of significant issues of our times, please join us! Instructor: John Schreiber

Monday, July 16 to Aug. 20
10 a.m. to noon
HUMNT-0001-003, $149; Lifelong Learner $109
Berg Instructional Center (BIC), Room 1A01

LIFELONG LEARNING SCHOLARSHIP FUND

Continuing Education is happy to announce scholarship funds specifically for our lifelong learners. Please call (630) 942 2208 for application details and to learn about how to donate. If you would like to donate to the fund, call (630) 942 2462 or visit foundation.cod.edu.

CHAPARRAL SHUTTLE SERVICE

Save time trying to find a parking space and take the Chaparral Shuttle! The shuttle service connects students from east to west campus, stopping in College Lot 6, located at the northwest corner of College and Lambert roads, and at the south entrance of the Student Resource Center (SRC). The Chaparral Shuttle runs Mondays to Fridays, 8:30 a.m. to 3:30 p.m., throughout the fall and spring terms when classes are in session. Shuttle pick-ups are approximately every seven minutes. For more information, please call (630) 942-4063.
Continuing Education presents engaging topics in enrichment courses, taught by subject experts in the community who want to share their experience, passion and knowledge. Most Sage Series presentations are offered free of charge to community members aged 50 and over. Registration is required. See www.cod.edu/lifelong for a full schedule of this summer’s Sage Series.

Free for Lifelong Learners

THE SAGE SERIES

Behind the Walls at the Cleve Carney Art Gallery with Justin Witte
The Cleve Carney Art Gallery presents the work of internationally acclaimed artists and houses one of the largest contemporary art collections in the region. Go behind the scenes with the gallery Director and Curator Justin Witte for a personalized tour of the gallery and COD’s Permanent Art Collection.

Friday, July 6
10 a.m. to noon
HUMNT 0001 206, Free. Registration is required.
Space is limited to 20 participants
Meet in the gallery, near the lobby of the McAninch Arts Center

A Conversation with the Coordinator
All are welcome to this open conversation and dialog for Lifelong Learners with the program manager. Learn about exciting new programs and courses while also getting the opportunity to ask questions and share your opinions on our programs here at COD. Light refreshments are provided. Come join us!

Friday, June 22
10 a.m. to noon
HUMNT 0001 202, Free.
On campus in Glen Ellyn

The Florida Project: Film and Discussion
This film takes place in Orlando, but not the Orlando of Disney World’s utopia. The young prince and princesses of the film live just outside the glitz of Cinderella’s Castle, in cheap hotels and without much parental guidance. The young actors and actresses of the movie are phenomenal as a ragtag group of playmates whose lighthearted performances raise serious questions that we will discuss afterwards: about poverty, child rearing, and how we determine what a “fit parent” is. Rated R for language, disturbing behavior and sexual references. Instructor: Vicki Edwards

Friday, June 8
9 a.m. to noon
HUMNT 0001 201, Free
On campus in Glen Ellyn

Inside COD Russell R. Kirt Prairie Tour
Learn about the wildlife, plants and natural processes of the prairie ecosystem as you take a guided walk through the College’s prairie restorations. The tour starts at the northwest trailhead of the Kirt Prairie near the west end of the Health and Science Center on the College’s main campus. Please be prepared for light to moderate walking activity along uneven surfaces. Sunscreen and bottled water are recommended.

Monday, June 18
10 to 11:30 a.m.
(High adverse weather date is June 25.)
HUMNT 0001 205, Free. Registration is required
Space is limited to 20 participants
Meet at the northwest trailhead.

Polish Foods
Explore the traditions of Polish culinary favorites and bring home recipes to incorporate into your own celebrations!

Friday, Aug. 3
10 a.m. to noon
HUMNT 0001 203, Free. Registration is required.
Berg Instructional Center (BIC), Room 1C04

Travel the Milky Way
We live in an enormous structure composed of billions of stars. How do we know this? How large is our galaxy? What is the structure? How do its countless stars form, live and die? How does this compare to other galaxies in the universe? Join us as we explore these and other questions regarding our Milky Way. Instructor: Joe DalSanto

Saturday, June 23
7:30 to 9 p.m.
HUMNT 0001 207, Free
Health and Science Center (HSC), Room 1234

LUNCH BREAK

Enjoy the topics and the company!

Join us for free lectures on engaging topics presented by Continuing Education subject experts. Lectures are scheduled on Wednesday from noon to 1 p.m. in the Student Resource Center (SRC). Registration is requested. For up to date lecture details, go to cod.edu/lifelong

SPECIAL INTEREST GROUPS

Lifelong Learning at COD introduces Special Interest Groups (SIGs) for the summer semester. SIGs are a great way for community members to continue lifelong learning beyond the classroom. Meeting regularly and free to join, SIGs provide new and enriching opportunities to form friendships with other members while exploring a specific topic area. A SIG is formed by a collective of people with a special interest in the same subject who want to participate as active learners. Special Interest Groups are independent and self-directed, with members deciding where and when to meet and how the group will function.

The Forum: Dialog to Challenge our Thinking
Meets the first Monday of each month from 1 to 3 p.m. beginning June 4
Current political, social and economic issues that influence all of us are changing faster than ever before. This SIG is designed to challenge our thinking through an active investigation into the world’s happenings. A free-flowing dialogue designed to enrich and expand participants’ thinking on topics ranging from Changing Demographics of Retirees to Nuclear Disarmament and Climate change.

The Joys and Challenges of Grandparents and other GrandFriendships
Meets from 10 a.m. to noon the first and third Friday of the month beginning June 1
This group is dedicated to intergenerational learning in all forms. From sharing your own experiences as Grandparents and/or Grandfriends with like-minded community members to exploring ways to share your knowledge and talents through mentorship, this group is dedicated to the idea that the affection and experience of related or non-related older adults can be a great gift that shapes the lives of young children. Led by intergenerational expert and author, Helene Block Fields.

Students interested in joining should contact the Lifelong Learning program coordinator, Julie Konczyk at konczykj@cod.edu, for more information.

LIVING WELL

Series
Special Programming for Community Members Over 50

In partnership with Advocates for Aging Well, Continuing Education is proud to offer a series of programs designed to meet the growing needs of our Plus 50 community. These workshops and courses cover a variety of topics, including estate planning, memory, health and cognition. Additional information is available by calling (630) 942-2208.

Explorations of the Brain and Memory for Plus 50
This course explores several topics on memory and the brain. From fun, interactive programs designed to help keep you sharp to more in depth discussions on how to identify and work with memory loss, this series is designed to help you navigate and maintain a healthy brain function.

Thursday, July 12
1 to 3 p.m.
HUMNT-0001-601, Free. Registration is required.
Berg Instructional Center (BIC), Room 1H03

Healthy at Home for Plus 50
Whether you are downsizing or staying in your forever home, learning the tricks of the trade to stay organized can be an enormous help! Learn how to de-clutter as well as estate sale secrets and home modification musts. It can be overwhelming and difficult to know where to start so we have tailored a presentation just for you.

Thursday, Aug. 9
1 to 3 p.m.
HUMNT-0001-603, Free. Registration is required.
On campus in Glen Ellyn

Medicare and Medicaid Workshop for Plus 50
What is the difference between Medicare and Medicaid? What do you need to know about these two important government programs and why? In this lively session, we break down the four sections of Medicare. Learn how to determine the proper Medicare plan for you as well as the pros and cons of Medicare Advantage programs. Many people believe that they need to spend all of their money before they would qualify for Medicaid benefits. Still others believe that there are no strategies available to protect some of their hard-earned assets. We will help demystify the Medicaid program and discuss different ways for you to plan for your future.

Thursday, June 28
1 to 3 p.m.
HUMNT-0001-604, Free. Space is limited.
On campus in Glen Ellyn

Living Well Series

Special Programming for Community Members Over 50
Many older adults are choosing to return to the workforce and Continuing Education is proud to offer several programs to help prepare for the next step. These are no-nonsense, streamlined classes designed for career search, work retraining or to meet other goals. From a workshop designed to evaluate an individual’s past and present to the skill based classes aligned with specific educational and career goals, this series proves useful to people at midlife. Additional information is available by calling (630) 942 2208.

Career Search for Plus 50
To help individuals aged 50 and older transition to new career and training opportunities, College of DuPage offers a specialized career readiness workshop. Under the guidance of an expert career coach, update your resume, practice interviewing and negotiating skills, and develop a professional LinkedIn profile. Learn about the resources available to you at College of DuPage and within the broader community. This class is offered at a minimal charge to students age 50 and over only.

Tuesday, July 3 to 31
6 to 8:30 p.m.
HUMNT 0001 150, $35
On campus in Glen Ellyn

Computer Skills Camp Plus 50
In this specially priced, two-day computer camp, students evaluate their computer skills under the guidance of an experienced and patient instructor. Determine if further study and practice is for you as you build confidence and competence. Set clear goals for where you want your skills to be, and develop a plan for how to get there.

Friday and Saturday, June 1 and 2
9 to 11 a.m.
HUMNT 0001 151, $50
Seaton Computing Center (SCC), Room 113

Job Search Websites for Plus 50
This class introduces websites that you should use during your job search, and which sites are on the “time waster” list. Sites explored include those that are local to the Chicagoland area, as well as general job search sites, such as CareerBuilder, Indeed and LinkedIn. We’ll discuss the pros and cons of each one, and how you can use these sites to your career advantage.

Thursday, Aug. 2 and 9
6 to 8 p.m.
HUMNT 0001 153, $25
On campus in Glen Ellyn

Networking for Plus 50
Networking is often seen as the single most powerful job search tool. Many Plus 50 job seekers are hesitant to create a network, let alone advertise to others that they are out of work or looking for a new position. Attend this workshop for some key ideas on networking, how to get one set up and how to use and nurture your network.

Tuesday, Aug. 7 and 14
6 to 8 p.m.
HUMNT 0001 154, $25
On campus in Glen Ellyn

Self Discovery for Plus 50
Evaluate your past accomplishments, current interests, skills and future goals in a friendly and supportive environment. Designed for the adult who is returning to school, entering the workforce, or exploring volunteer opportunities, this course explores some assessment tools, including writing exercises to help you uncover your true interests. Develop an awareness of yourself and your goals for the next step.

Tuesday, June 12 to 26
6 to 8 p.m.
HUMNT 0001 152, $35
On campus in Glen Ellyn

Get Connected to the MAC

Prepare for the exciting concerts and theater productions coming to COD’s McAninch Arts Center (MAC) in Glen Ellyn. Take one or more of the classes featured, and then attend College events with a newfound understanding.

**Christian Iconography**
Explore the deep symbolism imbedded in Christian art. This class examines motifs and allegories developed in the early years of the church, as well as those that evolved with the rise of the Gothic Cathedrals in the 13th to 15th centuries. After the Reformation, many of these iconographic systems fell out of favor, but can still be understood and appreciated today. This survey begins with the art of the catacombs, continues with medieval imagery and closes with the attributes of the saints.

Wednesday, July 11 to Aug. 1
7 to 9 p.m.
HUMNT-0001-041, $119; Lifelong Learner $79
Student Resource Center (SRC), Room 1118

**Classical Music Appreciation**
Get an introduction to the music and style of the great classical composers, from Bach, Beethoven and Mozart to Chopin, Liszt and Rachmaninoff. Engage in discussion of their most inspired and popular compositions, while also exploring the genre as a whole. Instructor: Bob Kucaba

Monday, July 9 to Aug. 13
1 to 3 p.m.
HUMNT-0001-044, $159; Lifelong Learner $119
On campus in Glen Ellyn

See our Sage Series on page ?? for more great learning opportunities at the MAC!
The Center for Entrepreneurship strives to advance the practice of entrepreneurship to stimulate economic growth and development through new company formation and business growth. The Center is committed to the small business community with programming and promotion of entrepreneurial activities through varied programs, customized advising and high quality training.

cod.edu/entrepreneurship
(630) 942 2600

There are three core programs offered under the Center for Entrepreneurship:

**SMALL BUSINESS DEVELOPMENT CENTER (SBDC)**
Offers counseling, advising and training on small business management, business planning, financial analysis, financing, acquisitions, franchises and marketing.

**INTERNATIONAL TRADE CENTER (ITC)**
Offers counseling, advising and training to companies interested in exporting their products or services and help the business to be “export ready.”

**PROCUREMENT TECHNICAL ASSISTANCE CENTER (PTAC)**
Offers counseling, advising and training on governmental contracting, governmental registration, customized bid matching, proposal preparation, contract analysis and certification assistance.

Inspire. Educate. Empower.

THE CENTER FOR ENTREPRENEURSHIP

Business Solutions at College of DuPage is designed to improve the performance of your organization through focused, customized and cost effective training to meet your unique business needs. Training can take place at your location or at any College of DuPage location, including the state-of-the-art Glen Ellyn campus.

To learn more about employee training opportunities, email bsolutions@cod.edu or call (630) 942 2770.

Courses may include:
- Computer/IT Training
- Leadership/Management Development
- Process Improvement
- Professional/Staff Development
- Specialized/Industrial Skills

Business Solutions
Driving Performance and Profitability
TRUCK DRIVING SCHOOL

Healthcare

Pharmacy Technician Program and Externship
This hybrid program is designed to provide students with the knowledge and skills necessary to work in a community or hospital pharmacy setting. Students will be prepared to assist the pharmacist in all daily pharmacy tasks and gain the communication skills necessary for interactions with patients and other healthcare professionals. The course includes classroom instruction and instructor-led, online curriculum for retail and institutional pharmacy practices.

Externship Component
Engage in an externship for the hands-on experience that puts you ahead of the rest! Students will have an optional externship component in a retail pharmacy location for 20 hours a week for six weeks available as part of the course fee. Students must complete a background check and pass a drug screening for externship eligibility.

A high school diploma or equivalency is a prerequisite of the course. Students must purchase course textbooks and acquire an Illinois Technician License. Students will schedule and pay for the board certification exam separately.

Tuesday and Thursday, June 5 to Aug. 9
5:30 to 8:30 p.m. (No class July 5)
BPHRM-0100-001, $1,499
Student Resource Center (SRC), Room 1127

Saturday, June 9 to Aug. 11
8 a.m. to 2:30 p.m. (No class July 7)
BPHRM-0101-002, $1,499
Student Resource Center (SRC), Room 1127

COD’s Pharmacy Technician Program is eligible for WIOA funding. Explore full details at worknetdupage.org.

Pharmacy Technician Information Session
Students are required to attend this introduction before registering for the Pharmacy Technician Course. Topics covered include course logistics, expectations and an overview of curriculum, including examples of mathematics used in the field. The information session is free and registration is preferred:
cod.edu/pharmacytech

Tuesday, May 22
6 to 8 p.m.

You love craft beer—now learn the skills needed for a career in this growing industry.

**BUSINESS OF CRAFT BEER**

**BUSINESS OF CRAFT BEER PROGRAM**

Craft beer is part of a profound shift in national beer culture, as small and independent brewers deepen their connection to craft beer enthusiasts, while continuing to attract new consumers. Chicagoland is proving to be a significant segment of this booming business, with the steady expansion of local craft breweries in the city and suburbs.

Explore the craft beer business and gain the knowledge you need to get started in this exciting industry, with Business of Craft Beer Program offered by College of DuPage Continuing Education. This hands on, premier beer education program focuses on the business of craft beer, with curriculum developed by key figures in the Chicago industry and courses conducted at College of DuPage.

Samplings will be included with the courses; students must be 21 years of age or older to attend.

**Advanced Beer Knowledge**

Take your knowledge of all things beer to the next level. This course builds from Foundations of the Craft Beer Industry to cover the highest industry standards in knowledge of beer styles, production, evaluation and service. Students emerge with a deep and well rounded knowledge of beer and how it is best handled from raw ingredient production to the customer's glass. This is a challenging and rewarding in depth survey for those interested in preparing for the Certified Cicerone® exam. This course is not affiliated with or endorsed by the Cicerone® Certification Program.

**Brewery Licensing and Permitting**

Opening a microbrewery or brewpub? Get a detailed walkthrough of the licensing process at the local, state and federal levels and learn best practices for ongoing compliance. State licensing will focus on IL requirements.

For course information, visit cod.edu/craftbeer.

Learn from the best about the business of craft beer through top training and networking.

Two specialized tracks of training available:

» Craft Beer Industry Professional
» Craft Beer Entrepreneurship

**THE CRAFT BEER INDUSTRY PROFESSIONAL TRACK**

gives students advanced knowledge and specialized skills to be a valuable asset to any craft beer business. This program is offered in fall and spring.

**THE CRAFT BEER ENTREPRENEURSHIP TRACK**

is perfect for those interested in starting their own craft beer-focused business. Students learn from the best in the industry about entrepreneurship in craft beer. This program is offered in spring.

Students can choose to take all courses within one term or take specific courses at their own pace over several terms.

**PAUL SLAYTON**

Paul Slayton began brewing beer with his wife, Emily, and brother-in-law, John.

“We learned about the amazing craft beer scene especially in Chicago a long time ago, and we fell in love with the beer and the culture pretty much instantly,” he said.

“I come from a restaurant/bar management background, Emily from a marketing background and John from a financial background. So the three of us were pretty well primed to start a business of our own, and beer just made sense.”

“I just hope that beyond the knowledge we impart to our students, they can take something away from our experience to make their journey into craft beer easier and fulfilling,” he said.

Professional Continuing Education
Take your career to the next level with highly-focused, skills-based professional training.

Business

Introduction to Unmanned Aerial Vehicle (UAV)
Get familiar with the basics of operating a small unmanned aerial vehicle (UAV). Through classroom and hands-on flying exercises, explore topics such as: FAA rules, air traffic control (ATC) airspace, weather, tactical operations, flight control, accuracy and business uses of the UAV. In the final hour of class, put your skills to work in a UAV challenge.

Friday, June 15
8 a.m. to 4:30 p.m.
HSTI-0002-090, $199
Homeland Security Training Center (HTC), Room TBA

Adjunct Faculty Training Program
cod.edu/professional
For those interested in becoming adjunct faculty and those newly developed adjunct faculty, this program provides basic and advanced techniques for professional development. Training topics include syllabi preparation, classroom management and formative and summative assessments. The online portion may be taken on your own schedule each week.

Textbooks are required.

This 12-week online class begins with an on-campus meeting:
Tuesday, May 22, 6 to 9 p.m.
Student Resource Center (SRC), Room 3030.
There will be two additional on-campus meetings for this course:
Tuesday, June 26 and Aug. 14
BSFPD-0200-HYB01, $500

Online Business Exam Preparation
Prepare for industry-recognized certification with interactive, easy-to-use online exam preparation. Assess your readiness for specific certification exams and review subject areas to increase your potential for success. uCertify courses provide the opportunity to study at your own pace, with a wide range of supplemental resources. Each program may have its own educational and experience requirements.

For information and to register, go to cod.edu/ceonline

**Healthcare**

**Anesthesia Technologist Bridge Program**
The first in the nation to address the changing credentialing for anesthesia technicians, College of DuPage offers the online bridge program. This professional development program trains certified Anesthesia Technicians to assist licensed anesthesiologists in providing safe and quality care to surgical patients. 16-weeks of classes are delivered entirely online. Students earn the 40 CEUs needed to sit for the CAAHEP National Certification Examination to become certified as an anesthesia technologist.

To qualify, students must be a certified anesthesia technician and have completed the pre-approval process with the American Society of Anesthesia Technologists and Technicians (ASATT). Please contact us at healthcare@cod.edu to receive the pre-approval documentation.

May 7 to Aug. 24
Online
BHLT-0300-002, $650

**Coronal Polishing and Fissure Sealant for Dental Assistants**
If you have more than 1,000 hours of clinical assisting experience, you qualify to register for the Coronal Polishing and Fissure Sealant program. Following the guidelines of the Illinois Dental Practice Act, this course is designed to provide participating dental assistants with the proper background knowledge and clinical experience in coronal polishing to enable them to perform this procedure in a dental practice setting. Instruction includes didactic study of anatomy, physiology, pharmacology and dental emergencies. Additional focus is placed on knowledge and skills required to successfully apply sealants in a clinical setting. Other topics covered include tooth anatomy and physiology, tooth morphology, sealant contraindications and the sequence of bonding and sealant placement. A written exam is required for completion. Participants must agree to act as a patient for coronal polishing. Each participant must follow OSHA guidelines for infection control and use of clinical Personal Protective Equipment (mask, gloves, eyewear and clinic gown or lab coat). Instructor: G. Halligan

Sunday, July 22
7:30 a.m. to 6:30 p.m.
BDENT-0200-001, $495
On campus in Glen Ellyn

**Local Anesthesia One-Day Refresher Course for Dental Hygienists**
Local Anesthesia Refresher for the Dental Hygienist is a comprehensive overview course that covers the current accepted delivery of local anesthetic administration. As professionals, you will use the knowledge gained from this course to refine and perfect techniques. Any handouts and learning techniques are presented based on published materials. The guidelines for this course follow the Illinois Dental Practice Act. All participants must supply a copy of their current Illinois dental hygiene license, CPR Certification, proof of previous completion of the 32-hour local anesthesia course and a copy of professional liability insurance coverage. Instructor: G. Halligan

Saturday, July 14
8 a.m. to 5 p.m.
BDENT-0310-001, $495
On campus in Glen Ellyn

**Train the Trainer—Certified Nurse Aide Instructor Course for RNs**
Successful completion of this IDPH-approved course qualifies registered nurses (RNs) licensed in Illinois to develop and teach a Basic Nursing Assistant Training Program (BNATP). Eligibility requirements include a current Illinois RN license, a minimum of two years of nursing experience and at least one year of experience caring for the elderly or chronically ill of any age. Participants are required to present a training simulation module. This course includes the Alzheimer’s component and IDPH Approved Evaluator Workshop.

Monday to Friday, Aug. 13 to 17
8 a.m. to 4 p.m.
BNURS-0300-001, $599
DuPage County Convalescent (Care) Center, Wheaton

---

**Andy Kaufman**
So many people in so many organizations are feeling overwhelmed, tasked with responsibilities they just don’t know how they’ll get done. I love providing tips, tools and techniques that empower people to lead and deliver,” he said. “I want my students to know that there are practical, well researched approaches that work in the real world, as opposed to just theory. The best compliment this teacher can get is, ‘I used what you taught and it helped me be successful.’
