ALEKS Placement, Preparation, and Learning (PPL) is an adaptive placement tool that is available to use for a one-year period. It has a remediation module called “Prep and Learning” to help review topics you may have forgotten or need to practice. The results from Test 1 determine a study plan individualized to your knowledge level. All questions on the ALEKS PPL test are free-response (no multiple choice). A maximum of three proctored attempts are available.

**Math Placement – ALEKS PPL Test Policies**

- One year use of ALEKS PPL based on account creation date
- Minimum Prep and Learning Module hours are required for some tests
- Allow at least 60-90 minutes to complete each proctored exam
- Use of scratch paper is allowed
- Use of the ALEKS PPL built-in calculator only
- Scores from Tests 2, 3 and 4 are valid for one year
- Highest ALEKS PPL score will determine placement

Testing Center staff will proctor ALEKS PPL Tests 2, 3 and 4 in person at one of our five testing center locations. **Before testing, you must have the following:**

1. **A valid ALEKS PPL account.** If your account has expired and/or previous test scores are over a year old, email alekstesting@cod.edu about an account reset.
2. **Completed Test 1 (unproctored)**
3. **Required minimum Prep and Learning Module hours completed** for Tests 3 and 4. If you have not done this, continue to work in your Prep and Learning Module until this requirement is met.

ALEKS PPL testing is available on a walk-in basis. No appointment needed. A photo ID is required. For hours and locations, click [here](#).

Contact academictesting@cod.edu for questions or more information.
Geometry Placement Testing
ALEKS Geometry is an adaptive placement tool that is available to use for an 18-week period. It has a remediation module to help review topics you may have forgotten or need to practice. The results from your first Knowledge Check determine a study plan individualized to your knowledge level. All questions on the ALEKS geometry test are free-response (no multiple choice). A maximum of two proctored attempts are available.

Math Placement – Geometry Placement Test Policies

- 18 weeks of access to ALEKS Geometry based on account creation date
- Allow at least 60-90 minutes to complete each proctored exam
- Use of scratch paper is allowed
- Use of the ALEKS Geometry built-in calculator only
- Scores are valid forever
- Highest ALEKS Geometry score will be used for placement

A few math courses require a geometry prerequisite. Your ALEKS PPL score may satisfy that requirement. Review the cut score chart for prerequisite requirements.

Testing Center staff will proctor ALEKS Geometry in person at one of our five testing center locations. Before testing, you must have the following:

1. A valid ALEKS Geometry account. If your account has expired and you have not taken your two attempts, email alektesting@cod.edu about an account reset.
2. Completed the Knowledge Check (unproctored)

ALEKS Geometry testing is available on a walk-in basis. No appointment needed. A photo ID is required. For hours and locations, click here.
