DENTAL HYGIENE

DEHYG 1101
Principles in Dental Hygiene I
3 Credit Hours
Principles of disease transmission. Infection control policies, patient procedures, patient assessment and fundamental instrumentation for the dental hygienist. Foundation of knowledge and strategies of preventive dental hygiene practice. Emphasis on mechanical and chemical plaque control, use of fluoride and health promotion. Prerequisite: Admission into the Dental Hygiene program or consent of instructor. (3 lecture hours)

DEHYG 1102
Principles in Dental Hygiene II
2 Credit Hours
Rationale for collection of assessment data and associated clinical procedures. Data collection. Use of instruments, dental sealants, topical fluorides, development of dental hygiene treatment plans. Introduction to direct patient care. Prerequisite: Admission to the Dental Hygiene program is required. Dental Hygiene 1101 with a grade of C or better or consent of instructor. (2 lecture hours)

DEHYG 1105
Dental Materials/Expanded Functions
3 Credit Hours
Physical and chemical properties of dental materials, characteristics and manipulation of impression materials, gypsum products, investments, waxes, cements, resins, metallic and non-metallic restorative agents. Prerequisite: Admission to the Dental Hygiene program is required. Dental Hygiene 1101, 1115, 1120, 1125 and 1135; all with a grade of C or better or consent of instructor. (2 lecture hours, 3 lab hours)

DEHYG 1112
Dental Radiology I
2 Credit Hours
Concepts of radiation history, radiation physics, radiation biology, radiation protection, dental X-ray equipment, film, image characteristics and film processing. Introduction to radiographic examination techniques. Prerequisite: Admission into the Dental Hygiene program or consent of instructor. (1 lecture hour, 3 lab hours)

DEHYG 1115
Dental Tooth Anatomy and Morphology
2 Credit Hours
Emphasis on clinical appearance of oral structures, dental terminology, morphology of the permanent and primary dentition, patterns, and the occlusion and malocclusion within and between the dental arches. Review of dental anomalies and other clinical appearances. Prerequisite: Admission to the Dental Hygiene program or consent of instructor. (1 lecture hour, 3 lab hours)

DEHYG 1117
Preclinical Dental Hygiene II
1 Credit Hour
Integration of the scientific and clinical principles underlying the practice of dental hygiene. Clinical procedures and techniques for patient assessment, including: prevention of disease transmission, health history, extra and intraoral examination, gingival evaluation and periodontal examination. Operation of the dental unit and basic instrumentation techniques for the removal of plaque and calculus are presented. Prerequisite: Admission into the Dental Hygiene program or consent of instructor.

DEHYG 1121
Clinical Dental Hygiene I
1 Credit Hour
Comprehensive examination procedures, charting and patient treatment. Adjunctive procedures are presented, dental caries preventive agent application and stain removal procedures. Integration of scientific and clinical principles underlying the practice of dental hygiene. Assessing, planning, implementing and evaluating dental hygiene care on patients in the clinical setting. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 1120 with a grade of C or better or consent of instructor.

DEHYG 1125
Head & Neck Anat: Histology & Embryology
2 Credit Hours
Organization, structure and function of the head and neck. Focus will be placed on histologic and embryologic development and structural microanatomy to gain an understanding of clinical and oral manifestations of the regions of the head and neck. Prerequisite: Admission into the Dental Hygiene program or consent of instructor. (2 lecture hours)

DEHYG 1135
Applied Nutrition & Biochemistry
2 Credit Hours
Principles of nutrition and biochemistry applied to dental hygiene patient care. Skills in diet analysis and patient counseling. Prerequisite: Admission into the Dental Hygiene program or consent of instructor. (2 lecture hours)

DEHYG 1136
General and Oral Pathology
2 Credit Hours
Pathology of the head and neck and oral structures. Specific pathologic processes, repair, healing and regressive changes. Developmental conditions, diseases of bacterial and viral origin, and neoplasms of the oral cavity. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 1101, 1115, 1120, 1125 and 1135; all with a grade of C or better or consent of instructor. (2 lecture hours)

DEHYG 1145
Medical Emergencies in a Dental Office
1 Credit Hour
Familiarity with critical steps in prevention, preparation, early recognition and appropriate management of common medical emergencies in the dental office. Prerequisite: Admission to the Dental Hygiene program is required. Dental Hygiene 1101, 1115, 1120, 1125 and 1135; all with grade of C or better or consent of instructor. (1 lecture hour)

DEHYG 1840
Independent Study
1 to 4 Credit Hours
Exploration and analysis of topics within the discipline to meet individual student-defined course description, goals, objectives, topical outline, and methods of evaluation in coordination with, and approved by the instructor. This course may be taken four times for credit as long as different topics are selected. Prerequisite: Consent of instructor is required. (1 to 4 lecture hours)
Adjunctive clinical services include dental sealants, ultrasonic assessment, planning and implementation of patient care. Continuation of clinical dental hygiene practice. Includes 1 Credit Hour Clinical Dental Hygiene II DEHYG 2222 consent of instructor. (1 lecture hour, 3 lab hours)

DEHYG 2202 Dental Hygiene Theory II 2 Credit Hours Application of dental hygiene theory to direct patient care. Overview of dental hygiene care of patients with various systemic and mental disorders. Presentation of periodontal cases is included. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 2201 with grade of C or better or consent of instructor. (2 lecture hours)

DEHYG 2211 Periodontics I 2 Credit Hours Periodontal anatomy. Physiology/etiologic of periodontal diseases. Clinical, histopathogenesis of gingivitis/periodontitis. Role of genetics, tobacco use and systemic preventative/therapeutic procedures associated with diagnosis, prognosis, treatment and initial phase of periodontal therapy. Prerequisite: Admission into the Dental Hygiene Program is required. Dental Hygiene 2201, 1102, 1105, 1112, 1121, 1135 and 1145; all with a grade of C or better or consent of instructor. (2 lecture hours)

DEHYG 2212 Periodontics II 2 Credit Hours Description of clinical procedures associated with surgical phase of periodontal therapy. Evaluation of periodontal treatment, maintenance phase, and relationship between periodontics and other dental specialties. Discussion of clinical management of the periodontum and adjunctive therapies. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 2211 with a grade of C or better or consent of instructor. (2 lecture hours)

DEHYG 2213 Dental Radiology II 2 Credit Hours Advanced dental radiographic and related procedures including exposure and technique errors, occlusal and localization techniques, normal anatomy, panoramic films and radiography, extraoral radiography and digital radiography. Radiography for patients with special needs, introduction to radiographic interpretation: dental caries, periodontal disease, trauma and pulpal and periapical lesions. Introduction to forensic odontology. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 1112 with a grade of C or better or consent of instructor. (1 lecture hour, 3 lab hours)

DEHYG 2222 Clinical Dental Hygiene II 1 Credit Hour Continuation of clinical dental hygiene practice. Includes assessment, planning and implementation of patient care. Adjunctive clinical services include dental sealants, ultrasonic scaling, air polishing, topical fluoride treatments and dental radiographs. Prerequisite: Admission into the Dental Hygiene Program is required. Dental Hygiene 1102 with grade of C or better or consent of instructor.

DEHYG 2223 Clinical Dental Hygiene III 2 Credit Hours Continuation of clinical dental hygiene practice. Includes assessment, planning and implementation of patient care. Adjunctive clinical services include dental sealants, ultrasonic scaling, air polishing, topical fluoride treatments, amalgam polishing, application of desensitizing agents and dental radiographs. Introduction to outside rotational experiences. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 2222 with grade of C or better or consent of instructor

DEHYG 2224 Clinical Dental Hygiene IV 2 Credit Hours Continuation of clinical dental hygiene practice. Includes assessment, planning and implementation of patient care. Adjunctive clinical services include dental sealants, ultrasonic scaling, air polishing, topical fluoride treatments, amalgam polishing, application of desensitizing agents and dental radiographs. Administration of topical and local anesthetic agents. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 2223 with grade of C or better or consent of instructor.

DEHYG 2225 Review of Dental Literature 1 Credit Hour Review and evaluation of dental literature for the contemporary dental hygienist. Focus on research methodologies and statistical analysis as it applies to dentistry. Prerequisite: Admission into the Dental Hygiene Program is required or consent of instructor. (1 lecture hour)

DEHYG 2232 Community Dental Health I 2 Credit Hours Dental hygienist's role in community. Epidemiological concepts, trends in oral diseases, research assessment tools, and strategies to improve public access to oral health care. Review of biostatistics, federal and state agencies, and managed care. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 2225 with grade of C or better or consent of instructor. (2 lecture hours)

DEHYG 2233 Community Dental Health II 2 Credit Hours Creation, implementation, and evaluation of a dental health care program in the community. Presentation of projects to faculty and peers. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 2232 or grade of C or better or consent of instructor. (6 lab hours)

DEHYG 2235 Dental Pharmacology & Local Anesthetics 2 Credit Hours
Classifications and varieties of drugs, pharmacologic effects, adverse reactions, usual indications and contraindications. Discussion of drugs utilized to treat common diseases. Pharmacokinetics of local and general anesthetic agents, and their use. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 1115, 1125, 1135, 1136, 2211, and 2222; all with a grade of C or better or consent of instructor. (2 lecture hours)

DEHYG 2245
**Ethics and Jurisprudence: Practice Manag**
2 Credit Hours
Preparation for professional role as health care provider and member of dental health team. Focus on ethical and legal responsibilities, dental practice act, malpractice issues, and scope of dental hygiene practice. Prerequisite: Admission into the Dental Hygiene program is required. Dental Hygiene 2201 with a grade of C or better and Dental Hygiene 2222 with a grade of C or better or consent of instructor. (2 lecture hours)

DEHYG 2860
**Internship (Career & Technical Ed)**
1 to 4 Credit Hours
Course requires participation in Career and Technical Education work experience with onsite supervision. Internship learning objectives are developed by student and faculty member, with approval of employer, to provide appropriate work-based learning experiences. Credit is earned by working a minimum of 75 clock hours per semester credit hour, up to a maximum of four credits. Prerequisite: Consent of instructor and 2.0 cumulative grade point average; 12 semester credits earned in a related field of study; students work with Career Services staff to obtain approval of the internship by the dean from the academic discipline where the student is planning to earn credit.

DEHYG 2865
**Internship Advanced (Career & Tech Ed)**
1 to 4 Credit Hours
Continuation of Internship (Career and Technical Education). Course requires participation in Career & Technical Education work experience with onsite supervision. Internship learning objectives are developed by student and faculty member, with approval of employer, to provide appropriate work-based learning experiences. Credit is earned by working a minimum of 75 clock hours per semester credit hour, up to a maximum of four credits. Prerequisite: Consent of instructor and 2.0 cumulative grade point average; 12 semester credits earned in a related field of study; students work with Career Services staff to obtain approval of the internship by the dean from the academic discipline where the student is planning to earn credit.
